FOREWORD BY THE EXECUTIVE MAYOR

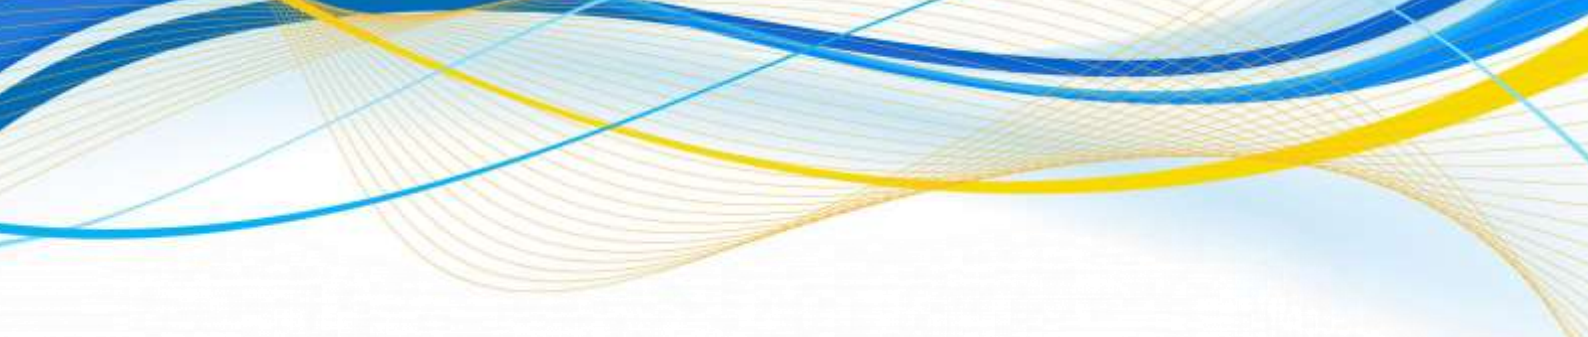

Cllr BT Mahlaku

Executive Mayor

The 2016/2017 Integrated Development Plan is our last Integrated Development Plan annual review of our 5- Year Plan which is 2012/13 – 2016/17. This document is a continuation of the work started by the democratic government under the leadership of the African National Congress (ANC) to ensure that our people are involved in the governance of their Municipalities. As the sphere of government closest to the people, we have a particular responsibility and mandate in achieving delivery of free basic services, building sustainable human settlements and viable communities, improving all public services, building infrastructure, creation of conducive environment for job opportunities and fighting poverty.

We are striving as a Municipality to ensure that our Integrated Development Plan speaks to the priority steps Municipalities needs to take, in implementing the National Development Plan. We have assured that we address weaknesses in supply chain systems to ensure a greater focus on value for money and to accelerate service delivery to our people. However, there is still room for improvement on these two aspects. We have also responded positively to the issue of development in our area, especially human settlement development in our area. With the assistance of our provincial department of human settlement we are progressing very well, as we have built more than 400 Community Residential Units in Zamdela, 148 Breaking New Ground Houses at Nick Ferreira. We have further ensure that we make more than 7000 sites available for housing at Wonderfontein in Sasolburg and more than 3000 sites at Mooidraai in Zamdela.

For a Municipality to ensure that it fulfills its mandate; it needs a mechanism to identify its priorities and challenges that determines its vision and mission and by the identification of projects to address those priorities and challenges. The objectives, strategies and interventions forthcoming from the Integrated Development Plan support the vision and mission and also the fundamentals of our Municipality.

This credible Integrated Development Plan was adopted by all political parties to accommodate the changes that can keep it relevant and responsive to ensure that it gives effect to the Constitutional mandate, as a Municipality to strive within its capacity and mandate, to achieve the objectives regarding efficient and effective service delivery such as proper roads, access to electricity and clean running water.

Lastly, I would like to thank the following stakeholders for their total commitment and active participation towards the finalization of this document:

The IDP Steering Committee, IDP Representative Forum, the Members of the Mayoral Committee and all Councilors, our Municipal Manager Mr. Steve Molala and the management team, our staff and most importantly our communities and other stakeholders for giving their comments and inputs.

STRATEGIC OVERVIEW BY THE MUNICIPAL MANAGER

Mr SM Molala

Municipal Manager

Situational Analysis and Public Participation:

As we move into another term of Council, we look back with gratitude for the achievements we have attained since 2012/ 2013 financial year. This revised 2016/2017 marks the last IDP review of the current Council.

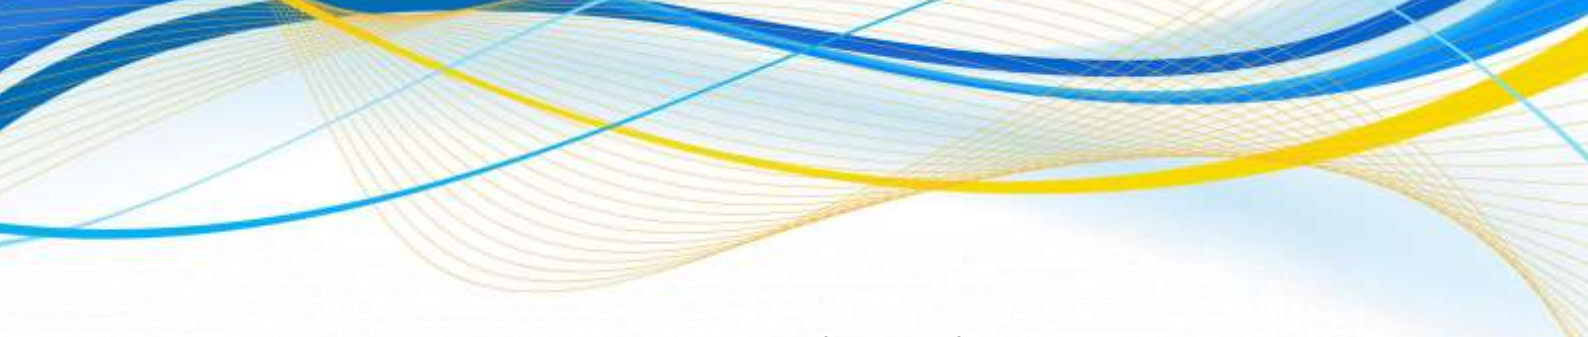

The Integrated Development Plan (IDP) serves as the Municipality's principal strategic planning instrument that guides and informs all planning and development in our Municipality. As a Municipality we therefore always value the inputs and participation that we get from our public and different stake holders.

A need assessment is always conducted through various stakeholder engagements and public participation meetings, where our community's needs are assessed and prioritised.

MLM 2016/17 IDP Alignment to National & Provincial Priorities (NDP and FSGDS):

In line with the National Development Plan (NDP) 2030, we have embarked on a Metsimaholo LM 30 year Generational Development Plan. This is to among other things intended to address Local Economic Development within our Municipality through Infrastructure Development and creation of job opportunities. EPWP and CWP programmes continue to be the key drivers in boosting job creation within our communities.

Moreover, in line with the Free State Growth and Development Strategy (FSGDS) we have turned our focus on tourism and agriculture. We have now approved our tourism strategy that will enable us to attract more tourists into our Municipal jurisdiction. The Municipality is currently in the process of upgrading our tourism facilities (i.e. Abrahamrust) so that they can appeal to the vast majority of tourists and holiday makers. We are happy with the successful hosting of the annual International

Powerboat tournament that attracts a lot of people from within and even outside the borders of our country to come and take part in this annual event.

Municipality on Basic Service Delivery:

Together with a Crack Team from Free State Government (CoGTA), we have embarked on a “Back to Basics” intervention programme that focuses turning around mainly on key and basic service delivery issues. This programme has assisted us in addressing some of the key challenges that our Municipality was faced with in terms of basic service delivery.

In addressing the general Service Delivery issues:

Roads:

Several tenders were advertised and companies appointed for paved roads in Zamdela: Ward 11 and 12. We have also started on the Electrification of Amelia on bulk electrical supply.

Sanitation:

A sanitation project at Gortin is still under way and we have also extended refuse removal services to Amelia and Temba Kubheka. Cemetery fencing in Zamdela, Sasolburg and Metsimaholo will also be under way in order to give dignity to our communities.

We will be improving in terms of our performance and will ensure that all directorates are able to deliver in accordance with our SBIP and IDP

Municipal Financial Sustainability:

The Municipality remains resolute in improving the quality of services provided to its citizens and this stance needs enhanced Municipal revenue base. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that currently, we are faced with development backlogs, unemployment and poverty within our communities. Therefore, the expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues. Revenue (at 75.8) generated from rates and services charges forms a significant percentage of the revenue basket for the Municipality. As a result one can safely indicate that our current Financial Position looks quite promising and this is attributed to good revenue collection. We also humbly appeal to our communities to keep on supporting our revenue collection strategy: *Operation Patala*.

Auditor General' Report:

Every year we learn from our past experiences and do our best to improve on the quality of services we render to our communities. It is encouraging to note the positive

outcome from the Auditor General's report and we are pleased to have obtained unqualified reports for two successive financial years of 2013/2014 and 2014/2015. This reflects well on our progress within the 5 year performance since 2011/2012 to

2015/2016 term. We continue to work hard on AG action plan in order for us to address all the matters of emphasis which have been raised and strive to obtain a clean audit going forward.

Lastly I would like to express my appreciation for all the Political support and oversight we received from Council, Mayoral Committee, MPAC, our Management and staff and all our stake holders and our communities. Tireless efforts from our senior management, middle management and the entire staff has ensured that we render quality service delivery to our communities as promised and thereby carrying out our mandate of bettering the lives of our people.

We will continue to strive to be a Municipality of excellence and economic powerbase.

METSIMAHOLO LOCAL MUNICIPALITY MISSION AND VISION

VISION STATEMENT

“ To be the economic powerbase and municipality of excellence.”

MISSION STATEMENT

“To promote the sustainable socio-economic development of our communities through effective, efficient and affordable service delivery and sound institutional and financial management.”

VALUES STATEMENT

Our Values (The talk we want to walk), being:

- **Professionalism:**

To always deal with our customers (internal & external) and stakeholders by displaying respect, approachability and responsiveness

- **Commitment:**

To fulfil our duties and responsibilities both at institutional and individual levels with an unwavering commitment to our vision and mission

- **Integrity:**

Engaging with communities, stakeholders and customers in an ethical, just, fair, accountable, open, transparent and honest manner and taking responsibility for our actions

- **Excellence:**

Meeting and exceeding service standards and customer/community expectations

- **Passion:**

To do our work with energy, purpose and enthusiasm

SPHERES OF GOVERNMENT ALIGNMENT

Cooperative governance means that three spheres of government should work together to provide citizens with a comprehensive package of services. The Constitution states that the three spheres of government have to assist and support each other, share information and coordinate their efforts. Implementation of policies and government programmes require close cooperation between spheres of government especially at executive level. MLM strategic objectives are informed by the Millennium Development Goals (MDG), National Development Plan (NDP), National Outcomes, Back to Basic approach as well as the Free State Growth and Development Strategy. All the above concerted efforts are depicted the strategies phase which forms the basis of this document.

MLM STRATEGIES AND OBJECTIVES

- Building our local economy to create more employment, decent work and sustainable livelihoods
- Broadening access to and improve the quality of municipal services
- Building united, non-racial, integrated and safer communities
- Promoting active community participation
- Ensuring more effective, accountable and clean local government that works together with national and provincial government

IDP ALIGNMENT

MLM ALIGNMENT DASHBOARD

NATIONAL DEVELOPMENT PLAN	NATIONAL OUTCOMES	PROVINCIAL FREE STATE GROWTH AND DEVELOPMENT STRATEGY	DISTRICT FEZILE DABI GROWTH AND DEVELOPMENT STRATEGY	MLM STRATEGIC OBJECTIVES

South Africa in the region and the world	Create a better South Africa, a better Africa and a better world			
Nation building and social cohesion		Maximise Arts, Culture, Sports and Recreation opportunities and Prospects for all Communities		SP3: Build united, non-racial, integrated and safer communities
Improving education, training and innovation	Quality Basic Education Skilled and capable workforce to support an inclusive growth path	Ensure an Appropriate Skills Base for Growth and Development		SP5: Ensure more effective, accountable and clean local government that works together with national and provincial government

The above table depicts the alignment of all spheres of government plans and programmes. The structure of the IDP document is basically informed by the Metsimaholo Local Municipality Strategic Objectives. The table shows the alignment and synergy that exist amongst the following plans: National Development Plan, National Outcomes, Free State Growth and Development Strategy/District – Fezile Dabi Growth and Development Strategy and MLM Strategic Objectives.

MUNICIPAL DEVELOPMENT STRATEGIES

The Municipality has through its strategic planning and public participation processes ensured that the Municipal Strategic Priorities were unpacked by developing Key Performance Areas (KPAs), Programmes, Objectives, Key Performance Indicators (KPIs) and Targets for each of the KPAs and programmes.

The said Objectives, Indicators and Targets have been aligned to the Provincial Priority Outputs, where possible and will form the basis for the development of the Municipality's Service Delivery and Budget Implementation Plan (SDBIP) and Annual Performance Plans of Senior Management for the 2016/17 financial year.

The table below provides a summary of the Strategic Priorities, KPA and programmes.

MUNICIPAL STRATEGIC PRIORITIES

Strategic Priority	Key Performance Area	Programmes
SP1: Build our local economy to create more employment, decent work and sustainable livelihoods	KPA 2: Local Economic Development	P8-Local Economic Development P9-Job Creation P10-Sustainable livelihoods
SP2: Broaden access to and improve the quality of municipal services	KPA 1: Service Delivery and Infrastructure Development	P1-Water P2-Sanitation P3-Electricity P4-Roads and storm water P11-Waste management P12-Community facilities
SP3: Build united, non-racial, integrated and safer communities	KPA 3: Community Development and Social Cohesion	P13-Clean communities P14-Safe communities P15-Healthy communities P16-Arts and culture P17-Disaster management
	KPA 1: Service Delivery and Infrastructure Development	P5-Human settlements P6-Spatial development P7-Public transport
SP4: Promote active community participation	KPA4: Public Participation and Good Governance	P18-Participatory governance
SP5: Ensure more effective, accountable and clean local government that works together with national and provincial government	KPA 4: Public Participation and Good Governance	P19-Corporate governance P20-Intergovernmental Relations P21-Customer care
	KPA 5: Financial Management and Viability	P22-Revenue and cash flow management P23-SCM and Expenditure management P24-Budgeting and reporting P25-Clean Audit P26-Asset management P27-Facilities management
	KPA 6: Institutional Development and Transformation	P28-Human capital P29-Institutional excellence

5-YEAR CLUSTER STRATEGIC PLANS

Based on the above table clusters developed detailed 5-Year Strategic Plans, which include the Strategic Priorities, KPA's, Objectives, KPIs and Targets, risks and mitigating actions for each function. The 5-Year Cluster Strategic Plans are contained in the tables below.

ECONOMIC AND INFRASTRUCTURE DEVELOPMENT CLUSTER

EID CLUSTER – 5 YEAR STRATEGIC PLAN

Strategic Priority (SP2) : Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1) : Service Delivery and Infrastructure Development												
Programme 1: Water												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To ensure access to potable water by 2014	1.1 No of total HHs with access to potable water in formalised areas (yard metered connection)	Technical Services		46255	51 893	45 755	46 255	48 792	50 292	51 893	Lack of funding to install connections in newly proclaimed areas	Proactively engage with FS Dept. of Human Settlements
	1.2 No. of HHs provided with new metered yard connections			500	6 138 ²	0	500	2 537	1 500	1 601	Lack of funding for connections in newly proclaimed areas	Proactively engage with FS Dept. of Human Settlements
To ensure sufficient bulk supply of purified water	1.3 % of purification works (WTW) in Refengkgotso augmented			100%	100%	99% ³	100%	0	0	0	Vandalism-lack of security	Deployment of security personnel alarm system to be install
	1.4 % of 9ML reservoir completed			100%	100%	99%	100%	0	0	0	Vandalism-lack of security	Deployment of security personnel alarm system to be install
	1.5 % of bulk line completed for Themba Kubheka			100%	100%	0%	100%	0	0	0	No risk	Not applicable
	1.6 % of bulk line completed for Moodraai area			0%	100%	0%	0%	0%	100%	0	Insufficient funding to construct water network	Acquire funding
	1.7 Maintenance plan developed and approval by Council			100%	100%	100%	100%	100%	100%	100%	limited budget to reach targets in maintenance plan	Budget to be adjusted
To ensure the effective and efficient management of water resources	1.8 % of minimization of water distribution losses.	Financial Services		14%	14%	16%	14%	14%	14%	14%	Aged infrastructure and illegal connections	MOU outcome to be implemented
	1.9 % of reported water leaks repaired			95%	100%	100%	100%	100%	100%	100%	Lack of internal capacity to respond on time	New organogram to be implemented
	1.10 % compliance with the blue drop water			98 %	99%	96%	97%	98%	99%	99%	Financial and personnel capacity	All processes and training to be finalized

²Backlog = Themba Kubheka (2 537); Moodraai (3 101)

³ Practical completion of WTW achieved/Commissioning and handover & release of retention outstanding (1%)

2014/15: Themba Kubheka house connections, 2 537

2015/16: Moodraai 1 500 stands

2016/17: Moodraai 1 601 stands

Strategic Priority (SP2) : Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1) : Service Delivery and Infrastructure Development												
Programme 1: Water												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	quality accreditation system ⁴											
	1.11 WSDP developed and approved			90%	90%	90%	90%	90%	90%	90%	Lack of support from DWA	To be finalized
	1.12 Number of zonal meters installed			100%	100%	0% (Ph 3&4)	75%	100%	100%	100%	Lack of funding	Acquire funding

Strategic Priority (SP2): Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1): Service Delivery and Infrastructure Development												
Programme 2: Sanitation												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To provide decent sanitation to all households	2.1 No. of HHHs with access to decent sanitation.			46 055	51 893	39 868	43 055	46 055	48 592	51 893	Lack of funding to install connections in newly proclaimed areas	Business plan be submitted to Human Settlement requesting funds
	2.2 No. of households provided with sewer house connections			3000	11 888 ⁵	2 400	3 187	3 000	2 537	3 301	New informal areas developing	Business plan be submitted to Human Settlement requesting funds
To ensure sufficient bulk infrastructure	2.3 Planned sewer pump station constructed in Gortin			0%	100%	0%	0%	40%	80%	100%	Lack of funding	Business plan be submitted to Human Settlement and DWA requesting funds
	2.4 No. of kms of outfall sewer line replaced			0 km	8km	0km	0km	2km	3km	0	Lack of funding	Metsimaholo budget internal
	2.5 Maintenance Plan developed and approved by Council			0	100%	100%	100%	100%	100%	100%	Lack of funding	Metsimaholo budget internal

Note that blue drop assessment is done annually by DWA

⁵Total no. of HHHs is 45 755; Backlog of 11 699 = Gortin (3 187); Amelia (3 000); Themba Kubheka (2 537); Mooidraai (2 975)

	2.6 % of reported sewer blockages attended on time (within 48 hours)		100%	100%	100%	100%	100%	90%	100%	Lack of internal capacity (personnel and vehicles) to respond on time	Ward based budget to be considered
To ensure the effective and efficient management of the sanitation system and network	2.7 % compliance with the green drop quality accreditation system ⁶		80%	80%	70%	70%	80%	80%	85%	Financial and personnel capacity	All process and training to be finalized

Strategic Priority (SP2): Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1) : Service Delivery and Infrastructure Development												
Programme 3: Electricity												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To ensure access to electricity by all communities	3.1 No. of HHs with access to basic electricity in formal areas	Technical Services		46 675	51 893	41 722	43 175	(Amelia & Gortin) 46 675	(TK) 47 875	(TK) 51 893	Availability of funds (DoE)	Application to DoE
	3.2 No. of HHs provided with new metered stand connections in formal areas			3 500	6 037	0	1 453	3 500	1 200	4 018	Availability of funds (DoE)	Application to DoE
	3.3 No. of new high mast lights installed			25	80	25	25	0	10	0	Lack of security and road safety	Application to MIG, after electrification of the new area
	3.4 No. of Switching stations erected in Amelia			0	2	0	0	0	1	1	Availability to electricity	Application DoE
	3.5 Maintenance Plan developed and approved by Council			100%	100%	100%	100%	100%	100%	100%	Insufficient maintenance budget to reach targets in maintenance plan	Budget constraints
To ensure the effective and efficient management of the electricity network	3.6 electricity master plan developed and approved			75%	100%	0%	75%	100%	100%	100%	No future planning	Provision on Budget
	3.7 % electricity	Financial Services		12%	10%	14%	13%	12%	11%	10%	Loss of income	Audit of meters, data

⁶ Note that green drop assessment is done every 2 years; Assessment was done for current year (2012/13)

Strategic Priority (SP2): Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1) : Service Delivery and Infrastructure Development												
Programme 3: Electricity												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	distribution losses minimized											and law enforcement
	3.8 % reported outages responded to in time			2 hrs	2hrs	2hrs	2hrs	2hrs	2hrs	2hrs	Lack of internal capacity (personnel and vehicles) to respond on time	Filling of vacancies
	3.9 % of reported industrial outages responded to in time			24hrs	24hrs	24hrs	24hrs	24hrs	24hrs	24hrs	Lack of internal capacity to respond on time	Filling of vacancies
	3.10 % of reported faulty street and high mast lights responded to in time			3 months	2 months	4 months	3 months	2 months	2 months	2 months	Lack of internal capacity	Acquire staff and material

Strategic Priority (SP2): Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1): Service Delivery and Infrastructure Development												
Programme 4: Roads and Storm Water												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						Yr.1 2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To ensure sufficient roads and storm water networks to all communities	4.1 Total km of unengineered roads(dirt roads) graded	Technical Services		10 km	60km	6km	10km	10km	12km	12km	Budget constraints	Engagement with DBSA loan to be utilised in upgrading of roads
	4.2 % roads and storm-water infrastructure maintained			100%	100%	100%	100%	100%	100%	100%	Budget constraints	Engagement with DBSA loan to be utilised in upgrading of roads

4.3 Strategic Priority (SP2): Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1): Service Delivery and Infrastructure Development												
Programme 4: Roads and Storm Water												
	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
4.3	4.5 % of roads and storm water master plan developed and approved			75%	100%	0%	75%	100%	100%	100%	Budget constraints	Sasol/DoT and MIG to be engaged
4.4	4.6 % of pavement management system developed and approved			0%	100%	0%	0%	0%	0%	100%	Budget constraints	Sasol/DoT and MIG to be engaged
4.5	4.7 % actual capital expenditure (CAPEX) as a percentage of the approved/adjusted budget			100%	100%	100%	100%	100%	100%	100%	N/A	N/A
4.6	4.8 % actual capital expenditure (OPEX) as a percentage of the approved/adjusted budget			100%	100%	100%	100%	100%	100%	100%	N/A	N/A
4.7	4.9 % of Auditor General queries resolved by end of April			90%	100%	50%	50%	90	100%	100%	Delay in resolving queries raised by AG for compliance	Ensure timeous resolving of queries raised by AG
4.8	4.10 report submitted on performance assessment of the service providers			100%	100%	0%	0%	100%	100%	100%	Non compliance to assessment of service providers	Ensure regular assessment on performance of service providers

Strategic Priority (SP 3): Build united, non-racial, integrated and safer communities												
Key Performance Area (KPA 1): Service Delivery and Infrastructure Development												
Programme 5: Human Settlements												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To provide sustainable human settlements	5.1 Number of stands transferred	Planning & LED		24 stands	100%	0%		24	24	24	Insufficient information submitted by beneficiaries	Community education programmes (accurate

and improved quality of household life through accelerated delivery of housing opportunities and access to basic services												data to be submitted)
	5.2 Integrated Human Settlement Plan reviewed and approved by Council		100%	100%	100%	100%	100%	100%	100%	100%	Incoherent housing delivery projects	Implement the proposals of the sector plan
	5.3 Business Plan development for Housing Accreditation (Level 1 & 2)		0%	100%	0%	0%	50%	100%	100%	100%	Lack of funding to increase unit's capacity	Negotiate funding from Province and secure Council approval
	5.4 Housing register up to date	Technical Services	0	100%	100%	100%	100%	100%	100%	100%	Delay in approval of township establishments	Regular monitoring of processes for updates

Strategic Priority (SP3): Build united, non-racial, integrated and safer communities													
Key Performance Area (KPA 1): Service Delivery and Infrastructure Development													
Programme 6: Spatial Planning													
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions	
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17			
To stimulate development through effective and efficient spatial planning and building control	6.1 Spatial development framework (SDF) reviewed and approved by Council	Planning & LED		100%	100%	100%	100%	100%	100%	100%	Incoherent spatial developmental patterns	Implement the spatial development proposals	
	6.2 Identified informal settlements Formalised		Municipal Manager	2 (T/Kubheka & Moodraai)	100%	0%	0%	0%	100%	100%	Delays in approval by Province	Constant engagement with Province	
	6.3 Tribunal established and Functional		All Depts.		0%	100%	0%	0%	0%	100%	100%		
	6.4 No. of rezonings, subdivisions and consolidations applications processed				70%	100%	70%	70%	100%	80%	100%	Incomplete inspection register	Maintain the inspection register monthly
	6.5 No of buildings inspected and action taken in the event of transgressions of building regulations				70%	100%	100%	100%	100%	100%	100%		

Strategic Priority (SP1): Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 7: Public transport												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	7.1 No. of new taxi ranks completed	Technical Services		1	6	0	1	1	1	0	Lack of funding	Ward based budget to be considered

Strategic Priority (SP 1): Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 8: Local Economic Development												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	8.1 LED Strategy Reviewed and approved by Council			100%	100%	0%	0%	100%	100%	100%	Delay in Reviewing and approving LED strategy.	Annual Strategy Review
To ensure support (non-financial and financial) for small enterprises, co-operatives and the informal sector	8.2 All identified LED sub-plans developed and implemented.	Planning & LED		0	6	0	0	2	2	2	Lack of proper coordination	Strengthening communication channels
	8.3 Number of training programmes offered to SMMEs and Cooperatives			4	8			4	4	4		
	8.4 Incentive policy developed and approved by Council			50%	100%			50%	100%	100%		
	8.5 Tourism brochure developed and distributed.			50%	100%	0	0	50%	100%	100%	Lack of information for tourists	Finalise and approve the brochure
	8.6 Identification and registration of local heritage sites			0	2	0	0	0	1	1	Lack of information on local history	Continuous information dissemination
	8.7 No of tourism events hosted			2	6	0	0	2	2	2	Inadequate tourism initiatives due to inadequate funding	Mobilise funding
	8.8 A business Summit organised.			0	2	0	0	0	1	1		
	8.9 No. of social labour plan			1	5	1	1	1	1	1	No funding from Mining houses	Engage with mines and DMR

Strategic Priority (SP 1): Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 8: Local Economic Development												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	8.1 LED Strategy Reviewed and approved by Council			100%	100%	0%	0%	100%	100%	100%	Delay in Reviewing and approving LED strategy.	Annual Strategy Review
	(SLP) projects completed ⁷											
	8.11 No. of local jobs summit organised and convened			1	4	0	1	1	1	1	Lack of interest from stakeholders	Proper briefings and marketing

Strategic Priority (SP1): Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 9: Job Creation												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To make a meaningful and visible contribution to employment creation	9.1 Number of statistical reports compiled on employment opportunities created as part of LED (NKPI: 7)	Planning & LED	All Depts	4	20	4	4	4	4	4	Departments not keeping proper records and submitting information to LED on time	Develop template in consultation with relevant departments
	9.2 Number of statistical reports compiled on employment opportunities created through EPWP initiatives (NKPI: 7)		All Depts	4	20	4	4	4	4	4	Departments not keeping proper records and submitting information to LED on time	Develop template in consultation with relevant departments
	9.3 Number of quarterly statistical reports compiled on employment opportunities created through CWP by 2014 (NKPI: 7)		All Depts	4	20	4	4	4	4	4	Departments not keeping proper records and submitting information to LED on time	Develop template in consultation with relevant departments
	9.4 Actual capital expenditure (CAPEX) as a percentage of the approved/adjusted				100%	100%	100%	100%	100%	100%	100%	N/A

Note that SLP projects are implemented by the various companies and the municipality does not have direct control over the said projects

Strategic Priority (SP1):Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 9: Job Creation												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
	budget											
	9.5 Actual capital expenditure (OPEX) as a percentage of the approved/adjusted budget			100%	100%	100%	100%	100%	100%	100%	N/A	N/A
	9.6 Auditor General queries resolved by end of April			100%	100%	100%	100%	100%	100%	100%	Delay in resolving queries raised by AG for compliance	Ensure timeous resolving of queries raised by AG
	9.7 Report submitted on performance assessment of the service providers			100%	100%	0%	0%	100%	100%	100%	Non-compliance to assessment of service providers	Ensure regular assessment on performance of service providers

Strategic Priority (SP1):Build our local economy to create more employment, decent work and sustainable livelihoods												
Key Performance Area (KPA 2): Local Economic Development												
Programme 10 :Sustainable Livelihoods												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	2014/15	2015/16	Yr.5 2016/17		
To ensure that poor households have access to free basic municipal services (NKPI: 5)	10.1 Indigent register updated according to requirements	Financial Services		0%	100%	0%	0%	100%	100%	100%		
	10.2 Place an advert annually in the newspaper calling for IGG registrations			100%	100%	100%	100%	100%	100%			
	10.3 Capturing of all new IGG applications on Indigent register within two months			100%	100%				100%	100%		

SOCIAL PROTECTION AND COMMUNITY DEVELOPMENT CLUSTER

SPCD CLUSTER – 5 YEAR STRATEGIC PLAN

Strategic Priority (SP2):Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 1):Service delivery and infrastructure development												
Programme 11:Waste Management												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts.	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	Yr.3 2014/15	Yr.4 2015/16	Yr.5 2016/17		
To provide affordable, effective, efficient, economical and accessible waste management services to all communities.	11.1 Refuse removed regularly in all targeted areas. <i>(removal at least once a week)</i>	Social Services	Fleet management	47 000	50 000	100% (46 000)	100% 47 000	100% 48 000	100% 49 000	100% 50 000	Non-maintenance of equipment and constant break-downs; non availability of extra vehicles	Implementation of new fleet management policy and system, purchasing of new vehicles
	11.2 % of formal businesses receiving a daily refuse removal service		Fleet management	100%	100%	100%	100%	100%	100%	100%	Non availability of vehicles; Lack of capacity	Leasing or purchasing of vehicles. Appointment of staff
	11.3 IWMP reviewed and approved by Council			100%	100%	0%	100%	100%	100%	100%	Plan not being approved annually and inadequate funding	Engage with the District and secure funding
	11.4 % of Integrated Waste Management Plan (IWMP) information system developed and implemented			12	100%	0%	25%	50%	100%	100%	Inadequate implementation of plan due lack of funds	
	11.5 Existing landfill site closed		LED	Existing landfill site closed	100%	0%	25% (EIA)	100%	100%	100%	Waiting for the approval from national department on closure	Request the process to be expedited from department of environmental affairs
	11.6 new landfill site established				25%	50%	0%	25% (EIA)	25%	50%	75%	Suitable land not found for new landfill site
Strategic Priority (SP2):Broaden access to and improve the quality of municipal services												
Key Performance Area (KPA 3):Community Development and Social Cohesion												
Programme 12:Community Facilities												
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts.	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions
						2012/13	2013/14	Yr.3 2014/15	Yr.4 2015/16	Yr.5 2016/17		
To promote access and utilisation of	12.1 1 Number of new recreation	Social Services		2	10	2	2	2	2	2	Inadequate funds for the establishment of	Secure funds from private

Strategic Priority (SP2):Broaden access to and improve the quality of municipal services													
Key Performance Area (KPA 1):Service delivery and infrastructure development													
Programme 11:Waste Management													
Objectives	Key Performance Indicator (KPI)	Lead MLM Dept	Other MLM Depts.	Baseline 2014/15	Five Year Target 2016/17	Annual Targets					Risks identified	Mitigating Actions	
						2012/13	2013/14	Yr.3 2014/15	Yr.4 2015/16	Yr.5 2016/17			
public and community amenities.	all parks developed											community parks	companies
	12.2 Number of new sports grounds established		2	18	4	4	2	4	4		Inadequate land for the establishment of new sports grounds	Secure more land from SDF of the municipality	
	12.3 Number of new cemeteries developed		1	2	0	1	1	1	0		Inadequate funds for the establishment of new cemetery	Secure funding from MIG	
	12.4 Number of existing community halls maintained		7	7	6	7	7	7	7		Lack of security & maintenance plan	Intensify security and enforce maintenance plan.

MEC COMEMMENTS ON 2015/16 MLM IDP ASSESSMENT

IDP ASSESSMENT OUTCOME

Metsimaholo Local Municipality Summary of MEC: CoGTA Provincial IDP Assessment Outcome/Ratings as per Assessment done for 2015/16 IDP.

Key Performance Areas	Number of Yes	Number of NOs	Comments for NOs (Not limited to the mentioned)	Municipal Response/Action to be taken
Spatial Development Framework (SDF)	1	9	Indicated in the IDP with unreadable maps. The municipality did appoint a service provider (LMV) to formulate a new SDF	Draft SDF is available and awaiting Public consultation process.
Service Delivery/Infrastructure Water :	8	10	Municipality has to develop the WSDP and reflect it in the IDP and indicate the status of the existing infrastructure based on the population per town.	Advertisement has been done for WSDP to be developed.
Sanitation :	4	23	The municipality should develop the master plans and the WSDP has to be developed with regards to population per town.	Advertisement has been done for WSDP to be developed
Energy and Electricity:	0	19	The municipality do not have	Master Plan to be developed

			Energy plans	when funds secured
Roads :	22	6	PRT will assist with the status of the Integrated Transport Plan	No Plan in place.
Waste Management :	16	1	Municipality must provide the Status of the Trade Effluent Policy in the IDP	Information to be provided
1. Local Economic Development	12	3	Information is outdated.	LED Strategy approved and information is updated.
2. Good Governance	24	0		n/a
3. Financial Viability	14	0		n/a
4. Institutional Arrangements	16	1		Organizational structure to be provided
5. Social Services	12	9	Municipality must provide SDF	SDF to be provided
6. Disaster Management	0	9	Disaster management plan is not attached.	Plan to be attached
7. Tourism	0	15	No capacity to plan for tourism projects and implement the National Tourism Sector Strategy	Marketing and Tourism Unit has been established. It is envisaged that Tourism Sector Plan will be developed by 2016.

MUNICIPAL INSTITUTION

The MLM is an organ of state within the local sphere of government exercising legislative and executive authority within its area of jurisdiction as determined in terms of the *Local Government: Municipal Demarcation Act* 117 of 1998. It consists of a political structure, an administrative component and the community.

POLITICAL STRUCTURE

The political component of the MLM is based on an Executive Mayoral Committee (Mayco) system. The Executive Mayor has certain legislative and delegated executive powers and appoints members of the mayoral committee in terms of sections 60 and 80 of the MSA. The Executive Mayor and Mayoral Committee is accountable and reports to the Municipal Council.

There are various decision making structures within Council which include the following:

- Municipal Council;
- Executive Mayor and Mayoral Committee;
- Portfolio Committees, including:
 - ✓ Section 80 Committees;
 - ✓ Section 79 Committees;
- Officials with delegated powers.

The MLM Municipal Council currently consists of 42 Councillors, 21 Ward Councillors and 21 Proportional Councillors. The following political parties are represented in the Council:

African National Congress (ANC)	26
Democratic Alliance (DA)	15
Freedom Front (FF)	1

MLM adopted the ward committee system. The municipality is currently divided into 21 wards, each with a Ward Councillor as Chairperson. Ward Committees meet once a month in order to discuss matters affecting its ward. In order to strengthen and improve the ward committee's capacity, a number of Community Development Workers have been appointed.

TABLE 1: LIST OF MLM WARD COUNCILLORS:

Ward Councillor	Ward	Political Party	Portfolio Committee
Cllr Matsheliso Tamane	1	ANC	Technical Services LED, Tourism & Agriculture

Cllr Jacob Mahlangu	Proportional	DA	Social Services
Cllr Mokone Machaea	Proportional	DA	LED, Tourism & Agriculture
Cllr A M Ramphala	Proportional	DA	MPAC

ADMINISTRATIVE COMPONENT

The Municipal Manager assisted by Directors, manage the Departments of:

1. Finance,
2. Planning and Economic Development,
3. Technical and Infrastructural Services,
4. Social Services,
5. Organizational Development and Corporate Services,
6. Office of the Municipal Manager, and
7. Office of the Executive Mayor.

The macro-organizational structure below is the currently approved structure. The municipality is in the process of reviewing its organizational structure to align it to the IDP strategic priorities and critical institutional and service delivery imperatives. It is envisaged that the new structure will be submitted to Council for approval in the new financial year.

Social Services	595	406	189
Technical Services	369	245	124
Total	1295	850	445

EXECUTIVE SUMMARY

The Council of the Metsimaholo Local Municipality (MLM) adopted a 5-Year Integrated Development Plan (IDP) covering the period 2012/13 to 2016/17. The 2016/17 IDP therefore represents the fourth or the last annual review of the adopted 5-Year IDP.

Integrated development planning and the product of this process, the IDP is a constitutional and legal process required of Municipalities. Planning in general and the IDP in particular, is a critically important management tool to help transformation, growth and development at local government level. It is an approach to planning that involves the entire Municipality and its citizens in finding the best solutions to achieve good long-term development,

The contents of the second review have been aligned to the Revised IDP Framework for Municipalities outside Metros and Secondary Cities, issued by the Department of Cooperative Governance and Traditional Affairs (CoGTA) in June 2012. It further includes the data from Census 2011 and revised service delivery targets for 2015/16, where appropriate (to be updated).

The following is a summary of the contents of the 2016/17 IDP consisting of seven chapters:

Chapter 1 (*Introduction and Background*) includes the spatial development rationale, demographic profile, a national context to the IDP process, outlines the key pieces of legislation impacting on municipal integrated development planning, reflects on the important elements of inter-governmental planning, highlights the MLM powers and functions, and provides a brief overview of the process that was followed in developing the revised IDP including the community participation component.

Chapter 2 (*Status Quo Analysis*) deals with the service delivery results of the 2011 Census and includes a detailed assessment of the critical service identified for the Municipality according to the Local Government Key Performance Areas (KPAs).

Chapter 3 (*Development Objectives and Strategies*) reflects on the National and Provincial policy priorities such as the National Development Plan (Vision 2030), the New Growth Path and the Free State PGDS. It includes the Vision, Mission and Value statements of the Municipality, Municipal development strategies and the detailed 5-Year Cluster strategic plans which were aligned to the National and Provincial strategic priorities and outcomes.

Chapter 4 (*Sector Plans*) provides a status report and high-level overview of the available sector plans of the Municipality as outlined in the Revised CoGTA Framework.

Chapter 5 (*Financial Strategy and Plan*) is mainly based on the 2015/16 Draft

Medium Term Revenue and Expenditure Framework (MTREF) of the Municipality and outlines the Municipality's financial strategy, revenue and expenditure framework for the next three years, proposed tariff increases, capital funding requirements and allocations. This chapter therefore includes a detailed breakdown of the capital projects planned by the municipality for the next three financial years to address outstanding community needs and service delivery targets.

Chapter 6 (Performance Management System) outlines the salient features of the Revised Institutional Performance Management Framework which was approved by Council at the end of April 2012. The chapter reflects on the legislative framework for local government performance management, the municipal scorecard approach to performance management, the elements of a performance management cycle and performance reporting and review requirements.

Chapter 7 (2016/17 Annual Performance Plan-SDBIP) details the components of the SDBIP as required by the MFMA and National Treasury Circulars. It outlines the monthly revenue and expenditure projections, quarterly service delivery targets and capital works plan for the 2016/17 financial year.

The IDP is the master plan for the municipality which provides a coherent, integrated and sound framework for the development of the municipal area. It is envisaged that the 2016/17 IDP will continue to ensure improved coordination of the development programmes of the Municipality and other spheres of government to ensure a better quality of life for all the people living in this area and provide a sound basis for building better communities.

CHAPTER 1: INTRODUCTION AND BACKGROUND

1.1 INTRODUCTION

The contents of the second review have been aligned to the Revised IDP Framework for Municipalities outside Metros and Secondary Cities, issued by the Department of Cooperative Governance and Traditional Affairs (CoGTA) in June 2012. Extensive work was undertaken during the compilation of the 5-Year plan to ensure the following:

- Alignment with political, National and Provincial priorities;
- Deepening the analysis and target-setting principles of strategic planning processes;
- Institutionalising a systematic process for addressing community needs; and
- Further strengthening performance management and monitoring systems.

One of the key objectives was to ensure that there is effective alignment between National and Provincial priorities, policies and strategies and the Municipality's response to these requirements.

This chapter reflects on the spatial rationale, demographic profile, key pieces of legislation impacting on Municipal Integrated Development Planning, reflects on the important elements of Inter-governmental planning, highlights the MLM powers and functions, and provides a brief overview of the process that was followed in developing the revised IDP including the community participation component

For the Municipality, improved service delivery outcomes is directly related to the responsiveness of its departments to various service delivery and community challenges within the context of the effective and efficient management of resources.

1.2 SPATIAL RATIONALE (GEOGRAPHIC PROFILE)

South Africa has a representative form of democratic government. The management and governance of South Africa is based on a three-sphere system of government, namely national, provincial and local spheres of government.

The Constitution of the Republic of South Africa, 1996 stipulates that the local sphere of government consists of Municipalities which were established for the whole of the territory of South Africa – the so-called wall-to-wall Municipalities. The Constitution and the Local Government: Municipal Structures Act, 1998 established a system of categories and types of municipalities. Accordingly three categories of Municipalities were identified. Categories A Municipalities are Metropolitan Municipalities that have exclusive municipal executive and legislative authority in its area. Category B Municipalities are local Municipalities which share Municipal executive and legislative authority in its area with a Category C (District) Municipality within whose area it falls.

The Metsimaholo Local Municipality came into existence after the elections that took place on 5 December 2000. It is a Category B Municipality and is one of the local Municipalities in the Free State Province.

The area of jurisdiction of the Metsimaholo Local Municipality is situated in the northern part of the Fezile Dabi District Municipality Region. The former Sasolburg, Deneysville and Oranjeville Transitional Local Councils and a section of the Vaal Dam Transitional Rural Council are included in the Metsimaholo Region. The largest urban unit is Sasolburg followed by Deneysville and Oranjeville. A number of small villages, in the vicinity of Sasolburg, also form part of the Metsimaholo Region. These villages are privately managed.

FIGURE 1: MAP OF SOUTH AFRICAN PROVINCES

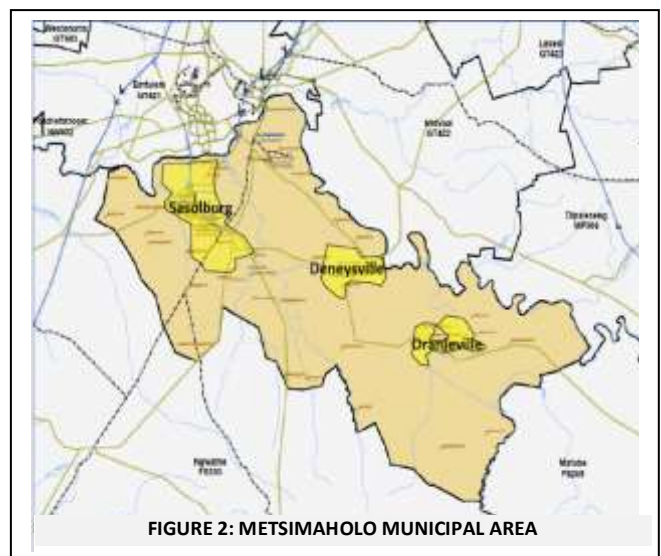

FIGURE 2: METSIMAHOLO MUNICIPAL AREA

The legal status of these villages is that of a single erf and mining related companies administer the majority.

The general tendency of migration from rural to urban areas is also occurring in the area, as is the case in the rest of the Free State Province. The majority of the rural population is active within the agricultural sector. Regarding the population distribution the area is largely urbanized (91% urban and 9% rural). This tendency is directly related to the strong industrial and manufacturing character of the region. It subsequently explains the continuous urban growth experienced in Zamdela.

Sasolburg is located in the heart of worldly renowned coalfields. This modern and predominantly industrial town is further located in close proximity (20km) to the nationally well-known industrial areas of Vereeniging/Vanderbijlpark. The Sasolburg / Zamdela urban area is 340km from Bloemfontein and 80km from Johannesburg. Apart from the internationally known SASOL “oil from coal refinery”, a vast number of by-products including olefins, waxes, alcohols, tar products, inorganic chemicals, rubber, gases, plastics, fertilizers, etc. are manufactured in the area.

The Deneysville / Refengkgotso urban area is situated in the north-eastern section of the Metsimaholo Region, approximately 36km east of Sasolburg and 350km north-east of Bloemfontein. Other larger centres such as Vereeniging and Vanderbijlpark are all within 50km from Deneysville. There are non-worth mentioning industrial activities present in the community. Industrial activities are exclusively related to the boating industry. The town’s close proximity to the coal mining and industrial activities in Sasolburg and its nearby location to the large industrial complexes of Vereeniging and Vanderbijlpark, definitely and perhaps negatively, influence economic activities in Deneysville. The strong recreational character of the town further enhances this phenomenon. The largest number of the inhabitants of Refengkgotso is employed in Sasolburg and the adjacent industrial complexes of Vereeniging and Vanderbijlpark. Refengkgotso can thus be labelled as a typical satellite residential town to the surrounding industrial areas. These factors contribute to the relatively low level of economic activity in the Deneysville area.

The Oranjeville / Metsimaholo urban area is located within the former district of Heilbron. Oranjeville is situated on the riparian of the Vaal Dam in close proximity to the northern boundary of the Free State Province. The area is accessible by road and within 55km from Sasolburg, Vereeniging, Frankfort, Heilbron and Villiers. Although the prominent economic sector of the area is agriculture, it is subsequently strategically situated from a recreation and tourism point of view. This is in view of the fact that the town is bound on three sides by the Vaal Dam and located in close proximity to the Gauteng metropolitan area. It is also linked to several other towns in the vicinity.

The Vaal River and Vaal Dam form the northern boundary of the area, which also serve as the boundary between the Free State and Gauteng Province. A significant portion of the Metsimaholo Region is included in the Vaal River Complex Regional Structure Plan, 1996 (former Vaal River Complex Guide Plan, 1982). Vaal River Regional Structure Plan is a statutory land use control document, which is applicable to amongst other land located along important water resources such as the Vaal Dam, Vaal River and Barrage. All Guide Plans compiled in terms of the Physical Planning Act (Act 88 of 1967) were declared Regional or Urban Structure Plans in terms of Section 37 of the Physical Planning Act (Act 125 of 1991). The Vaal Dam often referred to as the Highveld’s Inland Sea, is the most prominent topographical feature in the region. This vast expanse of water covers some 300 square kilometers. It serves as Gauteng’s principal source of potable water and is a popular water sports and water related adventure venue.

The table hereunder depicts the characteristics of three towns forming Metsimaholo Local Municipality. The table will be segmented into four categories viz; name of the town, location, the size of the population and economic potential and needs.

1.3 DEMOGRAPHIC PROFILE

⁸ Source: Metsimaholo Local Municipality: Spatial Development Framework

The official statistics according to *Statistics South Africa's Census 2001, Community Survey 2007 and Census 2011* were used to provide an overview of the municipality's demographic and socio-economic profile.

FIGURE 3: POPULATION AND HOUSEHOLDS

The MLM population shows an increase of 33 154 or 28.6% from 2001 to 2011 whilst the number of households also increased by 13 495 or 41.8 over the same period.

FIGURE 4: POPULATION BY AGE AND GENDER

1.4 LEGISLATIVE CONTEXT

The Constitution commits government to take reasonable measures, within its available resources, to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security.

The objects of local government are set out in Section 152 of the Constitution. Accordingly the objects are -

- a) to provide democratic and accountable government for local communities;
- b) to ensure the provision of services to communities in a sustainable manner;
- c) to promote social and economic development;
- d) to promote a safe and healthy environment; and
- e) to encourage the involvement of communities and community organisations in the matters of local government.

These objectives have been applicable for more than fifteen years and every part of the country now falls under the jurisdiction of a municipality, with many communities experiencing local and democratic government for the first time within the last decade.

Section 154(1) of the Constitution requires both the National and the Provincial Governments by legislation or other means to support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and to perform their functions. Provincial supervision, monitoring and support of local government is a Constitutional obligation in terms of sections 154(1) and Section 155(6) and (7) of the Constitution.

Chapter 5 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA) states that a Municipality must undertake developmentally oriented planning to ensure that it achieves the objects of local government as set out in Section 152 of the Constitution. It must further give effect to its developmental duties as required by Section 153 of the Constitution. Together with other organs of state, it must contribute to the progressive realisation of the fundamental rights contained in Sections 24, 25, 27 and 29 of the Constitution.

Communities cannot develop in isolation and the process of integrated development planning strives to systematically and transparently find acceptable measures within given time frames to allocate resources for service delivery. Local Municipalities use integrated development planning as a tool to plan future development in their areas in a sustainable manner.

Integrated Development Planning is a process by which the planning efforts of different spheres and sectors of government and other institutions are coordinated at local government level. It combines the various economic, social, environmental, legal, infrastructural and spatial aspects applicable to development or provision of services and infrastructure and allocates the necessary budget thereto. This should take place in a way that enhances development and provides sustainable empowerment, growth and equity for the short, medium and long term.

Integrated Development Planning and the product of this process, the Integrated Development Plan (IDP) is a constitutional and legal process required of Municipalities. Planning in general and the IDP in particular, is a critically important management tool to help transformation, growth and development at local government level. It is an approach to planning that involves the entire municipality and its citizens in finding the best solutions to achieve good long-term development.

According to Section 25 of the MSA, each Municipal Council must, after the start of its elected term, adopt a single, inclusive and strategic plan (Integrated Development Plan) for the development of the Municipality which links, integrates and co-ordinates plans and takes into account proposals for the development of the Municipality and which aligns the resources and capacity of the Municipality with the implementation of the said plan. The Integrated Development Plan (IDP) should form the policy framework and general basis on which annual budgets are based and should be aligned with National and Provincial development plans and planning requirements.

An IDP is a master plan for an area that gives an overall framework for development. It aims to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in an area. It takes into account the existing conditions and problems and resources available for development. It looks at economic and social development for the area as a whole.

There are a few main reasons why a municipality should have an IDP:

- *Utilisation of scarce resources*
The IDP assists the municipality to focus on the most important needs of the communities taking into account the resources available. In the process, the municipality must find the most cost-effective and efficient ways of providing services and money spent on the causes of problems in its area of jurisdiction.

- *Expedite delivery of services*
The IDP identifies the least serviced and most impoverished areas and points to where municipal funds should be spent. It should provide mechanisms to ensure that projects and programmes are efficiently implemented and assists developing realistic project proposals based on the availability of resources.
- *Attract additional funds*
The IDP provides clear development direction and guidelines that in return will attract investors and additional funds to the municipal area.
- *Strengthens democracy*
Through the active participation of all the important stakeholders in the IDP and Budgeting process, decisions are made in a democratic and transparent manner.
- *Promotes co-ordination between local, provincial and national government*
The different spheres of government are encouraged to work in a coordinated manner to address the development needs in a local area.

The IDP of a Municipality may be amended if and when circumstances require the amendment but must be reviewed annually in terms of section 34 of the MSA. Both amendment and review of the plan must be in accordance with a prescribed process which process is described in the Process Plan.

Of particular importance to Municipalities and municipal entities is Sections 151 to 164 (Chapter 7) of the Constitution, Local Government: Municipal Structures Act, 1998, MSA, the Local Government: Municipal Finance Management Act, 2003 (MFMA) and the Local Government: Municipal Systems Amendment Act, 2003. These Acts form the cornerstones for Municipal operations, planning, governance and accountability. More specifically, the regulations of these Acts promote effective planning, budgeting, revenue and expenditure management, reporting, oversight, social and economic upliftment, universal access to essential services and effective performance management.

1.5 INTER-GOVERNMENTAL PLANNING

Section 41(1) of the Constitution contains the principles of Co-operative Government and Inter-governmental relations. Section 41(1) stipulates that:

1. All spheres of government and all organs of state within each sphere must -
 - a. preserve the peace, national unity and the indivisibility of the Republic;
 - b. secure the well-being of the people of the Republic;
 - c. provide effective, transparent, accountable and coherent government for the Republic as a whole;

- d. be loyal to the Constitution, the Republic and its people;
- e. respect the constitutional status, institutions, powers and functions of government in the other spheres;
- f. not assume any power or function except those conferred on them in terms of the Constitution;
- g. exercise their powers and perform their functions in a manner that does not encroach on the geographical, functional or institutional integrity of government in another sphere; and
- h. co-operate with one another in mutual trust and good faith by -
 - i. fostering friendly relations;
 - ii. assisting and supporting one another;
 - iii. informing one another of, and consulting one another on, matters of common interest;
 - iv. coordinating their actions and legislation with one another;
 - v. adhering to agreed procedures; and
 - vi. avoiding legal proceedings against one another.

‘Inter-governmental relations’ means the relationships between national, provincial and local government. The Constitution states that the three spheres of government are distinctive, inter-dependent and inter-related. They are autonomous, but exist in a unitary South Africa and have to cooperate on decision-making and must co-ordinate budgets, policies and activities, particularly for those functions that cut across the spheres.

Cooperative governance means that National, Provincial and Local government should work together to provide citizens with a comprehensive package of services. They have to assist and support each other, share information and coordinate their efforts. Implementation of policies and government programmes particularly require close cooperation between the three spheres of government.

The division and allocation of the total government income (revenue) between the spheres of government and within government is regulated by the *Division of Revenue Act, 2009* (DORA). The different spheres of government depend on each other for support in project implementation.

In order to implement the principles on cooperative government set out in Chapter 3 of the Constitution, the *Intergovernmental Relations Framework Act, 2005* (IGR) was enacted.

The Act seeks to set up mechanisms to coordinate the work of all spheres of government in providing services, alleviating poverty and promoting development. It also establishes a line of communication from municipalities to the provinces and directly to the Presidency.

At provincial level a Premier's Inter-governmental Forum (PIF) exists which consults on broad development in the province, as well as on the implementation of national and provincial policy and legislation. It also seeks to coordinate the alignment of provincial and municipal development planning and strategic planning.

In many development projects, more than one sphere of government may be involved in implementation. Where necessary, the different organs of state may enter into an implementation protocol that describes the role and responsibility of each organ of state; outlines priorities and desired outcomes; and provides for monitoring, evaluation, resource allocation and dispute resolution procedures. The IGR has been set up to facilitate cooperation and avoid legal proceedings between different spheres of government.

Inter-governmental relations go beyond the IGR and the MFMA also requires consultation in the budgeting and planning process. All government programmes are developed based on the laws and policies that are made by Parliament.

The relationship between National planning instruments such as the NSDP, Provincial plans such as Provincial Growth and Development Strategies (PGDS) and Municipal plans (IDP's) must be determined in the context of a set of Intergovernmental planning principles.

These include:

- All spheres and organs of state should promote coordinated and integrated planning;
- National development priorities and principles should inform planning for all spheres;
- Each sphere has its own distinct development tasks and related planning tasks corresponding to the scale of operations and the area of jurisdiction; and
- The necessary mutual alignment between national priorities or guidelines, sectoral planning requirements and local needs, conditions and resources must be conducted in the spirit of cooperative governance whereby the plans of one sphere should support those in another.

The shared and common platform critical to alignment is made possible through a coherent set of national spatial guidelines based on the twin concepts of development potential and need. The normative principles and guidelines embodied in the NSDP provide the central organising concept for facilitating alignment and serve as the mechanism and basic platform for better coordination and alignment of government programmes.

“A spatial dimension to planning is critical to reversing the legacies of apartheid’s Bantustan policies and our fragmented urban areas. International best practice suggests that spatial planning instruments are being increasingly used to pursue and achieve alignment. They include spatial development perspectives and guidelines for infrastructure investment and social spending.”¹¹

1.6 MLM POWERS AND FUNCTIONS

Local government is assigned specific powers and functions that are unique and appropriate to the lower sphere of government. Similar to the position on national and provincial spheres, local government powers and functions are constitutionally entrenched and protected and cannot be unilaterally taken away by another sphere of government. Albeit constitutionally protected, the powers and functions of municipalities are not absolute and are subject to both constitutional and national legislative requirements.

Chapter 3 of Municipal Systems Act, 2000 states that a municipality has all the functions and powers assigned to it in terms of the Constitution, and must exercise them subject to Chapter 5 of the Municipal Structures Act, 1998. Furthermore, a municipality is empowered by legislation to do anything reasonably necessary for, or incidental to, the effective performance of its functions and the exercise of its powers.

Against this legislative directive, we understand and interpret our powers and functions aligned to the objects of local government as set out in section 152 of the Constitution as follows:

OBJECTS OF LOCAL GOVERNMENT	MLM FUNCTIONS AND POWERS
<ul style="list-style-type: none"> • To provide democratic and accountable government for local communities 	<ul style="list-style-type: none"> • Developmental municipal planning
<ul style="list-style-type: none"> • To ensure the provision of services to communities in a sustainable manner • To promote a safe and healthy environment 	<ul style="list-style-type: none"> • Building regulations • Municipal airports • Storm water drainages • Cemeteries • Local amenities • Municipal roads • Water and sanitation services • Street lighting • Traffic and parking • Refuse removal and refuse dumps • Cleansing

<ul style="list-style-type: none"> • To encourage the involvement of communities and community organizations in the matters of local government. 	<ul style="list-style-type: none"> • Community participation • Fair, equitable and transparent supply chain practices

TABLE 11: MLM FUNCTIONS AND POWERS

1.7 OVERVIEW OF IDP PROCESS:

1.7.1 INTRODUCTION AND IDP PHASES

It should be noted that this financial year (2016/17) is the fifth year, which marks the final version of the current 5-Year IDP (2012/13 – 2016/17) and the proposed time schedule therefore reflects on the process for the fifth review of the 5-Year IDP, which was adopted by Council on 31 July 2013.

The time schedule and process plan outline the planning and budget preparation process to be undertaken, proposed institutional arrangements and timeframes attached to the different phases. The process plan will further illustrate the alignment of the IDP with the municipality's Budget (MTREF) and Performance Management System (PMS) processes.

The review of the IDP and budget preparation process will be undertaken in accordance with relevant statutory provisions and national guidelines and the following phases.

Phase 1 (Preparation) entails the review of the previous IDP process, preparation and approval of the process plan and the setting up or confirmation of the required institutional arrangements.

Phase 2 (Analysis) will include a detailed situational analysis and review of the status quo and community needs. This analysis will further inform the projects phase of the envisaged IDP process.

Phase 3 (Strategies) will encapsulate the updating of national and provincial policy priorities and a review of the municipal strategic priorities, Key

Performance Areas (KPAs), objectives, Key Performance Indicators (KPIs) and targets as per the approved five-year IDP.

Phase 4 (Projects) will focus on the identification of priority projects in line with the community needs and agreed strategic priorities. Projects will be aligned to the new Division of Revenue Act (DoRA) allocations and the Capital Investment Plan (CIP) will be reviewed and updated.

Phase 5 (Integration) will include the consolidation and integration of applicable sector plans, alignment of municipal and sector department programmes as well as deepening the alignment between the IDP and Budget.

Phase 6 (Approval) entails the tabling of the draft IDP and Budget, community consultations and public participation and the approval by Council of the final IDP and Budget.

The above-mentioned phases are depicted in the diagram below.

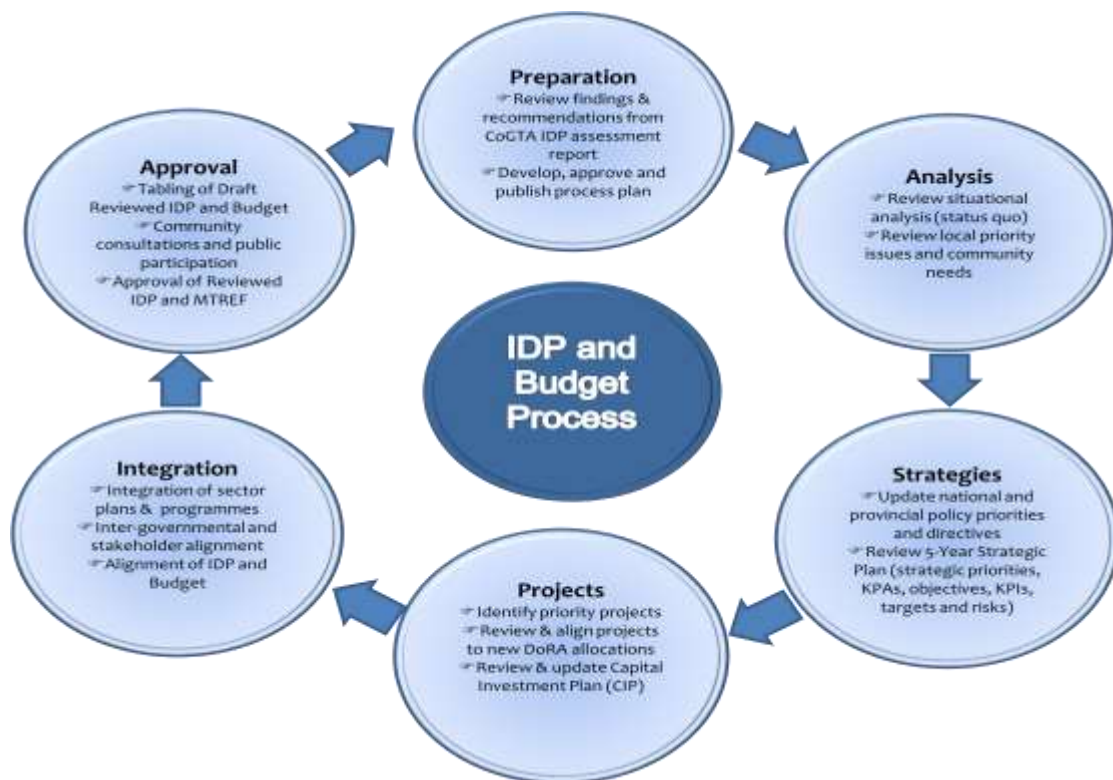

FIGURE 6: IDP PHASES

It should be noted that key elements of the Municipality's Performance Management System (PMS) in respect of monitoring and evaluation will also be integrated with the IDP and Budget process.

1.7.2 INSTITUTIONAL ARRANGEMENTS

It was important that the suggested roles below were adhered to and that accountability was maintained throughout the entire IDP process. An analysis and confirmation of the institutional arrangements were undertaken to ensure that the above five phases were effectively executed. The table below reflects the arrangement and suggested roles and responsibilities as to who was responsible for planning, development, preparation, compilation and drafting of the Metsimaholo Local Municipality's (MLM) IDP and SDBIP.

ROLE PLAYERS	ROLES AND FUNCTIONS
The Executive Mayor	<p>The Executive Mayor of MLM has the ultimate responsibility for the preparation and implementation of the IDP, Budget & Performance Management. In his executive capacity he has to:</p> <ul style="list-style-type: none"> • be responsible for the overall oversight, development and monitoring of the process or delegate IDP & PMS responsibilities to the Municipal Manager; • ensure that the budget, IDP & budget related policies are mutually consistent & credible; • submit the revised IDP & the Budget to the Municipal Council for adoption; • submit the proposed Performance Management System to the Municipal council for adoption.
Municipal Council	<p>The Council is the ultimate political decision-making body of the municipality and the Council has the responsibility to:</p> <ul style="list-style-type: none"> • consider and adopt the IDP Process Plan & time schedule for the preparation, tabling & approval of the annual budget; • consider and adopt the IDP and annual Budget; • ensure the municipal budget is coordinated with and based on the IDP; • adopt a Performance Management System (PMS) • Monitor progress, re. IDP implementation
Mayoral Committee	<p>The role of the Mayoral Committee is to provide political and strategic guidance and direction to the IDP, Budget, Performance Management processes and IDP implementation. The Mayoral Committee is assisted by the Finance and IDP Portfolio Committee in this regard.</p>
Ward Councillors & Ward Committees	<p>Ward Councillors are the major link between the municipality and the residents. As such, their role is to:</p> <ul style="list-style-type: none"> • link the planning process to their constituencies and/or wards; • ensure communities understand the purpose and the key mechanisms of the IDP, Budget process, Performance Management and are motivated to actively participate; • facilitate public consultation and participation within their wards.

IDP Representative Forum	<p>The IDP Representative Forum serves as the interface for community participation during the IDP process and therefore participates in the annual review of the municipality's IDP. The IDP Representative Forum is chaired by the Executive Mayor (or his delegate) and consists of the following role players:</p> <ul style="list-style-type: none"> • Members of the Mayoral Committee • Ward Councillors • Ward Committee members • Community Development Workers • NGOs/CBOs • Business chambers • Sector departments (district, provincial and national) • Religious organisations • Municipal officials
Municipal Manager	<p>The Municipal Manager has the responsibility to provide guidance and ensure that the administration actively participates and supports the development and review of the IDP and Budget and works towards its implementation.</p>
IDP Steering Committee	<p>The IDP Steering Committee is chaired by the Municipal Manager and comprises of the Directors and Managers of the various divisions and offices. The tasks of the Steering Committee are to:</p> <ul style="list-style-type: none"> • provide technical oversight and support to the IDP/ Budget review and its implementation; • consider and advise on IDP/ Budget content and process; • ensure inter-directorate co-operation, co-ordination, communication and strategic thinking to address priority issues • ensure sector and spatial co-ordination and alignment • ensure IDP & budget linkage • ensure Performance Management is linked to the IDP • ensure the organisation is oriented to implement the IDP • ensure time-frames set for the review are met. <p>It is proposed that the IDP Steering Committee meet at least once a month at the beginning of the Senior Management meeting for about a half an hour (as per the schedule).</p>
Directorates & Departments	<p>Directorates and Departments are responsible for sector planning and for the implementation of the IDP. The participation of all Departments is thus critical and they :</p> <ul style="list-style-type: none"> • provide technical / sector expertise and information, throughout the IDP Budget process; • ensure that the review process is participatory, integrated, strategic, implementation-oriented, budget linked and aligned with and satisfies sector planning requirements;
IDP Unit	<p>The IDP Unit reports to the MM and is required to manage and co-ordinate the IDP process, ensure budget integration, the roll out of Performance Management and monitor the implementation of the IDP, including:</p> <ul style="list-style-type: none"> • preparing the Process Plan for the development of the IDP; • undertaking the overall management and co-ordination of the planning and review process under consideration of time, resources and people • ensuring that the review process is participatory, strategic, implementation-oriented, integrated with the budget process, is horizontally and vertically aligned and satisfies sector planning requirements ; • linking the IDP to the SDBIP

Service Providers	<p>External Service Providers will be engaged, when necessary to:</p> <ul style="list-style-type: none"> • provide methodological/ technical guidance to the IDP process; • facilitate planning workshops; • undertake special studies; • ensure the IDP/ Budget/ PM is aligned with Provincial & National Department's strategy and budget.
--------------------------	--

TABLE 12: MLM INSTITUTIONAL ARRANGEMENTS

1.7.3 TIME SCHEDULE/ IDP REVIEWED PROCESS PLAN

Process Plan is a programme specifying the time frames for the different planning steps; including appropriate mechanisms, processes and procedures for consultation and participation of local communities, organs of state, and other role players in the IDP drafting process. It is an indication of the organisational arrangements for the IDP process.

1.7.4 LEGAL CONTEXT

Process Plan is regulated by Local Government Municipal Systems Act (32 of 2000) Chapter 5 Section 28 & 29, stipulates that: 28. (1) Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan. 39

The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.

1.7.5 PROCESS TO BE FOLLOWED

The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must -

- (a) be in accordance with a predetermined programme specifying timeframes for the different steps;
- (b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for:
 - (i) the local community to be consulted on its development needs and priorities;
 - (ii) the local community to participate in the drafting of the integrated development plan; and
 - (iii) prescribed by regulation

1.7.6 IDP REVIEW IMPLEMENTATION STRUCTURE

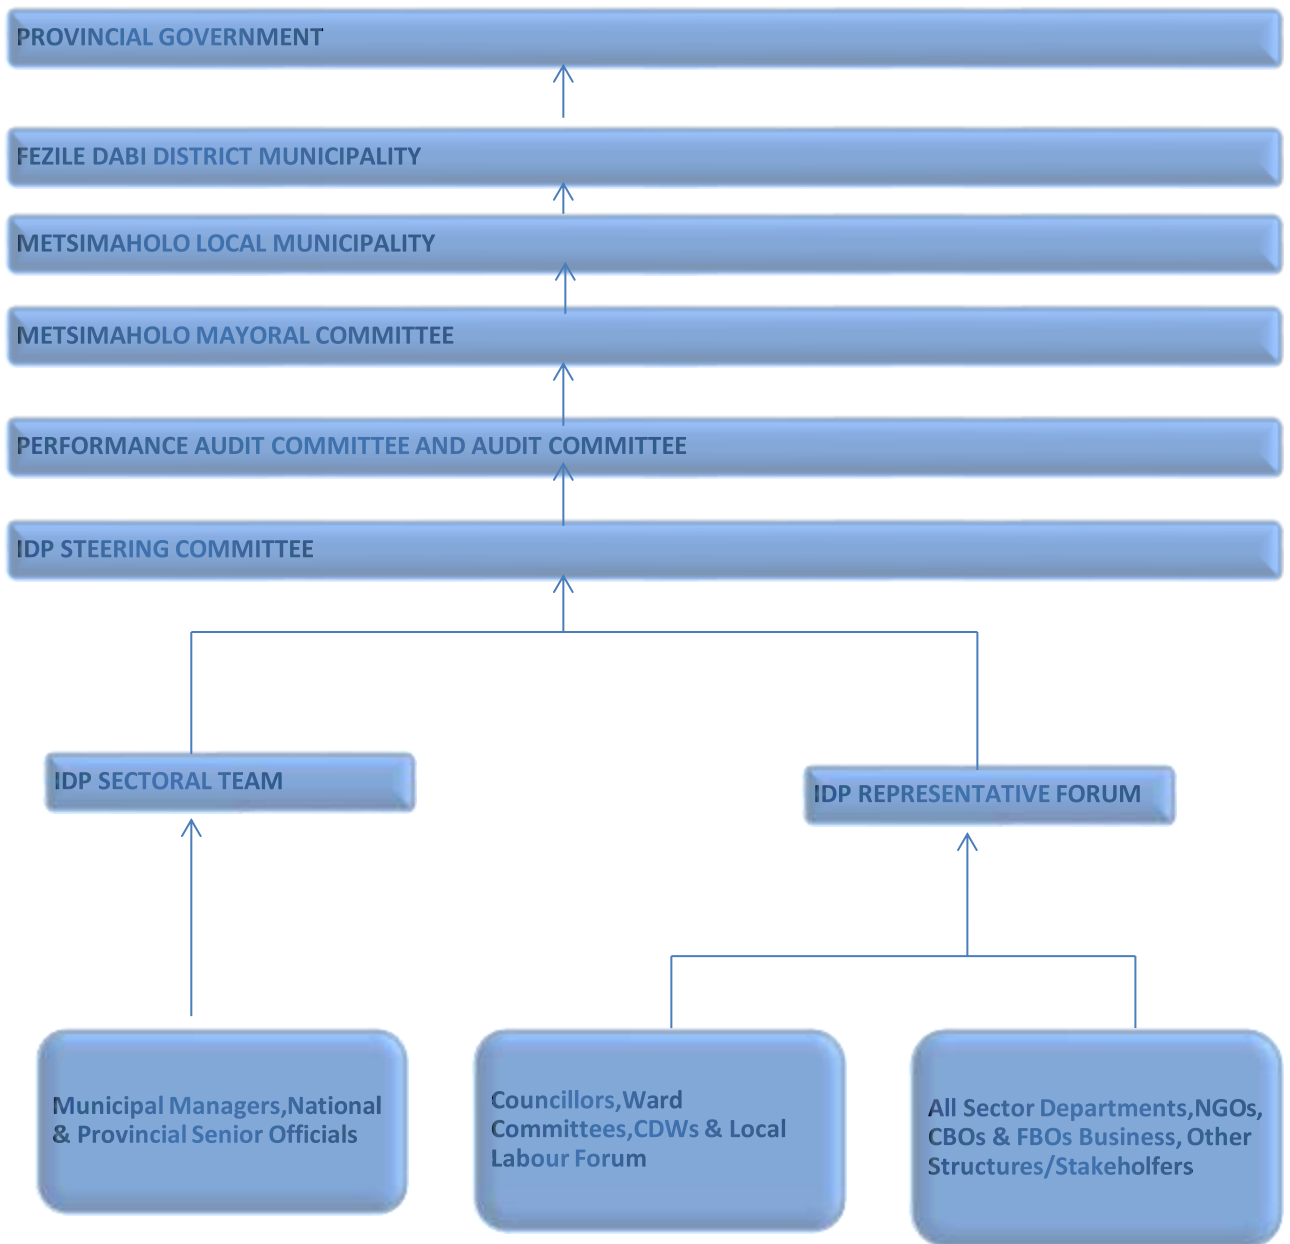

FIGURE 7: IDP REVIEW IMPLEMENTATION STRUCTURE

The Annual review of the IDP, Budget preparation and Performance Management processes were executed according to the time schedule below:

Activities	Timeframes	Responsibility
Review Provincial IDP Assessment report	July-Aug. 2015	IDP/PMS Manager
Compile IDP Process Plan & Budget time schedule	August 2015	IDP/PMS Manager and CFO
Submit Draft Process Plan and Time Schedule to Mayoral Committee for approval	August 2015	Municipal Manager
Submit final Process Plan and Time Schedule to Special Council for adoption <i>(At least 10 months before the start of the budget year – Section 21(1)(b) of the MFMA)</i>	28 August 2015	Executive Mayor
Meeting: IDP Steering Committee (to discuss detailed process plan)	17 Sept. 2015	Municipal Manager Directors/Managers IDP/PMS Manager
Meeting: IDP Representative Forum (to discuss detailed process plan)	18 Sept. 2015	Executive Mayor Speaker's Office IDP/PMS Manager
Preparation and Adoption of 2014/15 Draft Annual Report <i>(Section 121 (1) of MFMA)</i>	30 August.2015	Executive Mayor Municipal Manager CFO IDP/PMS Manager
Workshop on Budget procedures (two)	September 2015	CFO Councillors Directors
Review Situational analysis (status quo), local priority issues and community needs	Sept/October 2015	IDP/PMS Manager Directors
Public participation meetings in all 21 wards (part of the analysis phase of IDP process)	Sept/October 2015	IDP/PMS Manager Directors
Meeting: IDP Steering Committee (to consider report on the review of the status quo and community needs)	18 Oct. 2015	Municipal Manager Directors/Managers IDP/PMS Manager
Municipal Strategic Planning Session (to review 5-year Strategic plan and First Quarter Performance report)	29-30 Oct. 2015	Municipal Manager Executive Mayor
All directors submit 3 year capital budget to Finance	30 Sept. 2015	Directors
<i>Submit 2015/16 First Quarter Performance Report to Council (Section 52 of MFMA)</i>	30 Oct. 2015	Executive Mayor Municipal Manager
Discussion meetings per Directorate on Capital Budget	02-06 Nov. 2015	Chief Financial Officer Directors
Meeting: IDP Steering Committee (to review progress to date)	16 Nov. 2015	Municipal Manager Directors/Managers IDP/PMS Manager
Submit proposed Tariff increases to Finance	13 Nov. 2015	Directors
Submit 3 year personnel (staff) budget to Finance	13 Nov. 2015	Political Offices Municipal Manager Directors
Submit 3 year operating budget to Finance	20 Nov. 2015	Political Offices Municipal Manager

Activities	Timeframes	Responsibility
		Directors
Meeting: IDP Representative Forum (to review progress to date)	27 Nov. 2015	IDP/PMS Manager Executive Mayor
Finalisation of all sector plans and strategies	Dec. 2015 – Feb. 2016	Directors IDP/PMS Manager
<i>Submit 2015/16 Mid-Year Budget and Performance Assessment Report to the Mayor (section 72 of MFMA)</i>	22 Jan. 2016	Municipal Manager
<i>Tabling of 2014/15 Annual Report in Council (Section 127(2) of the MFMA)</i>	29 Jan. 2016	Executive Mayor
<i>Table Mid-Year Budget and Performance Assessment Report in Council (section 72 of MFMA)</i>	29 Jan. 2016	Executive Mayor
Discussions with Directors on Tariffs, Salary and Operating Budget	01-05Feb. 2016	Political Offices Municipal Manager Directors
Meeting: IDP Steering Committee (to review progress to date)	12 Feb. 2016	Municipal Manager Directors/Managers IDP/PMS Manager
2 nd Municipal Strategic Planning Session	18-19 Feb. 2016	Municipal Manager
Portfolio Committee meetings	22-26 Feb 2016	Members of the Mayoral Committee

TABLE 13: IDP, BUDGET AND PMS TIME SCHEDULE

The process plan outlines the critical institutional arrangements and time frames to ensure that the Municipality’s 2016/17 IDP and MTREF are completed within the prescribed regulatory frameworks. It was therefore important that this process plan was formally adopted by the Council (31 August 2015), IDP Steering Committee and IDP Representative Forum

.1.8 COMMUNITY PARTICIPATION

The MLM strives to achieve at all times, the community participation in matters affecting the community as directed by the MSA. Chapter 5 requires that a Municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose, encourage and create conditions for local community to participate in the affairs of the Municipality, including the preparation, implementation and review of its Integrated Development Plan.

The MLM has established participation of the community through a ward committee system of which there are 21 wards within the municipal area. The central role of ward committees is to facilitate local community participation in decisions which affect the local community, to articulate local community

interests and to represent these interests within the municipal governing structures.

After tabling the Draft 2016/17 IDP before Council, the document was made public on the Municipal website and public institutions and Libraries to allow community to make their comments/inputs. The process of making comments was opened from the 31 April 2016 until 29 April 2016. However, no written comments received.

Another last round of public participation meetings were conducted during April to May 2016 to consider submissions on the 2016/17 Draft IDP and Budget.

The proposed IDP and Budget Public Participation for April 2016 are arranged as follows:

Week 1	Ward	Date	Venue	Time
Zamdela	1 & 13	11 April 2016 (Monday)	Sakubutjha Secondary School	17h00

Zamdela	21	20 Oct.2015 (Tuesday)	Multi –Purpose Centre	17h00
Sasolburg	Business & Farmers	21 Oct. 2015 (Wednesday)	Council Foyer Civic Centre	07h:00

TABLE 14: IDP CONSULTATIVE PUBLIC MEETINGS (2015)

1.9 WARD PROFILLING

Ward Profiling in all Wards has been also conducted in conjunction with the Community Development Workers with intent to identify socio-economic issues. This process will also assist in Ward situational analysis for project identification and IDP alignment for sustainable development.

Furthermore, Community needs (per Ward) and challenges were taken and captured from the wards where consultations were successfully conducted, as reflected on the tables below (it should also be taken into cognizance that existing community needs of all wards are also consolidated in the tables *(the highlighted needs are those which members of Communities requested to be prioritized during project identification and implementation for development in the current financial year: 2016/17)*. The note should also be taken that not all needs can be addressed by the Municipality since some are not Municipal competency; therefore, Community needs have been categorized according to the level of competence whereby those needs beyond Municipal competency will be referred either to Provincial government, Business or Private sector for possible intervention.

WARD PROFILE¹²**WARD 1****Cllr Matshidiso Tamane****WARD OVERVIEW:**

This Ward was established in 1994 and consists of three sections namely, *Somerspot, Walter Sisulu (The year 2000) and nearby ten (10) farms* with total population of 16, 214¹³ and 4 710 households. Ward 1 is situated on the eastern part of Zamdela near Coal Brook Station and surrounded by two Wards namely, Ward 2 and 13. Councillor Matshidiso Tamane is an elected Councillor in this Ward. Ward Committee has been established to serve as a structure representing the community aspirations towards improved and quality service delivery. One (1) Community Development Worker (Me Vuyelwa Joyce Malindi) is appointed to provide support to the required community services to the residents. Population groups exist in the Ward include: Black Africans (14 690), Coloured (80), Indians/Asians (35), and Whites (1 388) and others (20). The language which is predominantly used is Sesotho. The economic activities in this Ward rely mainly on the Taverns and Tuck Shops which are owned by foreign communities.

--	--

WARD PROFILE²³**WARD 11****Cllr Thabo Kenneth Mabasa****WARD OVERVIEW:**

Ward 11 is the oldest section which is popularly known as Zamdela. It mainly consists of sections such as Tswape, Belina, Dikgutsanentg, Soweto, Midville (Accommodation previously owned by AECI), Thubelisha and part of Tylor Park. The total population is estimated to 5 109 with 1 661 households. This ward has about 999 registered indigents. Coal mine (Sigma) has been a key resource which initiated the eruption of petro-chemical and oil industries in the area. As a result the labour migration was massive due to this industrialization. It was due to job opportunities created by surrounding petro-chemicals industries such as SASOL, Natref and Polyfin. The Ward Councillor in the Ward is Councillor Thabo Mabasa working hand in hand with the Ward Committee as a vehicle for effective public participation for the community in this ward. There is no Community Development Worker that has been appointed in this Ward since the passing on of the former Community Development Worker to ensure that community services are brought closer to the people. The economic activities in the ward mainly rely on tarvens, bottle stores, chisa Nyama, and tuck shops. Furthermore, government initiatives such as EPWPs and CWPs act as key intervention strategies for unemployment and poverty relief.

WARD PROFILE²⁴**WARD 12****Cllr Bulelwa Sophie Khunou****WARD OVERVIEW:**

Ward 12 was established in 1952 which came as a result of industrialization that took place in Sasolburg area. This process has resulted into massive migration of people looking for job opportunities in the chemical industries such SASOL, Natreff and Polyfin. This Ward is situated at the entrance of Zamdela from Sasolburg town. The population is 4 073 with total number of 678 households. Predominate Language in the Ward Sesotho and followed by IsiXhosa. The elected Ward Councillor is Councillor Sophie Khunou who is working hand in hand with the Ward Committee as a vehicle for effective public participation for the community in this ward. Mr Richard Mofokeng is appointed as Community Development Worker to ensure that community services are brought closer to the people. This Ward consists of seven Blocks, namely: Umgababa Hostel (86 units), Boiketlong Hostel (70 units) (previously owned by SASOL but privately owned by now), Lusaka, Angola (381 Households- both serviced by the Municipality), Protem, Tladi-Mahlomola and Madiba Village (374 households).The residents in the Ward are employed in different sectors (government & private) though unemployment is still rife. However, some people are mainly relying from the EPWPs AND CWPs initiatives as means to dilute poverty and unemployment. Economic activities include tuck shops, saloons and taverns. New Municipal Offices are built in order to bring services to the people and Community Rental Units that will accommodate rentals.

	Container for dumping and distribution of dustbins to all households

WARD PROFILE²⁵**WARD 13****Cllr Masetlhare Lelahla-Phepeng****WARD OVERVIEW:**

This Ward is situated in the centre Ward 1, 6 & 21 on the Western side of the railway line that connects Free State and Gauteng Provinces. The total population of the Ward is 12 674 with total households of 1 394. It consists of three sections, namely Harry Gwala (753 households), Phase 1(626 households) and Phase 2 (1082 households. Basic services (water, electricity & sanitation), are fully provided by the Municipality and the type of Housing is mostly RDPs. The Ward councillor is Councillor Masetlhare Lelahla-Phepeng whom is working with Ward Committee as a structure representing the community and (Mr Tiisetso Pitso) as Community Development Worker. The economic activities in the ward are mainly relying on the existing tuck shops that are owned by foreign nationals. Unemployment is still rife in this area though some of the people are employed in the surrounding chemical industries. The social grants are also means of income for some households.

PROGRAMME OF ACTION TO ADRESS RAISED COMMUNITY NEEDS

Each Directorate will draw up detailed action plan indicating how these community needs and challenges have been and are being addressed and refer those beyond the Municipal competency to relevant Sector Departments for possible intervention.

CONCLUSION

As far as possible the intention of this IDP is to link, integrate and co-ordinate development plans for the municipality.

Resources and capacity are aligned with the implementation of the IDP, forming the basis for the annual Budget. The MLM also ensured that the IDP is compatible with community needs, national development plans and planning requirements binding on the Municipality in terms of legislation.

The preparation process was furthermore strengthened by a concerted effort to strengthen the strategic planning processes. This approach of a better defined strategic intent linked to implementable and measurable development programmes will require an ongoing effort to ensure that service delivery initiatives impact where it is needed most.

CHAPTER 2: STATUS QUO ASSESSMENT

The first step in the IDP review process needs to look at the existing situation of the Municipality. During the Analysis phase the review process focused only on the relevant aspects of issues influencing the development of the Municipality. The purpose of this phase was also then to ensure that decisions on strategies and projects would be based on;

- the qualitative priority needs and challenges on local residents,
- proper quantitative information on all those priority issues,
- clear knowledge of the availability of local resources, and
- a holistic understanding of the dynamics or key issues determining the various development priorities within the municipality.

A detailed status quo of the analysis of the Municipal area, with inputs from the community, organizations, business, non-state actors and state owned enterprises, spatial analysis and SWOT analysis.

Relevant statistical information gathered during the formulation IDP process was presented to community members during community meetings. This served as basis for discussing the needs and priorities of residents within the various functional areas of the Municipality. The findings were then analyzed and discussed further during the Representative Forum meetings to identify the causes determining each priority issue and to formulate certain development principles against the knowledge of such causes.

The findings were then presented under a number of integrated sectors, which coincide with the various analyses proposed within the IDP guide-packs and include institutional, social, infrastructure, economic, environmental and spatial analyses. Deriving from the current realities and cross-cutting analysis, a list of priority development issues were identified which served as a basis for a more detailed, in-depth analysis.

SITUATIONAL ANALYSIS FLOW

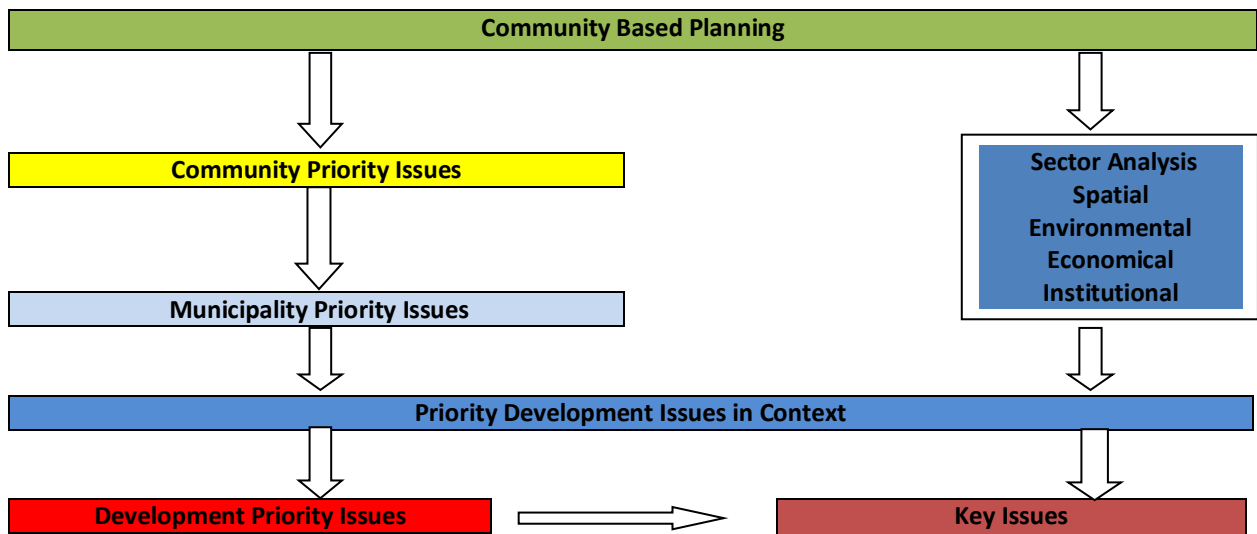

FIGURE 29: SITUATIONAL ANALYSIS FLOW

This chapter will reflect on the key statistics released by Statistics South Africa for Census 2011 and provide an assessment of all critical services identified for the municipality according to the Local Government Key Performance Areas (KPAs). It will endeavour to respond to the following questions: *Who are we? Where are we with regards to the provision of services that relates to identified critical services?*

The status quo assessment will further highlight the challenges confronting the municipality and indicate the state of affairs in the Municipality in relation to the Local Government KPAs. Currently the Municipality is committed to the Ward Based Planning (CBP) approach which is aimed at strengthening the participatory aspects of their IDP- giving effect to the requirements of the White Paper and Local Government: Municipal Systems Act.

It (CBP) is further mobilizes for communities and citizens to take destiny of their lives into their hands by establishing a participatory process for mobilizing and planning around grassroots issues and how they (issues) can relate to broader Municipal planning perspective. The CBP process is therefore a forerunner to the IDP. It captures what communities see as their desired outcomes and this helps speed up the implementation of the IDP.

INFORMATION FROM CENSUS 2011(Population Profile)

The Metsimaholo Local Municipality covers an area of 1 739 square kilometres and includes Deneysville, Metsimaholo, Oranjeville, Refengkgotso, Sasolburg, Vaalpark and Zamdela. It is inhabited by approximately 149 109 people with

more than 90% living in the urban areas of the municipal region, as per 2011 census.

Microbiological Compliance (%)	99.8 %	99.9%	>99.8%	
Chemical Compliance (%)	>100 %	>99.9 %	>99.9%	

The Metsimaholo Local Municipality consists of the three towns: Sasolburg, Deneysville and Oranjeville. Water is distributed to almost 200 000 consumers. Sasolburg receives water in bulk from Rand Water via the Vereeniging treatment plant. Deneysville as well as Oranjeville Water Treatment plant, abstract water directly from the Vaal Dam. The WSA showed significant improvement since 2011 and have continued the trend with a further reduction in the Blue Drop Risk Rating. This is mainly due to Rand Water as WSP to Sasolburg and additional information received for calculation purposes. The Local Municipality, however, should be commended for its management of water services and its commitment to supply safe drinking water.

The WSA is recommended to embrace all opportunities offered by Rand Water to assist them to improve their performance. Together, the WSA and Rand Water can attain Blue Drop status in the Sasolburg system in the near future.

COMMENT ON WATER PROVISION:

³⁶ Department of Water Affairs Blue Drop certification 2013 report

Access by households to potable piped water inside the dwelling and yard showed a positive movement and increased from 81.0% in 2001 to 93.8% in 2011, whilst piped water outside the yard decreased from 17.8% to 5.3% over the same period.

The Municipality is still performing fairly well, and this is attested by the blue drop status. Water is currently provided by the Municipality as piped-water with a water backlog (bulk) of 35 ML a day. A 9ML reservoir has been completed recently in order to achieve the millennium goals towards the 35ML required per day. About 95% of the residents have access to water in their yards.

Wastewater Risk Rating (2013)	58.82%		41.18%	

Note: Sasolburg WWTW has been removed from the municipal scorecard and evaluated under "Private Plants (Sasol)"

TABLE 60: MUNICIPAL SCORE FOR GREEN DROP PER TOWN

Metsimaholo Local Municipality has achieved a municipal Green Drop score of **68.6%** is commended for the vast improvement shown across all systems during this year's Green Drop audits. The municipality has made significant strides in improving overall wastewater quality monitoring, however compliance of the final effluent remains a concern in the Deneysville and Oranjeville systems. Another gap that needs to be urgently addressed is the lack of flow data for these systems, in terms of consistent monitoring of dry flows, wet weather flows and night flow, as this is essential for effective treatment and planning.

The municipality has done well in implementing its wastewater risk abatement plan and it is further encouraged that risks are prioritised and addressed to ensure further

³⁸ Department of Water Affairs Blue Drop certification 2013 report

improvement in future. This improvement is evident by the remarkable decrease in risk from high risk positions in 2012 to low- and moderate risk. Currently the Water Waste Treatment plant is under construction in Refengkgotso as a means to suffocate risk.

COMMENT ON SANITATION

Positive progress has also been made in respect of access to sanitation whereby flush toilets increased from 69.9% in 2001 to 75.6% in 2011. The percentage of households utilizing pit latrines without ventilation (+2.8%) and bucket latrines (-1.5%) showed a downward movement over the last 10 years.

The management of the Sanitation Provision services are done in two categories the one being the treatment being done under contract by Sasol Chemical Industries (Sasolburg zone) and the other being treated by two Municipal plants (Deneysville and Oranjeville zones). The challenge as to the treatment of sewer effluent lies in the needed enlargement of the treatment plants of the Municipality being assessed and to be included in the sanitation sector plan. PSPs for the compilation of the master and sector plan will be sought during the next financial year, dependant on funding.

Currently the Water Waste Treatment plant is under construction in Refengkgotso as a means to suffocate risk.

The project is still under construction in Amelia. House connections are still outstanding. Sewer network is installed but not yet fully functional. 368 stands in Metsimaholo Ext 6, not yet completed due to hard Rock experienced by the Contractor.

Themba Kubheka house connections for 3 500 stands are also under construction.

TABLE 63: ACCESS TO REFUSE DISPOSAL PER WARD

COMMENT ON WASTE MANAGEMENT/REFUSE REMOVAL

Waste Management main functions are general waste collection service to households and businesses, cleansing services (incorporating street sweeping, litter picking, removal illegal dumping on municipal public open spaces) as well as operates general waste landfill sites and transfer stations.

In respect of access of refuse removal services 78.9% of households in 2011 had their refuse removed at least once a week showing an 18.7% increase compared to 2001. Households utilising communal refuse dumps, their own refuse dumps and with no access to refuse removal services show a comparative decline over the same period. The Municipality has started a process of distributing refuse bins to all Wards and involving recycling organisations, as part of Waste Management awareness and programmes.

TABLE 64: TYPE OF DWELLING PER WARD

COMMENT ON HUMAN SETTLEMENT:

Likewise, the Human Settlement and Property management division lack capacity creating serious challenges in delivering efficient service to the community on decentralized basis. As further announced by the Free State MEC responsible for Cooperative Governance, Human Settlements and Traditional Affairs, on March 20th, 2013 "...the Free State Provincial Government committed itself to continue to support METSIMAHOLO, Matjhabeng, Dihlabeng and \ Moqhaka Local Municipalities in attaining readiness for level 1 & 2 accreditation of the function `housing` to be implemented by 2015 / 2016...". Capacity and performance assessments to be executed by means of a Business Plan for Level 1 & Level 2 Accreditation by not later than April 2015 to demonstrate the municipalities capacity for implementation, to plan for projects and programmes and to demonstrate the municipalities readiness

A Draft Municipal SDF (Spatial Development Frame Work) is currently under Review and awaiting Public consultation. Land Use Management (SPLUMA) applications (rezoning, subdivisions, etc.) are administered on continuous basis. Considering challenges on eradication of human settlement backlogs the department has established townships in Themba Khubeka (2'500 residential erven in Refengkgotso) and Moidraai (2'200 residential erven in Zamdela), which will eventually accommodate 4'000 families

Based on key challenges facing the people of the Free State with service delivery, unemployment, poverty and inequality, the Premier of the Free State Province on 24

⁴¹ Statssa : Census: 2001 &2011

⁴² Traditional dwelling/hut/structure built with traditional material

⁴³ Informal dwelling (shack/ backyard)

June 2014 formalized a cooperation agreement between the Province and Sasol Group Services (Pty) Ltd as an important player not only in the provincial economy but also in the national and global economies and to promote a business relationship in good faith by determining the scope and extent of such cooperation with particular focus on development of sustainability and / or providing support services to community projects in the Metsimaholo- and Ngwathe Local Municipalities. The Framework was in operational since from 24 June 2014 for a period of five(5) years to achieve certain development objectives, such as:

1. a Multi-Purpose Medical Facility / Clinic is under construction on Erf 16743 Zamdela Extension 12 (Gortin Area) ;
2. 100 x FLISP (Finance Linked Individual Subsidy) Project Houses to be erected for the employees of Sasol Chemical Industries on Erven 10259 and 12979 situated in Zamdela Extension 9 (Harry Gwala) ;
3. 148 x BNGs (Government subsidized) houses that have been completed in Sasolburg Ext 1 (Nic Ferreira Street) was addressing the re-location of residents from Hostel 4 Zamdela not interested in the CRU (Community Residential) Development;
4. a Clinic to be erected on Erf 5092 Sasolburg Ext 5 ;
5. a Library in Oranjeville that has been completed; and
6. Infrastructure development of Mooidraai (Zamdela) and Themba Khubeka (Refengkgotso Extension 5) which is underway in an attempt to eradicate housing backlogs.

The information below reflects the level the existing development per National KPAs in the community, the names of settlements and their level of service in respect of water sanitation, waste management, electricity and energy, roads and storm-water, housing, etc.

Status of sector plan (Roads and storm water Plan)	PSP to be appointed
Availability and status of Integrated Transport Plan	PSP to be appointed
Availability of storm water management plan or system	Plan approved by Council
Availability and status of operation and maintenance plan	Plan approved by Council
Status of roads with regard to public transport/major economic roads/roads leading to social facilities such as clinics, schools, etc.	Fair to poor
Status of arterial roads/internal streets	Fair to poor – maintenance needed
Service Providers / Constructors for Paving of internal streets to be appointed	
Approved roads service level/standard for	

⁶⁰ Part of backlog

⁶¹ Part of backlog

⁶² Part of backlog

⁶³ Part of backlog

municipality⁶⁴:					
Formal areas			Tarred or paved		
Informal areas			Dirt (not gravel)		
Approved storm water service level/standard for municipality⁶⁵:					
Formal areas			Piped/ road concrete channels		
Informal areas			Open soil channels		
Areas or settlements with/without access to roads basic service level/standard					
Name of area/settlement	<i>Wards</i>	<i>No. of kms at or above RDP</i>	<i>No. of kms below RDP⁶⁶</i>	<i>No. of kms with no roads⁶⁷</i>	<i>Interventions required</i>
Metsimaholo jurisdiction	All	276	316 dirt	219	Funding
Areas or settlements without access to storm water basic service level/standard					
Name of area/settlement	<i>Wards</i>	<i>No. of kms at or above RDP</i>	<i>No. of kms below RDP⁶⁸</i>	<i>No. of kms with no storm water⁶⁹</i>	<i>Interventions required</i>
Metsimaholo jurisdiction	All	276	316	219	funding
What are the reasons for the backlogs in roads and storm water services?					
MIG funding not sufficient. MIG funding only for backlog areas identified till 1994.					
Water and sewer infrastructure are first priority, no excess MIG funding available.					
Indicate other challenges not highlighted above:					
Lack of funding					
Bad geotechnical conditions					
Flat terrain impedes storm water flow					

KPA 1 SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

IDP PRIORITY 5: HOUSING

TABLE 69: TYPE OF DWELLING

Status of sector plan (Housing Sector Plan)	Approved by Council in 2013
National target for housing service⁷⁰	Growth rates and influx confirmed that targets CANNOT be determined. However the goal is that 100% of residents should be housed by 2017
Approved service level/standard for municipality⁷¹:	45 m ² for RDP Low Cost

⁶⁴ For example: tar roads, paved roads, graded roads, gravel roads, etc.

⁶⁵ For example: piped systems, open channel lined, earth lined open channels, etc.

⁶⁶ Part of backlog

⁶⁷ Part of backlog

⁶⁸ Part of backlog

⁶⁹ Part of backlog

⁷⁰ For example: 100% access by all HHs by 2015

⁷¹ For example: 45m² brick dwelling.

					houses 60 m ² for Medium Income houses
Number of HHs with/without access to housing⁷²: 4`312 housing units – National confirmed 6`000					
Total HHs	<i>RDP and above</i>	<i>Below RDP⁷³</i>	<i>No service⁷⁴</i>	<i>Interventions required to address backlogs</i>	
47 411	39878	15 127	6 984	74	
What are the reasons for HHs without access or below RDP access?⁷⁵					
Rapidly growth rates for the region					
Lack of Internal Funding to purchase land, plan and service it					
Backlog in serviced erven for the poor (62% of community qualify for low cost housing)					
Areas or settlements with/without access to basic service level/standard					
Name of area/settlement	<i>Total no. of HHs</i>	<i>No. of HHs at or above RDP</i>	<i>No. of HHs below RDP⁷⁶</i>	<i>No. of HHs with no access⁷⁷</i>	<i>Interventions required</i>

Secondary (Public schools=12; Independent=1)	13		Municipality	Municipality	Grid connection	Surfaced & gravel roads
FET College	01		Municipality	Municipality	Grid connection	Surfaced & gravel roads

- **Any challenges to the sector.**

- Oranjeville Primary School: No Access to school
- Taaibos Primary School: No Electricity
- Tabu Primary School: No Electricity and Water is Borehole
- Amelia is still utilizing mobile classes where the provisions of basic services (water, sanitation & electricity) are not on acceptable National standards.

SUMMARY ON STATUS QUO OF BACKLOGS OF MLM ON BASIC SERVICES:

Though Metsimaholo Local Municipality has made remarkable strides in ensuring that the communities are provided with quality and efficient basic services, it should however be noted that there are still service delivery gaps (Backlogs) that needs to addressed by the Municipality. The intervention to these Backlogs relies

⁹⁰ Backlogs or needs in relation to national norms and standards

solely on the Municipal financial muscle of and the grants received from the Provincial government.

The table below indicate the current status of Municipality on service delivery Backlogs:

BACKLOG AREA	NUMBER / %
Growth Rate	3% per Annum
Population	169`077 ⁹¹
Households	49`694 (3,4 / House)
Housing	7 904 Backlog
Water	5 537 connections
Sanitation	12 726 connections
Electricity	5 000 connections

GRAP compliance	Y	As per 2014/15 audit report

TABLE 83: FINANCIAL VIABILITY AND MANAGEMENT

CHAPTER 3: DEVELOPMENT OBJECTIVES AND STRATEGIES

3.1 INTRODUCTION

Municipalities are at the forefront of the **national** effort to redress the political, social and economic imbalances of the past. In light of the above, municipalities are faced with great challenges in promoting human rights, meeting community needs, addressing past backlogs and planning for a sustainable future. Effective planning and development within municipalities is imperative to ensure the maximization of social development and economic growth.

Municipalities in South Africa utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sustainable long-term development. An Integrated Development Plan (IDP) gives an overall framework for development. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those involved in the development of a municipal area. The IDP enables municipalities to use scarce resources most effectively and efficiently to speed up delivery.

It is important that a municipal IDP correlate with National and Provincial intent so as to co-ordinate the work of all spheres of government. Such a coherent plan will ensure the improvement of the quality of life for all citizens. Applied to the Metsimaholo Local Municipality (MLM) issues of national and provincial importance should be reflected in the IDP of the municipality. For this reason this chapter commences with an overview of national and provincial intent that influences the integrated development plan and intended development strategies/priorities of the MLM.

3.2 POLICY AND LEGISLATIVE CONTEXT

3.2.1 GREEN PAPER ON NATIONAL STRATEGIC PLANNING 2009

The Green Paper on National Strategic Planning sets out an institutional framework for planning and describes the outputs of planning. The key outputs of planning include the development of a long term vision and plan for South Africa. These outputs would play a role in shaping policies and programmes, budgets and resource allocation.

The establishment of a National Planning Commission is proposed that will direct the development of a long-term strategic plan, called South Africa Vision 2030. The aim of such a strategic plan is to ensure the mobilisation of society and greater coherence in government's work. The plan will establish a long-term vision for South Africa that is based on the values of the Constitution as well as key priorities identified in the Medium Term Strategic Framework (MTSF). The overarching objective with respect to planning is to enhance South Africa's socio-economic development by improving planning and coordination within government and managing the country's development processes.

The preparation of the three key products of the planning cycle is proposed namely:

- The long term product (National Strategic Vision);
- Medium term product (MTSF); and
- Short term product (Action Programme).

The development of national spatial guidelines is proposed. These guidelines will serve as tools for bringing about coordinated government action and alignment, which are focused on the "systematic coordination of various policies and activities aimed at influencing future developments".

An overarching spatial framework and guidelines spelling out government's spatial priorities are needed to focus government action and provide the platform for alignment and coordination.

New forms of engagement with social partners are needed to get contributions to the formulation of a national plan and buy-in to the result. Section 19 of the Green Paper therefore contains information on the role of other spheres of government in national planning. It states that the key principle of effective government planning relates to the notion that different spheres of government are able to affect one another. Planning should not be unidirectional, rigid or top- down; it must inform and be informed by sector plans and provincial and local plans.

Various spheres of government should work together to establish effective and efficient plans that will promote the functionality and institutional integrity of government.

Long-term objectives and milestones for planning should be developed. For this reason, a monitoring and evaluation function should be implemented to measure the achievement of the long-term objectives. Performance monitoring and evaluation will assess progress, identify constraints, weaknesses and failures in implementation, and effect mechanisms of correction or enhancement.

The products of planning – from the national vision, the MTSF, provincial growth and development instruments, to municipal development plans and programmes of action – will have to be aligned. The national strategic plan therefore defines the framework for detailed planning and action across all spheres of government. Strategic priorities established within the national strategic plan should therefore guide and govern the planning and action of all government institutions.

3.2.2 NATIONAL DEVELOPMENT PLAN (VISION FOR 2030)

“The Vision Statement and the National Development Plan presented here is a step in the process of charting a new path for our country. By 2030, we seek to eliminate poverty and reduce inequality. We seek a country wherein all citizens have the capabilities to grasp the ever-broadening opportunities available. Our plan is to change the life chances of millions of our people, especially the youth; life chances that remain stunted by our apartheid history.”

- Trevor Manuel, MP, Minister in the Presidency, On behalf of the National Planning Commission, 11/11/2011

Creating a virtuous cycle of growth and development

It is possible to eliminate poverty and to sharply reduce inequality by 2030. The commission proposes that these be the guiding objectives of the national plan over the next 20 years. All elements of the plan must demonstrate their effect on these two goals.

The national plan has to attack the blight of poverty and exclusion, and nurture economic growth at the same time; creating a virtuous cycle of expanding opportunities, building capabilities, reducing poverty, involving communities in their own development, all leading to rising living standards.

Such a virtuous cycle requires agreement across society about the contribution and sacrifices of all sectors and interests. This will translate into greater confidence and a greater field of opportunities for individuals and the country.

Growth and development, and reducing poverty and inequality, are the core elements of this virtuous cycle. Strong leadership throughout society, national consensus, social cohesion and a capable state are its key enablers.

Success will be measured by the degree to which the lives and opportunities of the poorest South Africans are transformed in a sustainable manner. Presently, the country does not have a standard definition of poverty. The commission recommends using a poverty line of about R418 (in 2009 prices) per person per month. This recommendation is based on a proposal by Statistics South Africa for a poverty line for the country that takes into account the prices of a basket of food and other essential items. Success would mean reducing the proportion of people living below this level from the current 39 percent of the population to zero. This is a mammoth but achievable task. The proposed poverty line should not detract from the fact that poverty is a multidimensional concept, incorporating more than just income, and we have to make progress on all of these dimensions.

A reduction in inequality will be achieved if the Gini co-efficient falls from the current level of 0.7 to 0.6 by 2030.⁹² South Africa today has one of the world's highest levels of inequality. While the proposed reduction would mark a significant shift, a high level of inequality would persist in 2030.

The Central Challenges

The *Diagnostic Report* of the National Planning Commission identified nine main challenges:

1. Too few people work
2. The standard of education for most black learners is of poor quality
3. Infrastructure is poorly located, under-maintained and insufficient to foster higher growth
4. Spatial patterns exclude the poor from the fruits of development
5. The economy is overly and unsustainably resource intensive
6. A widespread disease burden is compounded by a failing public health system
7. Public services are uneven and often of poor quality
8. Corruption is widespread
9. South Africa remains a divided society.

Of these elements, the commission believes that two are critical and interrelated: too few people work and the quality of education available to the majority is poor. While all nine challenges must be tackled in an integrated manner, increasing employment and improving the quality of education must be the highest priorities. Failure to raise employment and improve the quality of education would signal

⁹²A measure of the inequality of distribution. A value of 0 equals full equality and 1 maximum inequality

failure. Both require community involvement, better public service delivery and a higher degree of social cohesion that promotes cooperation between all sectors to support economic growth and job-creation.

Writing a new story for South Africa

Developing and upgrading capabilities to enable sustainable and inclusive development requires a new approach and a new mindset. The story we propose to write involves:

- Creating jobs and livelihoods
- Expanding infrastructure
- Transitioning to a low-carbon economy
- Transforming urban and rural spaces
- Improving education and training
- Providing quality health care
- Building a capable state
- Fighting corruption and enhancing accountability
- Transforming society and uniting the nation.

External drivers of change

International and regional developments affect South Africa's fortunes in complex ways. The plan discusses some of the following trends:

- International political and economic developments
- Globalisation
- Africa's development
- Climate change
- Technological change
-

NDP Key Priority Areas

- Economy and Employment
- Economic Infrastructure
- Environmental Sustainability
- Inclusive Rural Economy
- South Africa in Region and the World
- Transforming Human Settlement
- Improving Education, Training and Innovation
- Health Care for All
- Social Protection
- Building Safer Communities
- Building Capable and Developmental State
- Fighting Corruption
- Nation Building and Social Cohesion

To make meaningful, rapid and sustained progress in reducing poverty and inequality over the next two decades, South Africa needs to write a new story. At the core of this plan is a new development paradigm that seeks to involve communities, youth, workers, the unemployed and business in partnership with each other, and with a more capable state. The aim is to develop the capabilities of individuals and of the country, and to create opportunities for all South African

TABLE 84: NDP – ENABLING MILESTONE AND CRITICAL ACTIONS

Enabling milestones	Critical actions
<ul style="list-style-type: none"> • Increase employment from 13 million in 2010 to 24 million in 2030. • Raise per capita income from R50 000 in 2010 to R120 000 by 2030. • Increase the share of national income of the bottom 40 percent from 6 percent to 10 percent. • Establish a competitive base of infrastructure, human resources and regulatory frameworks. • Ensure that skilled, technical, professional and managerial posts better reflect the country's racial, gender and disability makeup. • Broaden ownership of assets to historically disadvantaged groups. • Increase the quality of education so that all children have at least two years of preschool education and all children in grade 3 can read and write. • Provide affordable access to quality health care while promoting health and wellbeing. • Establish effective, safe and affordable public transport. • Produce sufficient energy to support industry at • Competitive prices, ensuring access for poor households, while reducing carbon emissions per unit of power by about one-third. • Ensure that all South Africans have access to clean running water in their homes. • Make high-speed broadband internet universally available at competitive prices. • Realise a food trade surplus, with one-third produced by small-scale farmers or households. 	<ol style="list-style-type: none"> 1. A social compact to reduce poverty and inequality, and raise employment and investment. 2. A strategy to address poverty and its impacts by broadening access to employment, strengthening the Social wage, improving public transport and raising rural incomes. 3. Steps by the state to professionalise the public service, strengthen accountability, improve coordination and prosecute corruption. 4. Boost private investment in labour-intensive areas, competitiveness and exports, with adjustments to lower the risk of hiring younger workers. 5. An education accountability chain, with lines of responsibility from state to classroom. 6. Phase in national health insurance, with a focus on upgrading public health facilities, producing more health professionals and reducing the relative cost of private health care. 7. Public infrastructure investment at 10 percent of gross domestic product (GDP), financed through tariffs, public-private partnerships, taxes and loans and focused on transport, energy and water. 8. Interventions to ensure environmental sustainability and resilience to future shocks. 9. New spatial norms and standards – densifying cities, improving transport, locating jobs where people live, upgrading informal settlements and fixing housing

<ul style="list-style-type: none"> • Ensure household food and nutrition security. • Entrench a social security system covering all working people, with social protection for the poor and other • groups in need, such as children and people with disabilities. • Realise a developmental, capable and ethical state that treats citizens with dignity. • Ensure that all people live safely, with an independent and fair criminal justice system. • Broaden social cohesion and unity while redressing the inequities of the past. • Play a leading role in continental development, economic integration and human rights. 	<p>market gaps.</p> <p>10.Reduce crime by strengthening criminal justice and improving community environments.</p>
---	--

3.2.3 THE NEW GROWTH PATH

“As a developmental state that is located at the centre of a mixed economy, we see our role as being to lead and guide the economy and to intervene in the interest of the poor, given the history of our country.

Informed by this responsibility, in 2010 we launched the New Growth Path framework and identified our job drivers as infrastructure development, tourism, agriculture, mining, manufacturing and the green economy. “

- State of the Nation Address by His Excellency Jacob G Zuma, President of the Republic of South Africa on the occasion of the Joint Sitting of Parliament, 9 February 2012

Government, under the leadership of Minister Ebrahim Patel, on 23 November 2010 released the Framework of the New Economic Growth Path aimed at enhancing growth, employment creation and equity. The policy’s principal target is to create five million jobs over the next 10 years. This framework reflects government’s commitment to prioritising employment creation in all economic policies. It identifies strategies that will enable South Africa to grow in a more equitable and inclusive manner while attaining South Africa’s developmental agenda.

Central to the New Growth Path is a massive investment in infrastructure as a critical driver of jobs across the economy.

- The framework identifies investments in five key areas namely: energy, transport, communication, water and housing. Sustaining high levels of public investment in

these areas will create jobs in construction, operation and maintenance of infrastructure.

- The new growth path sees the infrastructure programme as a trigger to build a local supplier industry for the manufacture of the components for the build-programme.
- Specific measures, particularly changes to procurement policy and regulations, are identified to ensure that this is achieved. Risks include the still fragile global recovery; competition and collaboration with the new fast-growing economies; and competing interests domestically.

The New Growth Path identifies five other priority areas as part of the programme to create jobs, through a series of partnerships between the State and the private sector.

- Green economy: expansions in construction and the production of technologies for solar, wind and biofuels is supported by the draft Energy on Integrated Resource Plan. Clean manufacturing and environmental services are projected to create 300 000 jobs over the next decade.
- Agriculture: jobs will be created by addressing the high input costs and upscaling processing and export marketing. Support for small holders will include access to key inputs. Government will explore ways to improve working and living conditions for the country's 660 000 farm workers. The growth path also commits the Government to unblocking stalled land transfers, which constrain new investment.
- Mining: calls for increased mineral extraction and improving infrastructure and skills development. It focuses support for beneficiation on the final manufacture of consumer and capital goods, which can create large-scale employment. It foresees the establishment of a state mining company concentrating on beneficiation and enhanced resource exploitation in competition with a strong private mining sector.
- Manufacturing: calls for re-industrialisation in the South African economy based on improving performance through innovation, skills development and reduced input costs in the economy. The document targets a doubling of South Africa's research and development investment to 2% of gross domestic product by 2018.
- Tourism and other high-level services: hold employment potential and the framework calls for South Africa to position itself as the higher education hub of the African continent.

Smarter coordination between government and stronger partnerships with the private sector and organised labour will galvanise our resources in achieving the aims of the New Growth Path.

- Government calls on every South African to contribute to building our nation over the coming 20 years to ensure a collective effort, creativity and solidarity.
- Good leadership and strong governance are critical in ensuring that South Africa takes charge of the new opportunities. Government commits to cut wasteful spending, tackle corruption and align the allocation of public money with developmental priorities.

- Government recognises that job targets can only be achieved if the State performs better and if the private sector grows in labour-absorbing parts of the economy.
- The New Growth Path identifies measures to strengthen the capacity of the state and enhance the performance of the private sector to achieve employment and growth goals.

The New Growth Path proposes major improvements in government, with a call for slashing unnecessary red tape, improving competition in the economy and stepping up skills development.

1. The role of government departments and agencies in meeting set targets for scarce and key skills is critical. This emphasis on skills applies across the economy and will be a centrepiece of partnership with business and labour.
2. Key targets include the aim to produce 30 000 engineers by 2014, with a focus on Mathematics and Science as well as changes to university funding formulae to achieve this, and 50 000 artisans by 2015, with annual targets for Eskom and Transnet and for individual Sector Education and Training Authority institutions to achieve this.
3. The document calls for greater focus on workplace training, targeting on-the-job training and refresher programmes for 10% of the workforce every year.
4. It also calls for measures to make it easier to import scarce skills by streamlining the work permit and visa system. This will be accompanied by a skills transfer programme to ensure that local skills development is enhanced.

The framework identifies a “development package” – a coordinated set of actions across a broad front, this consists of macroeconomic strategies, microeconomic measures and stakeholder commitments to drive employment and economic growth.

- The document recognises the challenges of an uncompetitive currency and sets out clear steps for government to address the impact of the Rand on the economy.
- In expanding on government’s tools to address inflation, a stronger role will be considered for competition policy and strategic investigations into conduct leading to high and volatile prices for intermediate inputs for producers and basic consumer goods, including important commodities such as maize, steel and fertilisers.
- Government calls for greater focus by South African business on opportunities in Africa’s fast-growing economies. This is accompanied by commitments to improve cross-border infrastructure and measures to address unnecessary regulatory obstacles to the movement of people and goods, as part of building a common market on the continent.

3.2.4 MEDIUM TERM STRATEGIC FRAMEWORK (MTSF)

This Medium Term Strategic Framework (MTSF) is Government's strategic plan for the 2014-2019 electoral terms. It reflects the commitments made in the election manifesto of the governing party, including the commitment to implement the NDP. The MTSF sets out the actions Government will take and targets to be achieved. It also provides a framework for the other plans of national, provincial and local government.

The MTSF highlights Government's support for a competitive economy, creation of decent work opportunities and encouragement of investment. This is the first MTSF to follow the adoption of the NDP in September 2012. The introduction of a long-term plan brings greater coherence and continuity to the planning system and means that the MTSF now becomes a five year building block towards the achievement of the vision and goals of the country's long-term plan. In the words of President Zuma:

"The Plan has been adopted as a National Plan for the whole country. It is our roadmap for the next 20 years. All the work we do in government is now part of the comprehensive National Development Plan, including all operational plans, be they social, economic or political."

The aim of the MTSF is to ensure policy coherence, alignment and coordination across government plans as well as alignment with budgeting processes. Performance agreements between the President and each Minister will reflect the relevant actions, indicators and targets set out in this MTSF.

Within the NDP vision, key policy instruments developed in the previous term will continue to drive government's policy agenda. These include the New Growth Path, which sets the trajectory of economic development, the National Infrastructure Plan, which guides the rollout of infrastructure to improve people's lives and enable economic growth, and the Industrial Policy Action Plan, which focuses on promoting investment and competitiveness in leading sectors and industries. Government will also take forward key social development initiatives, including social security and retirement reform, National Health Insurance, improvements in basic education and expansion of technical and vocational education.

The NDP provides the framework for achieving the radical socio-economic agenda set out in the governing party's election manifesto. It recognises the need for a capable and developmental state, a thriving business sector and strong civil society institutions with shared and complementary responsibilities. It identifies decent work, education and the capacity of the state as particularly important priorities. It also highlights the need to improve the quality of administration of many government activities.

The 2014-2019 electoral mandate focuses on the following priorities:

- Radical economic transformation, rapid economic growth and job creation

- Rural development, land and agrarian reform and food security
- Ensuring access to adequate human settlements and quality basic services
 - Improving the quality of and expanding access to education and training
- Ensuring quality health care and social security for all citizens
- Fighting corruption and crime
- Contributing to a better Africa and a better world
- Social cohesion and nation building.

In its focus on these priorities, and their elaboration into fourteen key outcomes and associated activities and targets, the MTSF has two over-arching strategic themes – *radical economic transformation and improving service delivery*.

The conversion of the (2014) Election Manifesto is a strategic continuation and the MTSF into a set of 14 outcomes backed by measurable outputs and key activities to achieve the outputs was the product of consultation and discussion at both the Ministerial and Administrative levels. The diagram below seeks to align the 2014 Election Manifesto and MTSF key strategic objectives and the Outcomes. There appear to be a high degree of correlation and consistency across the three. The outcomes are not another set of priorities per se. They reflect the desired development impacts we seek to achieve given government's policy priorities as contained in the 2014 Election Manifesto and the MTSF. In this sense the outcomes with measurable outputs and key activities is thus the core strategy to achieve the Election Manifesto and MTSF priorities.

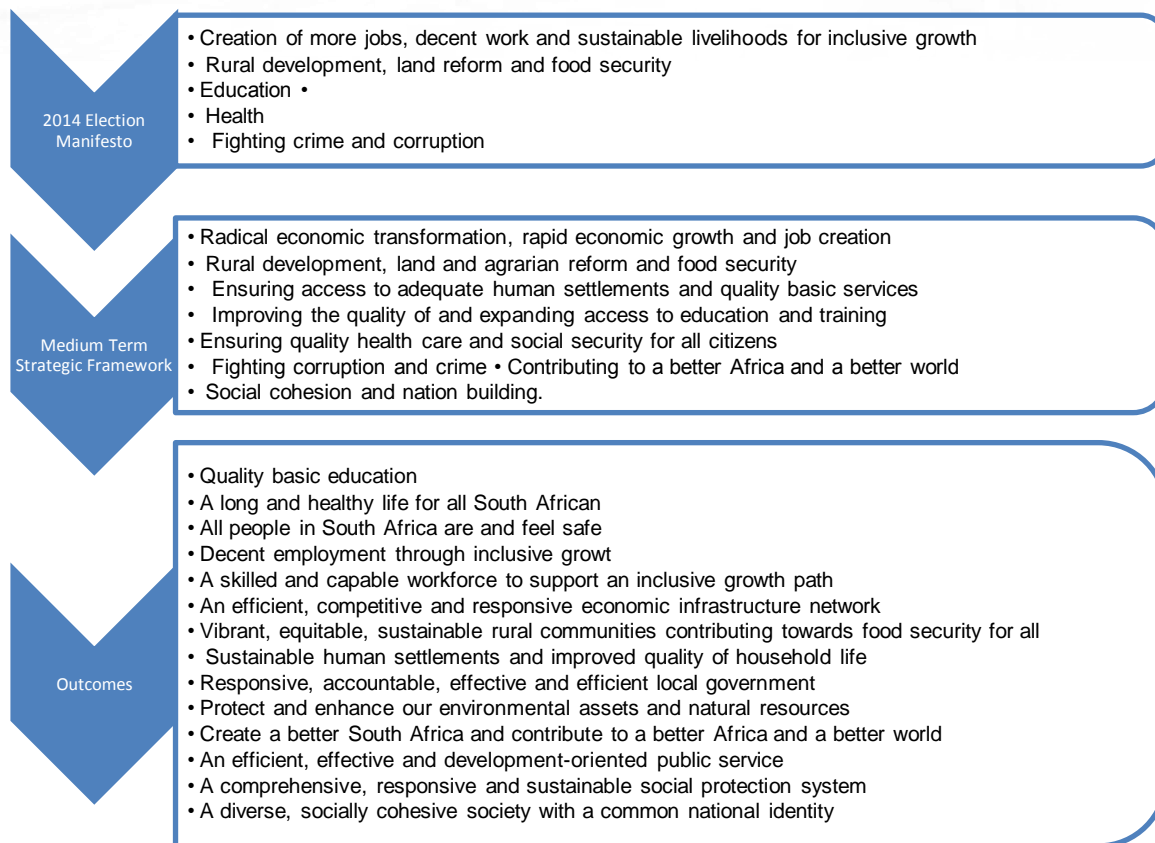

FIGURE 36: GOVERNMENT POLICY PRIORITIES AND OUTCOMES

3.2.4.1 Linking MTSF with Outcome 9: Responsive, Accountable, Effective and Efficient Local Government

TABLE 85: LINKING OTUTCOME 9 WITH MTSF

MTSF PRIORITIES	MTSF ACTIONS
Members of society have sustainable and reliable access to basic services.	<ul style="list-style-type: none"> • Joint initiative for each service (water, sanitation, electricity, refuse removal and roads) led by relevant sector in conjunction with MISA and provinces launched to undertake the following in predominantly (but not exclusively) rural municipalities. • Establish service delivery norms and standards for basic services and determine and quantify service backlogs per municipality in predominantly rural areas according to these norms and standards. • Determine and agree on a portfolio of projects needed to overcome the backlogs for these municipalities and prepare a pipeline of costed projects to address maintenance, refurbishment and new infrastructure needs in each municipality. (i.e. prepare an infrastructure capital and maintenance plan for each municipality). • Develop and implement mechanisms to either support these municipalities to plan, implement and operate and maintain municipal infrastructure projects where support is needed or devise alternate institutional mechanisms to plan, implement and operate and maintain infrastructure where capacity is absent (i.e. an

MTSF PRIORITIES	MTSF ACTIONS
	<p>institutional and financial plan for the municipality).</p> <ul style="list-style-type: none"> • Establish a focused information and programme management and monitoring system to track the implementation of the pipeline of projects. • Support municipalities to develop mechanisms to extend free basic services to indigent households.
Public trust in and credibility of local government improved.	<ul style="list-style-type: none"> • Municipalities supported to develop participatory ward level service improvement plans (covering service delivery quality and reliability, clearing of curb-sides & vacant land, road quality, etc). • Policy developed for municipalities to make project and delivery information available and transparent to enable communities to hold municipalities accountable.
Municipalities demonstrate good financial governance and management.	<ul style="list-style-type: none"> • Assist municipalities to improve own revenues by putting in place measures to improve property valuation rating and levying of user charges. • Targeted support provided to municipalities to develop, implement and monitor action plans to address previous audit outcomes. • Monitor in-year financial reports and address deficiencies. • Ensure spending on repairs and maintenance as a proportion of operational expenditure is in line with percentage prescribed by NT. • Review municipal costing and pricing of core services to reflect cost reflective tariffs with appropriate cross-subsidisation to eligible households. • Ensure all municipal SDBIPs gives effect to IDP and meets requirements as per the MFMA in terms of service delivery targets by top manager and by ward & ultimately is linked to budgets.
Municipalities demonstrate quality management and administrative practices.	<ul style="list-style-type: none"> • Develop in-depth understanding of operating environment of municipalities through thorough assessment of administrative and management practices in conjunction with provinces. • Engage provinces and municipalities to improve performance based on assessment. • Provinces assisted to monitor implementation of improvement plans and provide support to municipalities where needed. • Provinces assisted to put in place requisite capacity to implement the model and assessment tool.
Municipalities recruit and develop skilled and competent personnel who are responsive to citizens' priorities and capable of delivering quality services.	<ul style="list-style-type: none"> • Develop career paths for technical specialists including ensuring adequate attention is given to the reproduction of technical skills. • Formulate guidelines on standard salary levels and standard assessment procedures for different jobs; develop mechanisms to assist municipalities in assessing applicants where necessary. • • Develop operational guidelines and staffing frameworks for different municipal functions (especially technical services and SCM and HRM). • Provincial head plays an oversight role as per MSA Amendment Act and regulations in relation to the competencies, recruitment and performance of municipal managers and senior managers in the province. • Municipalities assisted and monitored to meet the following requirements:

MTSF PRIORITIES	MTSF ACTIONS
	<ul style="list-style-type: none"> • Compliance of the MSA Amendment Act and competency criteria • Identify municipalities not complying and institute support measures to non-compliant municipalities • provinces to identify reasons for critical vacancies and skills gaps and undertake appropriate supportive actions. • Provinces develop long-term human resource plans to ensure the sustainable supply of key skills required at the municipal level. • Locate the responsibility for running the recruitment process for senior managers who report to the municipal manager with the municipal manager but with the final authority for approving selections remaining with the municipal council (as set out in the Regulations on Appointment and Conditions of Employment of Senior Managers). • Pilot a graduate recruitment scheme for local government, providing municipalities with a first port of call for the recruitment of critical skills.
<p>Local public employment programmes expanded through the Community Work Programme.</p>	<ul style="list-style-type: none"> • Effective and efficient programme management and administration. • Proactively build capacity of non-profit implementing agencies at site level. • Monitor and report on programme management and administration performance as well as capacity building initiatives for Non-Profit Organisations. • Scale up existing sites to 3000 participants per site. • Plans for expanding sites to cover 2 wards in 234 municipalities developed and implemented so that the CWP reaches 1 million participants.
<p>Quality of governance arrangements and political leadership enhanced.</p>	<ul style="list-style-type: none"> • Ensure municipal councils approve budgets timeously. • Ensure municipal councils consider and approve annual reports of the previous financial year by 31 January. • Ensure all municipal councils consider the oversight report and submit audited financial statements on time. • Ensure councillors are trained to conduct themselves as per the Code of Conduct set out in Schedule 1 of the Systems Act.
<p>Corruption within local government is tackled more effectively and consistently.</p>	<ul style="list-style-type: none"> • Strengthen accountability and responsibility of local government officials. • Municipal officials held accountable for their actions with respect to matters involving public funds. • Ensure that unauthorised expenditure is properly investigated in terms of section 32 of the MFMA and is dealt with accordingly. • Develop the necessary systems to ensure all appointments at senior management level are checked to ensure the individual has not previously been dismissed from another municipality (as required in the Local Government Regulations on Appointment and Conditions of Senior Managers section 19). • Ensure disclosure of financial interests by senior managers (as required in the Local Government Regulations on Appointment and Conditions of Senior Managers section 27) is implemented and that disclosures are scrutinized.

MTSF PRIORITIES	MTSF ACTIONS
	<ul style="list-style-type: none"> • Make rules preventing municipal officials doing business with the state. • Details of procurement made openly available to citizens. • Introduce a tiered system of review of tenders that applies differential levels of oversight to different forms of procurement (A fuller set of actions relating to supply chain management will be included in Outcome 12, and consideration will need to be given to how those actions will impact on local government). • Develop systems to support officials responsible for procurement through provision of information on standard prices, the reputation of different suppliers and technical advice. • Scrutinise tenders for value for money.
Concrete actions that ensure a better fit between responsibility and the variation in capacities within municipalities supported.	<ul style="list-style-type: none"> • Strengthen role of districts where local municipal capacity is weakest and/or develop regional utilities and or shared arrangements for delivery of key local government services on an agency basis where district and municipal capacity is weak. • Facilitate agreement on a case-by-case basis on the division of service jurisdictions and funding between locals and districts. • Explore the option of establishing on a case-by-case basis single-tier municipalities for secondary cities. • Develop a framework for a more focused role for provinces in monitoring, supporting and engaging municipalities with respect to governance and institutional arrangements. • Develop and streamline reporting requirements for municipalities to reduce reporting burden.

The process from priority setting based on the 2014 Election Manifesto and MTSF through the outcomes definition with measurable outputs and key activities, has laid a solid basis for signalling what the current Administration will be seeking to achieve by 2019.

3.2.5 OUTCOME 9: A RESPONSIVE, ACCOUNTABLE, EFFECTIVE AND EFFICIENT LOCAL GOVERNMENT

“Problems at municipalities range from issues of poor governance and accountability, weak financial management, high vacancies in critical senior management posts and in a number of instances, an inability to deliver even a core set of critical municipal services efficiently and effectively.....All these problems combined have shattered the confidence of the majority of our people in our local government system.”

Vision for Outcome 9

1. Develop a more rigorous, data driven and detailed segmentation of municipalities that better reflect the varied and capacities and contexts within municipalities and lays the basis for a differentiated approach to municipal financing, planning and support

2. Ensure improved access to essential services
3. Initiate ward-based programmes to sustain livelihoods
4. Contribute to the achievement of sustainable human settlements and quality neighbourhoods
5. Strengthen participatory governance
6. Strengthen the administrative and financial capability of municipalities
7. Address coordination problems and strengthen cross-departmental initiatives

Linking Outputs to Outcome 9

TABLE 86: LINKING OUTPUTS TO OUTCOME 9

	Outputs	Sub-outputs	Action required
1	Implement a differentiated approach to municipal financing, planning and support	1.1 Policy Framework for differentiation developed	Segmentation model
		1.2 Grant the 6 metro's and top 21 municipalities more autonomy in respect of infrastructure and housing delivery	a. Accelerate the implementation of the MIG-City programme to the top 21 municipalities; and b. Accelerate the housing accreditation process in the metros and 21 municipalities
		1.3 Design a very focused intervention for clearly defined smaller municipalities	a. Producing IDP's simplified to focus on planning for the delivery of a set of 10 critical municipal services b. Supported by a simple revenue plan c. Supported by auditing and filling the critical posts of MM & Senior Managers with competent and suitably qualified individuals
2	Improving Access to Basic Services	2.1 Improve universal access to basic services by 2014 as follows:	a. Water from 92% to 100% b. Sanitation from 69% to 100% c. Refuse removal from 64% to 75% d. Electricity from 81% to 92%
		2.2 Establishment of a Bulk Infrastructure Fund to better align and coordinate municipal infrastructure funding with a view to:	a. Unlock delivery of reticulation services b. Fund bulk infrastructure, c. Procure well located land d. Align Provincial Infrastructure Grants and MIGs with housing projects and grants e. Upgrade and rehabilitate bulk infrastructure (such as WWTWs)
		2.3 Establishment of a special purpose vehicle (SPV) to provide specialised technical and financial support to	In particular the SPV should support targeted municipalities to: a. Appropriately structure capital funding and mobilise operational funding to strengthen municipal service provision

	Outputs	Sub-outputs	Action required
		municipalities (infrastructure provisioning)	b. Deliver new infrastructure to eradicate backlogs, rehabilitate existing infrastructure and provide for effective operation and maintenance of infrastructure.
3	Implementation of the Community Work Programme	3.1 Create at least 237 000 work opportunities and contribute to the target of 4.5million EPWP job opportunities by 2014	a. Provide an employment safety net targeting a social protection gap b. Supplement other livelihood strategies and not to replace or displace them: with no expectation that participants will be able to 'exit' into sustainable jobs any time soon c. Contribute to the development of public assets in poor communities d. Strengthen community Development Approaches e. Strengthen the economic 'agency' of people in marginalised economic areas; providing work experience, enhancing dignity and promoting social and economic inclusion
		3.2 Establish where feasible, functional cooperatives at the local level by 2014.	
4	Actions supportive of the human settlement outcomes	4.1 Initiate actions to increase densities in metros and large towns by 2014; 4.2 Initiate actions to release public land for low income and affordable housing to support the delivery of 400 000 housing units on "well located land" with a 30 to 45 minute journey to work and services and using less than 8% of disposable income for transport by 2014;	
		4.1 Support the expansion of the national upgrading support programme in 45 priority municipalities to facilitate the upgrading of informal settlements	Specifically support the grading and rezoning of informal settlements by the priority municipalities
5	Deepen democracy through a refined Ward Committee model	5.1 Review and strengthen the legislative framework for Ward Committees and community participation to:	a. Broaden participation of and better organize various sectors at a local level; and b. Propose revised / new responsibilities and institutional arrangements for Ward Committees and Community Development Workers
		5.2 Put support measures in place to ensure that at least 90% of all Ward Committees are fully functional by 2014	Find a new approach to better resource and fund the work and activities of Ward Committees
6	Administrative and financial capability	6.1 Improved audit outcomes of municipalities; 6.2 Reduced municipal debt;	

	Outputs	Sub-outputs	Action required
		6.3 Reduced municipal overspending on operational expenditure (OPEX); 6.4 Reduced municipal under spending on capital expenditure (CAPEX); 6.5 Increased municipal spending on repairs and maintenance; and 6.6 Support access to basic services through improved administrative and HR practices	
7	Single Window of Coordination	<ul style="list-style-type: none"> • The Single Window of Coordination is a concept and organisational form to bring about greater cohesion in the work of government, particularly, but not exclusively at the national level. • an institutional mechanism to lessen the fragmentation within the cooperative governance arrangements impacting on local government • provide for a more focused oversight and support role for provinces and provide for a greater knowledge bank on municipal environments • cross-departmental committee comprising the departments of Human Settlements, Environment and Water Affairs, Rural Development, Energy and National Treasury under the leadership of the Department of Cooperative Governance 	

3.2.6 NATIONAL SPATIAL DEVELOPMENT PERSPECTIVE (NSDP)

The premise on which the National Spatial Development Perspective (NSDP) (2006) is based is one which seeks to redress the spatial imbalances caused by Apartheid planning. The aim is to encourage government to make urbanisation and urban economic development central in its prioritisation for development spending.

The NSDP seeks to set a spatial rationale for focusing all government (national, provincial and local) efforts on centralised areas. It does recognise development in areas where economic growth is not growing as fast, hence appropriate interventions need to be established.

The NSDP contains a set of normative principles to guide investment decisions and planning at provincial and local level:

Principle 1: Rapid economic growth that is sustained and inclusive is a pre-requisite for the achievement of other policy objectives, among which poverty alleviation is key.

Principle 2: Government has a constitutional obligation to provide basic services to all citizens wherever they reside.

Principle 3: Beyond the constitutional obligation government spending on fixed investment should be focused on localities of economic growth and/or potential

in order to gear up private-sector investment, to stimulate sustainable economic activities, and to create long-term employment opportunities.

Principle 4: Efforts to address social inequalities should focus on people, not places. In localities where there are both high levels of poverty and demonstrated economic potential, this could include fixed capital investment beyond basic services to exploit the potential of those localities. In localities with low demonstrated economic potential, Government should concentrate primarily on human capital development by providing social transfers such as grants, education and training, and poverty-relief programmes.

Principle 5: In order to overcome the spatial distortions of apartheid, future settlement and economic development opportunities should be channelled into activity corridors and nodes that are adjacent to or that link the main growth centres. Infrastructure investment should primarily support localities that will become major growth nodes in South Africa and the SADC region to create regional gateways to the global economy.

The NSDP introduces a spatial analysis approach whereby the space economy is analysed in terms of “potential” and “need”, which was used to develop an overview of the national space economy and the identification of 26 areas of national economic significance and a number of nationally significant poverty concentrations.

3.2.7 FREE STATE VISION 2030

The PGDS is a critical instrument to shape and coordinate the allocation of national, provincial and local resources, and private sector investment to achieve sustainable development outcomes based on provincial development needs and priorities.

The Free State Vision 2030, marks a break with the current five-year planning approach and is a reflective long-term strategic framework envisioned to create an environment to respond to the complexities that characterise the provincial development landscape. Underpinning the vision is the ability of government together with the people to map out the destiny of the province.

The figure below outlines the Free State Vision 2030 and its six pillars.

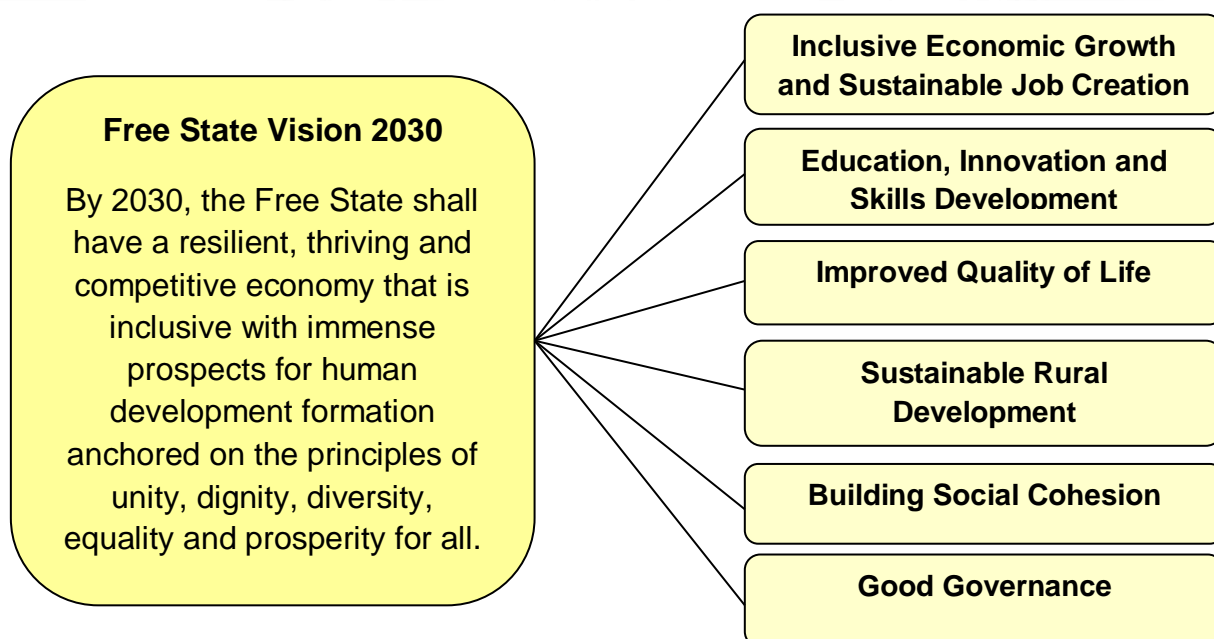

FIGURE 37: FREE STATE VISION 2030 AND PILLARS

The Free State Vision 2030 and its concomitant pillars have been translated into high level targets which are meant to give practical meaning to the ideals contained in the vision statement and to further provide a systematic and integrated outlook on the implementation and impact of interventions undertaken.

TABLE 87: FREE STATE 2030 TARGETS

Free State Vision 2030: Pillars	Targets
Economic Restructuring, Growth and Employment Creation	<ul style="list-style-type: none"> • Increase the provincial growth rate from 2.1% in 2010 to 7% in 2030 • Increase the contribution of non-petro-chemicals sub-sectors to the manufacturing sector from 25% to 50% • Increase the contribution of the manufacturing sector from 14% to 28% • Increase the contribution of the agricultural sector from 3.8% to 10% • Increase the provincial contribution to the SA economy from 5% in 2010 to 15% in 2030 • Increase the GDP per capita income from R32 304 in 2010 to R110 000 in 2030 • Reduce unemployment rate from 25.5% in 2011 to 6% by 2030 • Increase the availability, affordability and speed of broadband from 256kbs in 2011 to at least 2mbs in 2030
Education, Innovation and Skills Development	<ul style="list-style-type: none"> • Eradicate micro-nutrient deficiencies in children under 18 months • Ensure that all children have at least two years pre-school education • Increase Grade R enrolment from 58% in 2010 to 80% in 2030 • Increase Grade 12 pass rate with at least 50% from 70.7% in 2011 to 95% in 2030 • Increase Grade 12 Mathematics and Science pass rate from 67% in 2010 to 90% • Increase the number of people with Grade 12 who are 15+ years from

Free Vision Pillars	State 2030:	Targets
		23% in 2010 to 80% in 2030 • Increase the FET graduation rate to 75% in 2030
Improved Quality of Life		<ul style="list-style-type: none"> • Reduce the Gini-coefficient from 0.64 in 2010 to 0.3 in 2030 • Increase the proportion of people with access to electricity from 90% in 2010 to 100% • Develop integrated, affordable and environmentally-friendly public transport system • Increase the proportion of people with access to water in their dwelling from 45% in 2009 to 100% in 2030 • Increase the proportion of people with access to flush or chemical toilets from 70% in 2009 to 100% in 2030 • Reduce the housing informal settlement backlog from 23.4% in 2010 to 0% in 2030 • Increase the number of people living closer to their places of work to 20% in 2030 • Reduce infant mortality rate from 31.4% in 2010 to 7% in 2030 • Promote health education as an essential part of the school curriculum • Reduce HIV prevalence from 22.6% of the population in 2010 to 14% in 2030 and ensure that the under-20 age group is largely HIV-free generation • Increase life expectancy from 46 in 2011 to 70 in 2030 • Increase the TB cure rate from 71.3% in 2010 to 100% in 2030 • Reduce the number of people living in poverty from 44.7% in 2010 to 0% in 2030 • Reduce the number of municipalities with green-drop score from 17 in 2010 to 0 in 2030 and those with blue-drop score from 12 to 0 • Increase the land dedicated to formal conservation from 1.6% of the land surface to 3% in 2030 • Reduce property-related crimes from 1 020 per 100 000 in 2010 to 200 per 100 000 in 2030
Sustainable Rural Development		<ul style="list-style-type: none"> • Increase the provision of quality basic services and invest in education, health care and public transport • Increase investment in agro-processing, tourism, aqua-culture and crafts industries • Increase financial support to rural communities • Increase investment in irrigation technologies and implement conservation measures • Improve access to markets for small-scale farmers and rural cooperatives
Build Social Cohesion		<ul style="list-style-type: none"> • Popularize and promote rights and responsibilities embedded within the Constitution • Introduce African languages in all schools to facilitate understanding, tolerance, respect and diversity • Promote Sport and Recreation as an essential part of the education curriculum • Develop and embed shared values amongst communities • Strengthen participatory democracy to encourage citizenry expression to guide and influence behaviour • Increase socio-economic access and opportunities to all to eliminate any forms of prejudice and marginalization • Create a safe and secure environment for individuals

LOCAL GOVERNMENT TURNAROUND STRATEGY (LGTAS)

Chapter 2 of the IDP provides an introduction on the Local Government Turnaround Strategy (LGTAS). LGTAS is an initiative to restore confidence in the local sphere of government. This initiative was approved by Cabinet in December 2009 when a comprehensive Turnaround Strategy for Local Government was accepted.

LGTAS works towards ensuring that municipalities are the primary delivery machine of the developmental state at a local level. Restoring confidence of the majority of people in South Africa in municipalities will be achieved by rebuilding and improving the basic requirements for a functional, responsive, accountable, effective and efficient local government.

The LGTAS is underpinned by two important considerations. It is accepted that each municipality faces different social and economic conditions and has different performance levels and support needs, and therefore a more segmented and distinguished approach is required to address the various challenges of municipalities. The problems in local government are both a result of internal factors within the direct control of municipalities as well as external factors over which municipalities do not have much control.

The aim of the turnaround strategy is to:

- restore the confidence in the municipalities, as the primary delivery machine of the developmental state at a local level; and
- rebuild and improve the basic requirements for a functional, responsive, accountable, effective, and efficient developmental local government.

The five strategic objectives of the local government turnaround strategy are to:

- Ensure that municipalities meet basic needs of communities. This implies that an environment is created, support provided and systems built to accelerate quality service delivery within the context of each municipality's conditions and needs;
- Build clean, responsive and accountable local government. Make sure that systems and structures and procedures are developed and enforced to deal with corruption, maladministration and ensure that municipalities communicate and account more to communities;
- Improve functionality, performance and professionalism in municipalities. Ensure that the core administrative and institutional systems are in place and are operational to improve performance;
- Improve national and provincial policy, support and oversight to local

government; and

- Strengthen partnerships between local government, communities and civil society. Ensure that communities and other development partners are mobilised to partner with municipalities in service delivery and development.

The key interventions under these five strategic objectives focus on ensuring that:

- national government (including state enterprises) organises itself better in relation to local government;
- provinces improve their support and oversight responsibilities over local government;
- municipalities reflect on their own performance and identify their own tailor made turnaround strategies all three spheres of government improve inter-governmental relations in practice;
- political parties promote and enhance the institutional integrity of municipalities; and
- a social compact on local government is put in place where all citizens, including public officials at all levels, those in the private sector, trade unions, professional bodies and traditional leaders are guided in their actions and involvement by a common set of governance values.

Some of the immediate implementation priorities of the local government turnaround strategy (pre-2011 local government elections) are to:

- address the immediate financial and administrative problems in municipalities;
- promulgate regulations to stem indiscriminate hiring and firing in municipalities;
- tighten and implement a transparent municipal supply chain management system; and
- ensure that the programmes of national and provincial government and state owned enterprises are reflected in municipal integrated development plans and overcome “one size fits all” approach by differentiating responsibilities and simplifying integrated development plans.

Some of the main post-2011 priorities of the local government turnaround strategy include the following, which are part of vision 2014:

- Infrastructure backlogs should be reduced significantly;
- All citizens must have access to affordable universal basic services;
- Formalisation of all informal settlements;
- Clean cities, through the management of waste in such a way that it creates employment and wealth; and

- A single election for national, provincial and local government (key benefits include: single manifesto, one financial year, single public service, common five year medium term planning, aligned human resource and budgeting frameworks).

The local government turnaround strategy will be managed driven through a national coordinating unit in the Department of Cooperative Governance and Traditional Affairs that will serve as a “nerve centre” for implementation.

An immediate task of the local government turnaround strategy is that agreements will be reached with each province on the roll-out programme in the context of the different provincial needs and capacities. This will guide how municipalities will be supported to prepare and implement their own tailor made turnaround strategies that must be incorporated into their integrated development plans and budgets by March 2010. Key stakeholders and ward committees will be mobilised early in 2010. By July 2010, all municipalities will be in full implementation mode of the national and their own turn around strategies. The implementation of the local government turnaround strategy presents the entire country and all communities with an opportunity to work together with their municipalities in improving and accelerating service delivery.

3.2.9 SPATIAL LAND USE MANAGEMENT (SPLUMA)

The Spatial Planning and Land Use Management Act, 2013 (SPLUMA) was assented to by the President of the Republic of South Africa on 5 August 2013. It will come into operation on a date fixed by the President by proclamation in the Government Gazette. SPLUMA is a framework act for all spatial planning and land use management legislation in South Africa. It seeks to promote consistency and uniformity in procedures and decision-making in this field. The other objects include addressing historical spatial imbalances and the integration of the principles of sustainable development into land use and planning regulatory tools and legislative instruments.

Currently, Metsimaholo Local Municipality is in a process of establishing the Municipal Planning Tribunals (MPT). The sole purpose and the role for these tribunals is to determine land use and development applications within the Municipal area. These Tribunals will consist of Municipal officials who are in full time service of the Municipality and the persons appointed by the Municipal Council who are not Municipal officials.

The following principles apply to spatial planning, land development and land use management:

TABLE 88: PRINCIPLES OF SPATIAL LAND USE MANAGEMENT:

Principle	Outcomes
Spatial Justice	<ul style="list-style-type: none"> • Past spatial and other development imbalances must be redressed through improved access to and use of land • spatial development frameworks and policies at all spheres of government must address the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements, former homeland areas and areas characterised by widespread poverty and deprivation; • spatial planning mechanisms, including land use schemes, must incorporate provisions that enable redress in access to land by disadvantaged communities and persons; • land use management systems must include all areas of a municipality and specifically include provisions that are flexible and appropriate for the management of disadvantaged areas, informal settlements and former homeland areas; • land development procedures must include provisions that accommodate access to secure tenure and the incremental upgrading of informal areas; and • a Municipal Planning Tribunal considering an application before it, may not be impeded or restricted in the exercise of its discretion solely on the ground that the value of land or property is affected by the outcome of the application;
Spatial Sustainability	<ul style="list-style-type: none"> • promote land development that is within the fiscal, institutional and administrative means of the Republic; • ensure that special consideration is given to the protection of prime and unique agricultural land; • uphold consistency of land use measures in accordance with environmental management instruments; • promote and stimulate the effective and equitable functioning of land markets; • consider all current and future costs to all parties for the provision of infrastructure and social services in land developments; • promote land development in locations that are sustainable and limit urban sprawl; and • result in communities that are viable;
Efficiency	<ul style="list-style-type: none"> • land development optimises the use of existing resources and infrastructure; • decision-making procedures are designed to minimise negative financial, social, economic or environmental impacts; and • development application procedures are efficient and

	streamlined and timeframes are adhered to by all parties;
Spatial Resilience	<ul style="list-style-type: none"> whereby flexibility in spatial plans, policies and land use management systems are accommodated to ensure sustainable livelihoods in communities most likely to suffer the impacts of economic and environmental shocks
Good Administration	<ul style="list-style-type: none"> all spheres of government ensure an integrated approach to land use and land development that is guided by the spatial planning and land use management systems as embodied in this Act; all government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of spatial development frameworks; the requirements of any law relating to land development and land use are met timeously; the preparation and amendment of spatial plans, policies, and land use schemes as well as procedures for development applications.

3.2.10 BACK TO BASICS:

We need to do things differently if we want different solutions. “We cannot solve today’s problems with the same level of thinking that created the problems in the first place” (Albert Einstein). The situation needs a change of paradigm that focuses on serving the people and not political elites and organizations. This is the essence of our ‘back to basics’ approach.

BACK -TO - BASIS PRIOTIES:

The immediate priorities for Back to Basics Approach (transformation) are:

Priority 1: Get all municipalities out of a dysfunctional state and at the very least able to perform the basic functions of local government. This will be through enforcement of current policies and legislation, and systematically managing performance and accountability, and enforcement of the system for managing consequences. Minimum performance requirements include ensuring the proper functioning of council structures and council processes, and the provision of basic services.

Priority 2: Support municipalities that are at a minimum basic level of performance to progress to a higher path. Here the focus will be on building strong municipal administrative systems and processes. It includes ensuring that administrative positions are filled with competent and committed people whose performance is closely monitored. The oversight system for local government must be improved through creating real-time monitoring systems. A targeted, vigorous and brisk

response must ensure that corruption and fraud are rooted out. Measures will be taken to ensure that municipalities engage with their communities. Support measures will be put in place to create an enabling environment for local economic development to stimulate competitive, inclusive and sustainable economies.

Priority 3: Support and incentivise municipalities that are performing well to remain there. Given that in these municipalities the basics are largely in place, the main focus here will be on transforming the local space economy and integrating and densifying our communities to improve sustainability. In this regard, the Integrated Urban Development Framework provides an important building block. The National Spatial Development Framework must be developed to ensure effective alignment of our national economic, environment and social programmes with those of our municipalities. We will develop innovative ways to incentivise those municipalities doing well.

The linking of Municipal performance to the Back –to- Basics approach is defined on the table below:

TABLE 89: LINKING MUNICIPAL PERFORMANCE TO BACK –TO- BASICS APPROACH:

Outputs	Sub- Outputs	Action Required
Good Governance	Be well governed and demonstrate good governance and administration - cut wastage, spend public funds prudently, hire competent staff, ensure transparency and accountability	<p>Good governance is at the heart of the effective functioning of municipalities. Municipalities will be constantly monitored and evaluated on their ability to carry out the following basics:</p> <ul style="list-style-type: none"> • The holding of Council meetings as legislated. • The functionality of oversight structures, s79 committees, audit committees and District IGR Forums • Whether or not there has been progress following interventions over the last 3 – 5 years. • Assess the existence and efficiency of Anti-Corruption measures. • The extent to which there is compliance with legislation and the enforcement of by laws • The rate of service delivery protests and approaches to address them
Public Participation	Put people and their concerns first and ensure constant contact with communities through effective public	Measures will be taken to ensure that municipalities engage with their communities. We will enforce compliance with the provisions of the Municipal Systems Act on community participation. Municipalities must develop

	<p>participation platforms.</p>	<p>affordable and efficient communication systems to communicate regularly with communities and disseminate urgent information. The basic measures to be monitored include:</p> <ul style="list-style-type: none"> • Assessing the existence of the required number of functional Ward committees. • The percentage of ward committee’s grants spent. • The number of council effective public participation programmes conducted. • The regularity of community satisfaction surveys carried out.
<p>Financial Management</p>	<p>Ensure sound financial management and accounting, and prudently manage resources so as to sustainably deliver services and bring development to communities.</p>	<p>Sound financial management is integral to the success of local government. National Treasury has legislated standards and reporting requirements, and based on our monitoring of the indicators, we will identify the key areas emerging from the profiles and partner with National Treasury to support the remedial process. Performance against the following basic indicators will be constantly assessed:</p> <ul style="list-style-type: none"> • The number disclaimers in the last three – five years. • Whether the budgets are cash backed. • The percentage revenue collected. • The extent to which debt is serviced. • The efficiency and functionality of supply chain management.
<p>Infrastructure Services</p>	<p>. Create conditions for decent living by consistently delivering municipal services to the right quality and standard. This includes planning for and delivery of infrastructure and amenities, maintenance and upkeep, including the budgeting to do this. Ensure no failures in services and where there are, restore with urgency.</p>	<p>The planning, implementation and maintenance of basic infrastructure is critical for sustaining basic standards of living and economic activity in our towns and cities. All municipalities will develop service standards for each service, and will establish systems for monitoring adherence to these standards. Municipalities will be required to report on ward-level service delivery plans. We expect municipalities to perform the following basic activities, and the performance indicators will measure the ability of our municipalities to do so:</p> <ul style="list-style-type: none"> • Develop fundable consolidated

		<p>infrastructure plans.</p> <ul style="list-style-type: none"> • Ensure Infrastructure development maintenance and reduce losses with respect to: <ul style="list-style-type: none"> - Water and sanitation. - Human Settlements. - Electricity. - Waste Management. - Roads. - Public Transportation. • Ensure the provision of Free Basic Services and the maintenance of Indigent register
<p>Institutional Capacity</p>	<p>. Build and maintain sound institutional and administrative capabilities administered and managed by dedicated and skilled personnel at all levels.</p>	<p>There has to be a focus will be on building strong municipal administrative systems and processes. It includes ensuring that administrative positions are filled with competent and committed people whose performance is closely monitored. Targeted and measurable training and capacity building will be provided for Councillors and municipal officials so that they are able to deal with the challenges of local governance as well as ensuring that scarce skills are addressed through bursary and training programmes. The basic requirements to be monitored include:</p> <ul style="list-style-type: none"> • Ensuring that the top six post (Municipal Manager, Finance, Infrastructure Corporate Services, Community development and Development Planning) vacancies are filled by competent persons (qualifications) • That the municipal organograms are realistic, underpinned by a service delivery model and affordable; • That there are implementable human resources development and management programmes; and • There are sustained platforms to

		engage organised labour to minimise disputes and disruptions
--	--	--

3.2 .11 MUNICIPAL BACK TO BASICS

The updated Municipal BACK TO BASICS template is included as Annexure A of the IDP. This Programme of Action is updated on monthly basis with intent to track the Municipal progress the interventions implemented.

CHAPTER 4: INTEGRATION PHASE (SECTOR PLANS)

This chapter will provide a high-level overview of how the sector plans relate to the status quo analysis, strategic objectives and programmes and projects. Sector plans must indicate strategic interventions that respond to the status quo assessment.

At the core of the new system of local government is the ability of municipalities to coordinate and integrate programmes of other government spheres and sectors implemented in their space. This role is very critical given that all government programmes and services are delivered in municipal spaces. In this regard, the integrated development planning process becomes a vehicle to facilitate integrated development and ensure that local government outcomes contained in the White Paper on Local Government are attained.

The approaches and plans to achieve these outcomes are contained in various national and provincial legislations and policy frameworks.

National departments, through legislation and policies, express government priorities, strategies, plans and programmes. The legislation and policies also require Municipalities to develop sector-specific plans to guide the rendering of certain services.

4.1 HIERARCHY OF SECTOR PLANS

Sector plans should not be developed in isolation of one another, but there must be a sequential way of developing them. The development of these plans requires cooperation among various units in the municipality so that linkages are identified to ensure that service-specific plans contribute to the long-term vision of the municipality. In this regard, the sector plans can be arranged into five levels as indicated in the table below

TABLE 90: HIERARCHY OF SECTOR PLANS

Level 1	Spatial Vision	Spatial Development Framework (SDF)
Level 2	Social, Economic and Environmental Vision	Integrated Human Settlement Plan (IHSP) Local Economic Development Plan (LEDP) Environmental Management Plan (EMP)
Level 3	Service-oriented Sector Plans	Water Services Development Plan (WSDP) Integrated Waste Management Plan (IWMP) Integrated Transport Plans (ITP) Integrated Energy Plans (IEP) Sports and Recreations Plan (SRP)
Level 4	Strategy Support Plans	Disaster Management Plan (DMP) Integrated Comprehensive Infrastructure Plans (ICIP)
Level 5	Implementation Support Plans	Financial Plan/Strategy Institutional Plan

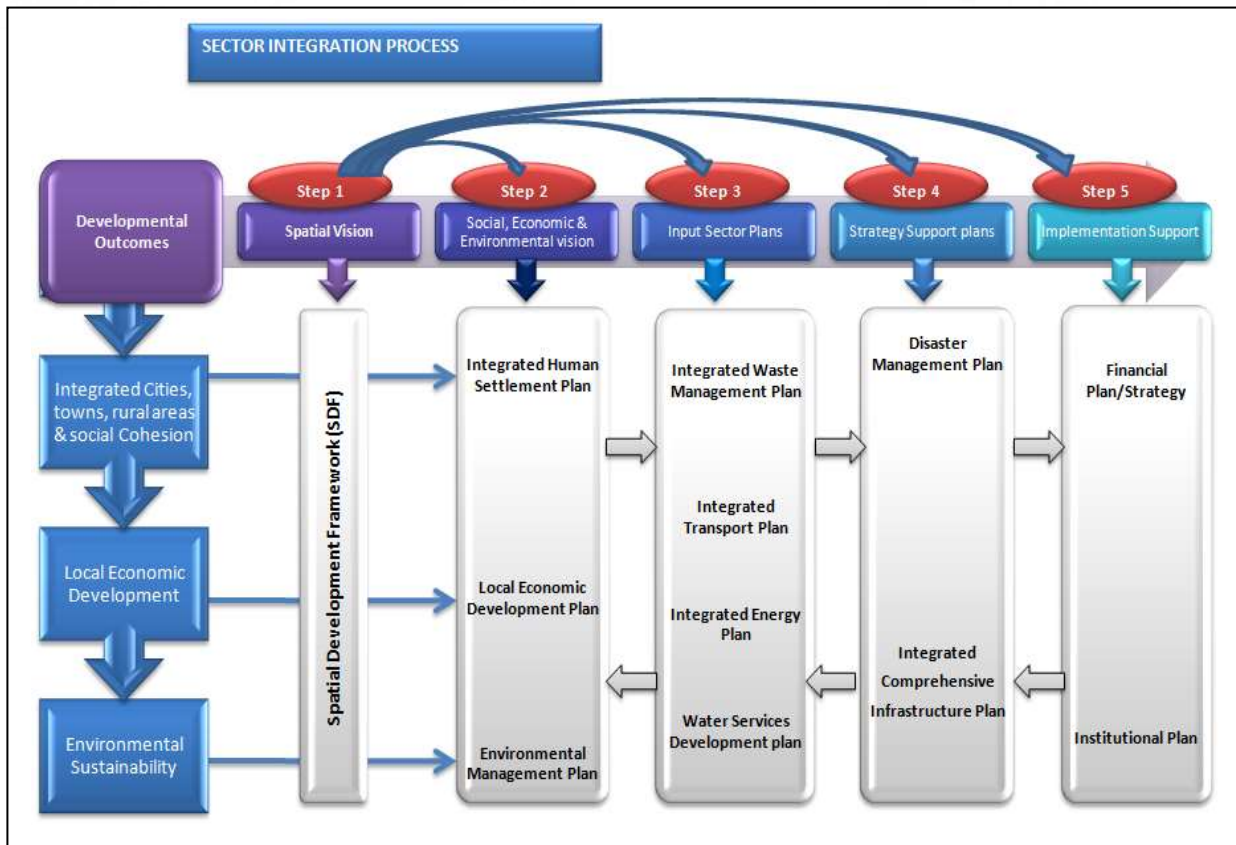

FIGURE 38: SECTOR INTEGRATION PROCESS

4.2 STATUS QUO OF MLM SECTOR PLANS

The Table below reflects the current status for Metsimaholo Local Municipality with regard to the Plans and Strategies:

TABLE 91: STATUS OF SECTOR PLANS AND STRATEGIES

	Sector Plan/Strategy <i>(as required for the 2016/17 IDP)</i>	Responsible Director	Current status <i>(Indicate what the current status of the plan/strategy is)</i>	Target date for completion <i>(if the plan/strategy is not completed or finalized indicate the target date)</i>	Is document available?	Action steps to be taken <i>(List all the actions required to finalize the plan/strategy by the specified target date)</i>
1	Spatial Development Framework	DEDP	Draft SDF to be taken for Public Participation in	April 2016	Yes	Draft SDF to be approved by Council at the end of

	Sector Plan/Strategy <i>(as required for the 2016/17 IDP)</i>	Responsible Director	Current status <i>(Indicate what the current status of the plan/strategy is)</i>	Target date for completion <i>(if the plan/strategy is not completed or finalized indicate the target date)</i>	Is document available? 14	Human Resources Strategy	DODCS	Strategy has been approved by Council		Yes	
15	Performance Management Policy Framework	MM	Institutional Performance Management Framework approved by Council in April 2012	-	Yes	To be Reviewed
16	Community Participation Strategy	MM	Approved by Council (Dec. 2010)		Yes	To be Reviewed
17	Supply Chain Management Policy	CFO	Policy was approved by Council in 2015		Yes	

INTEGRATION PHASE SYNOPSIS:

The Municipality has adopted or approved the following Sector Plans in order to ensure that certain services are provided in an integrated manner and find expression in the Municipal Integrated Development Plan.

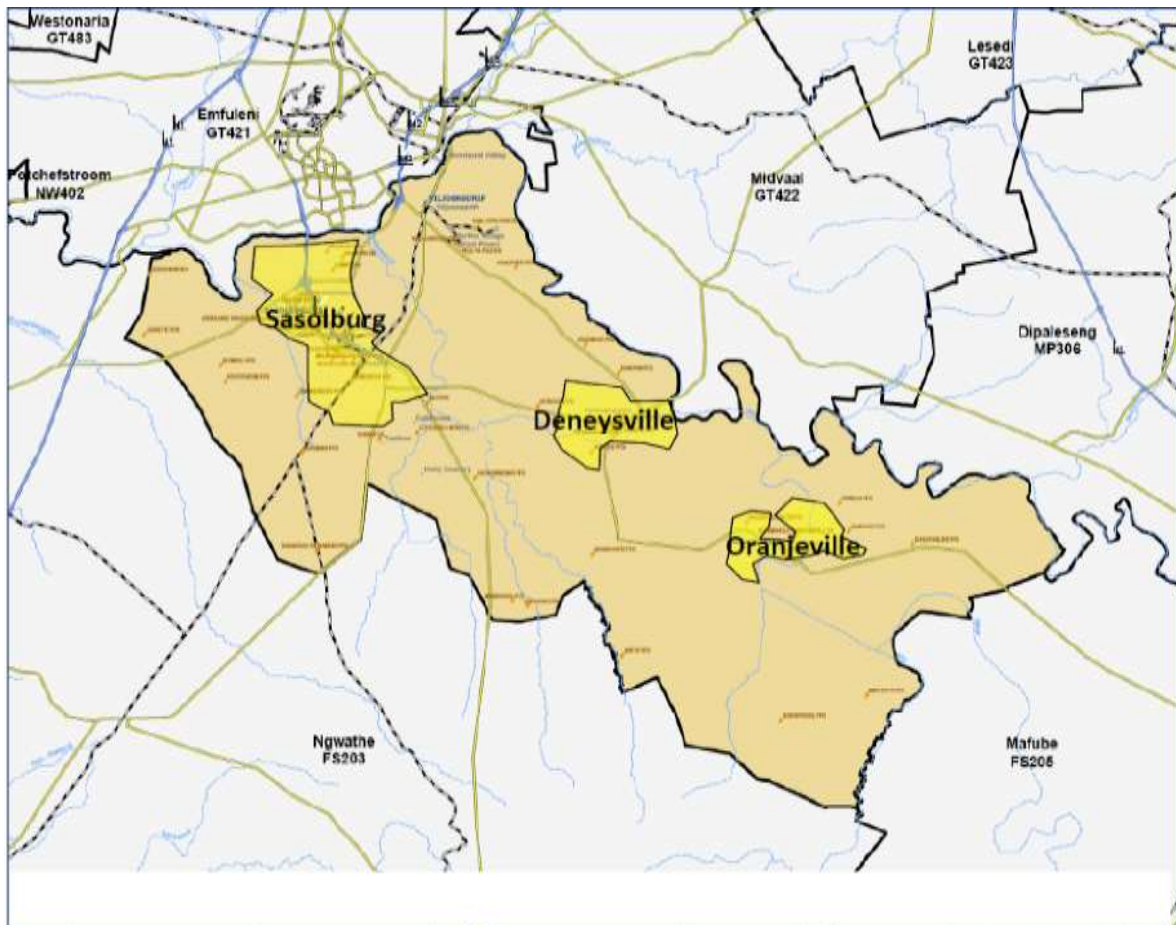

- Spatial Development Framework (SDF)
- LED Strategy and Plan
- Housing Sector Plan
- Integrated Waste Management Plan (IWMP)
- Disaster Management Plan

Below is the synopsis of all sector Plans all available Sector Plans:

SPATIAL DEVELOPMENT FRAMEWORK (SDF)

URBAN DEVELOPMENT: HIERARCHY OF TOWNS

- ☞ **Sasolburg** with its strong service character and prominent commercial and industrial components will remain the main town and growth point of the region.
- ☞ **Deneysville and Oranjeville** will primarily serve as satellite towns housing labour who are employed in the industries of Sasolburg and Vereeniging. These towns do, however, rely heavily on the tourism sector for economic growth.
- ☞ The tourism related nature of the two urban areas should be enhanced focusing on low density residential development on the Vaal Dam riparian areas and “recreation and tourist” attractions as identified in the Vaal River Complex Regional Structure Plan.

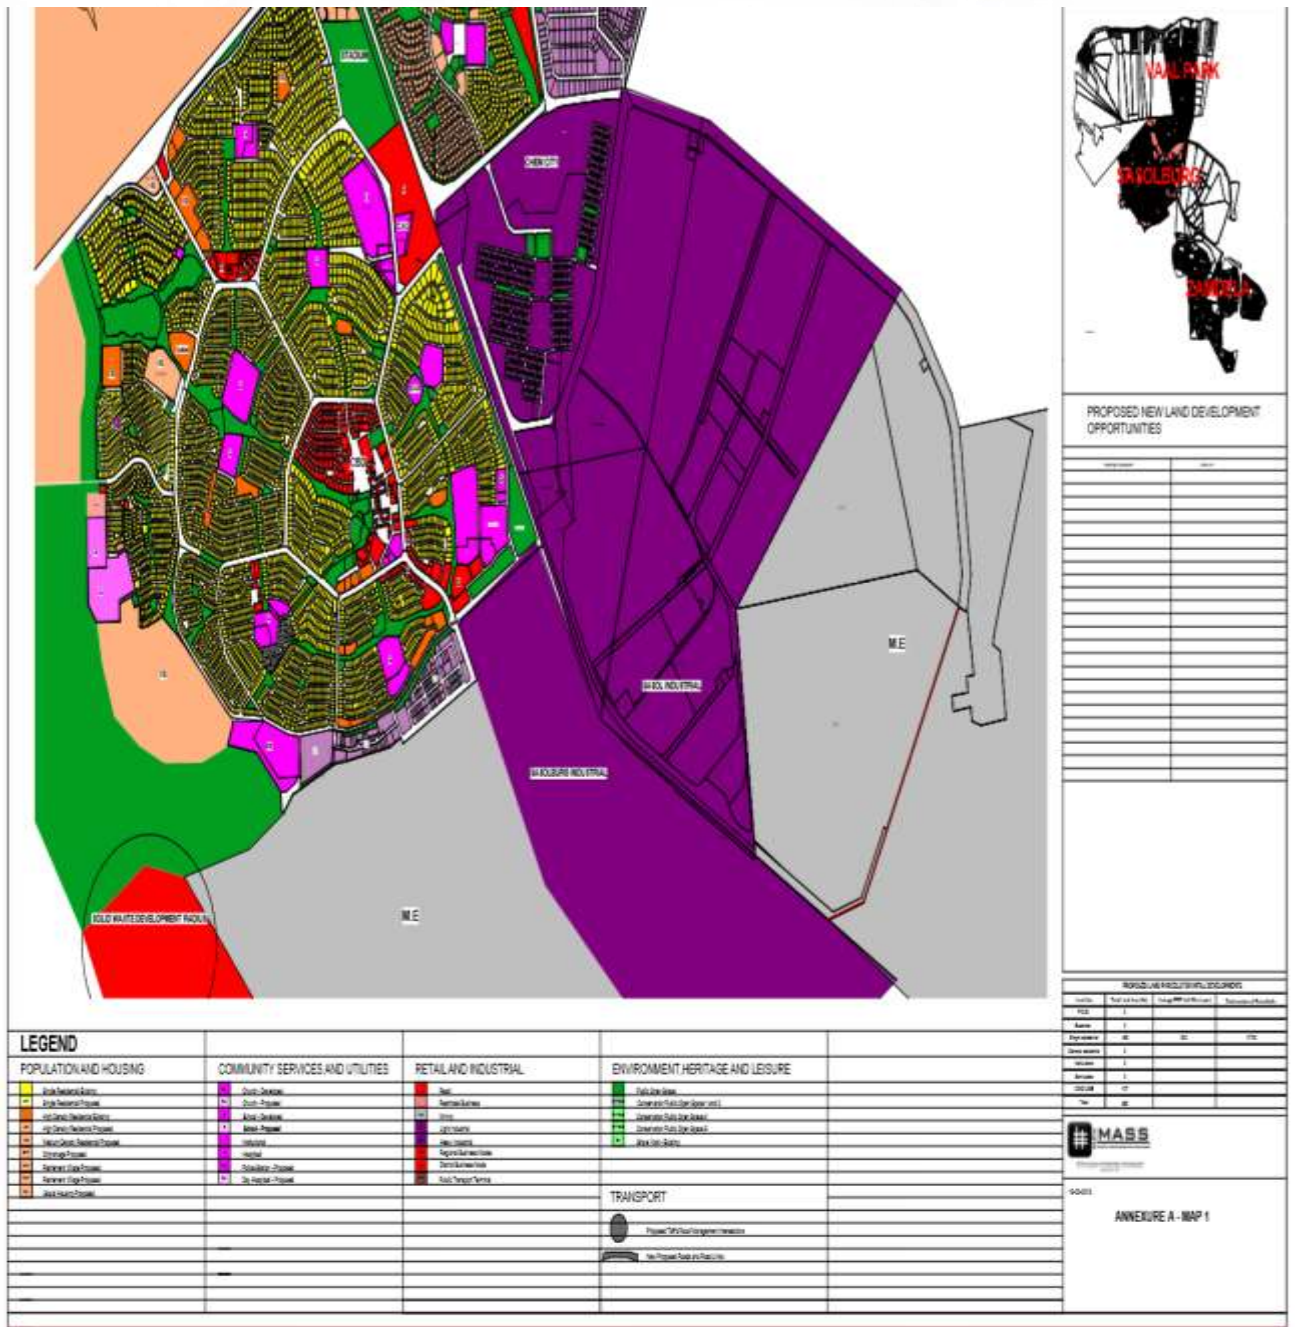

FIGURE 39: SASOLBURG AREA MAP

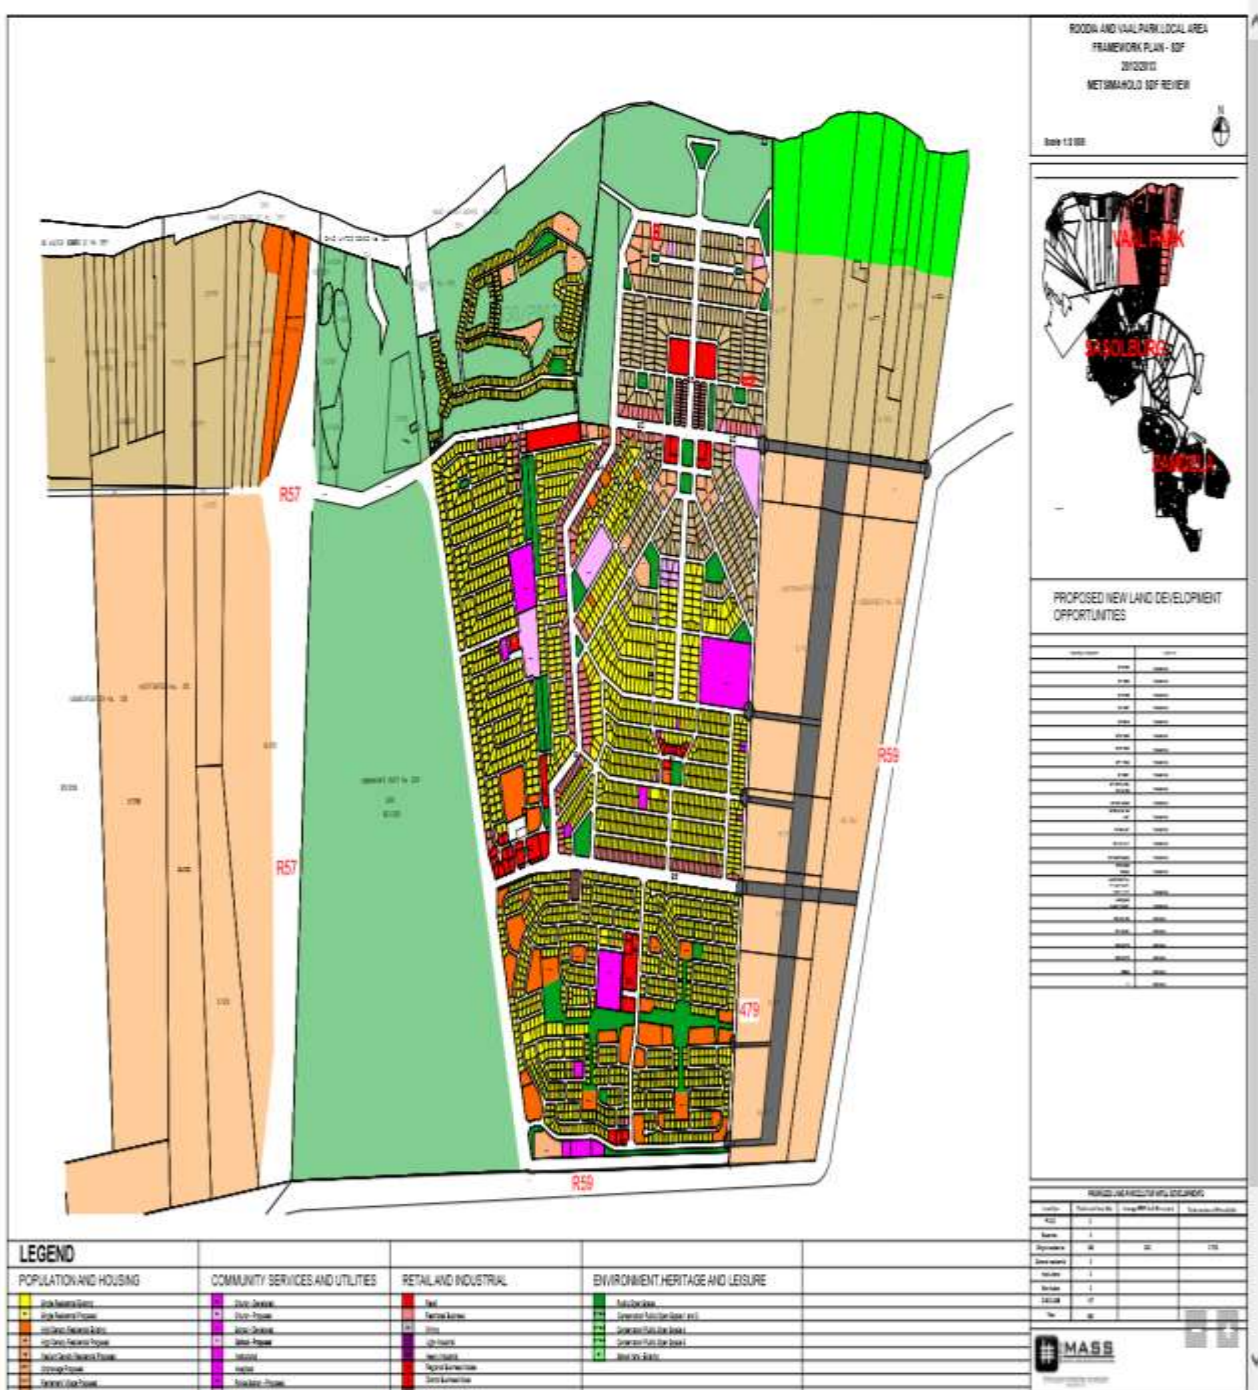

FIGURE 40: VAAL PARK AREA MAP

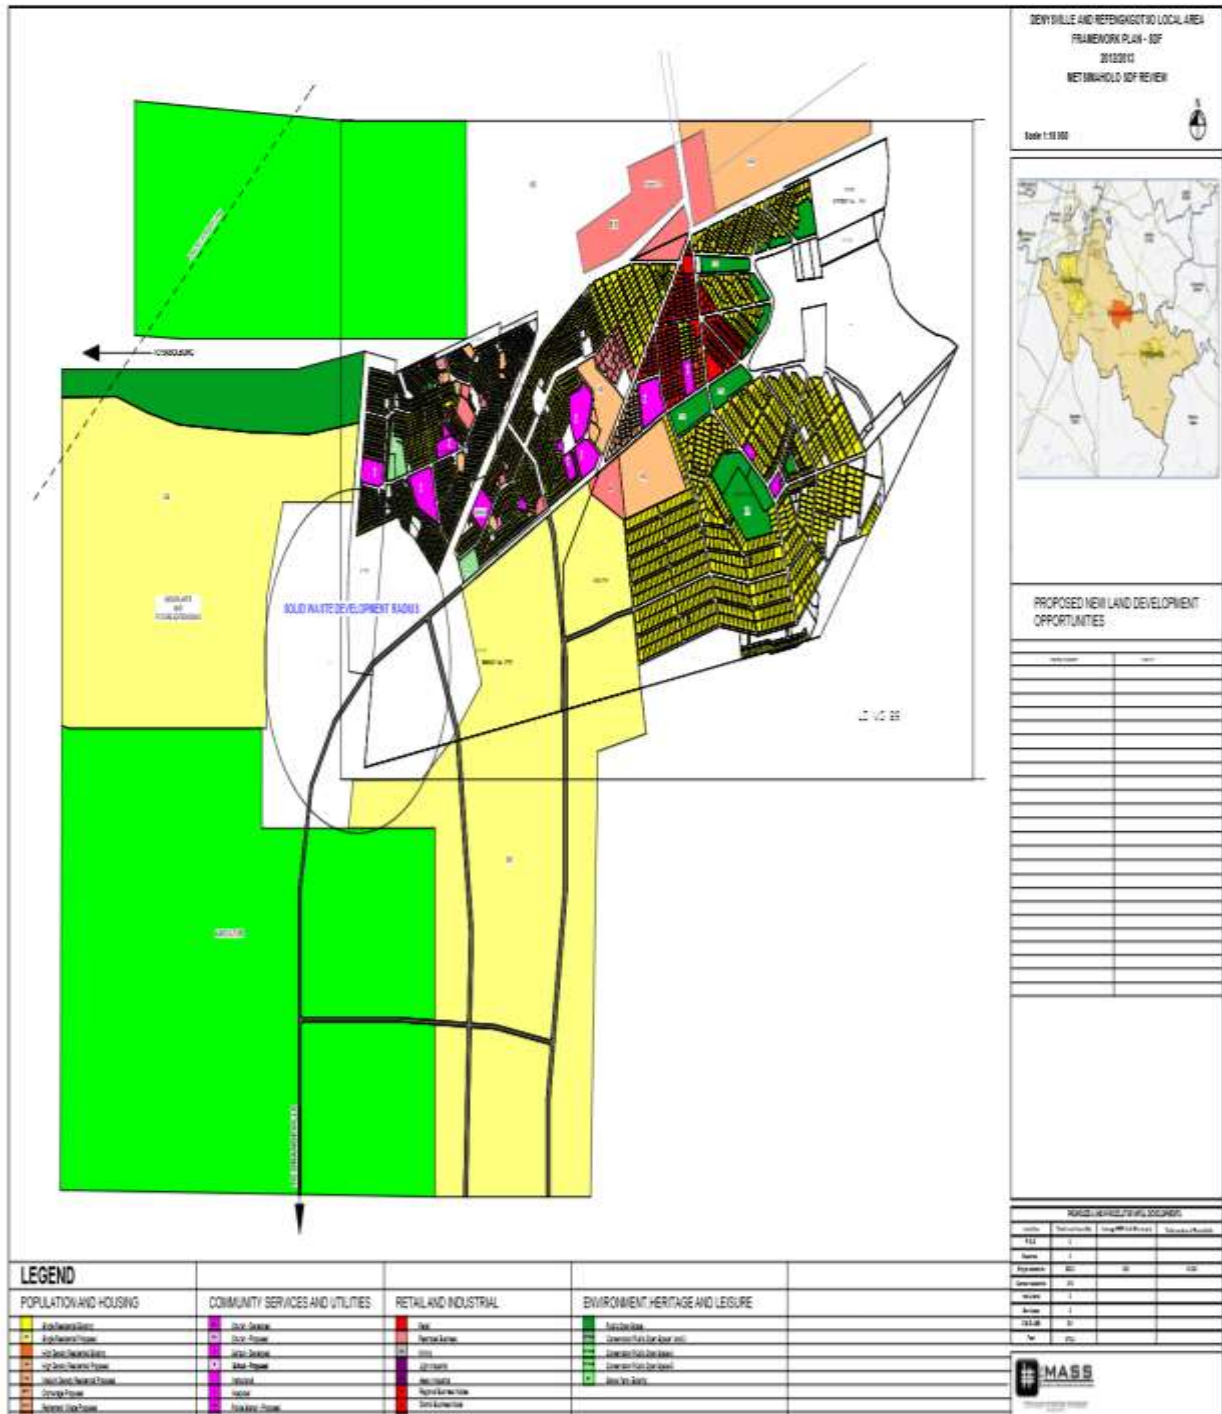

FIGURE 42: DENEYSVILLE & REFENGGGOTSO AREA MAP

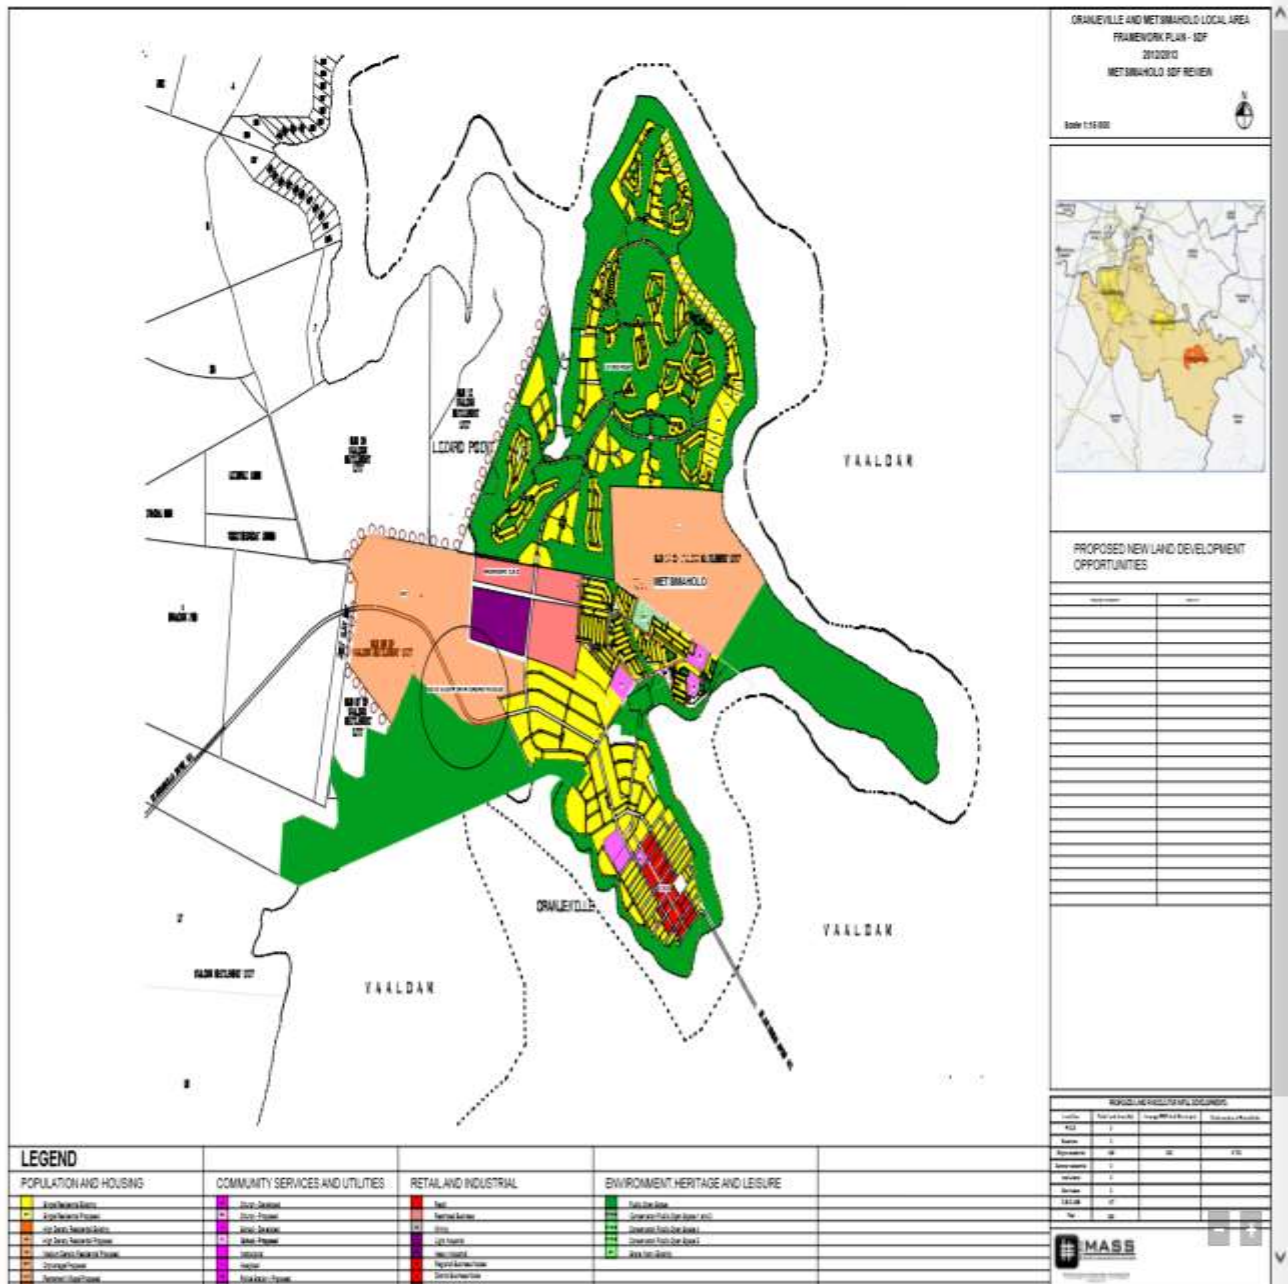

FIGURE 43: ORANJEVILLE & METSIMAHOLO AREA MAP

URBANISATION

Future growth is attributed to the strong commercial and industrial component of the region. Growth is envisaged due to coal mining opportunities as well as the weekend related tourism potential of the area. Future urbanisation will principally be attributed to farm workers that settle in the urban areas.

- Due to the dominant regional role Sasolburg plays in terms of regional service providers and industrial and commercial development, the focus of urbanisation will probably be on this centre.
- Smaller towns such as Deneysville and Oranjeville primarily accommodate farm workers migrating to these towns.
- Future directions for residential extension, predominantly in the high density low cost residential areas, were identified for all urban areas and indicated on the Spatial Framework. These proposed directions for extension of the involved urban areas were discussed in detail and generally relates to the principles of land use development as pertained in the Development Facilitation Act and the National Environmental Management Act.

GROWTH POINTS

- ☞ Sasolburg will remain a growth point in the region as indicated above.
- ☞ Deneysville and Oranjeville will continue to serve as small towns with limited economic growth potential focussing on tourism and providing a service to the agricultural community.

INFLUENCING FACTORS

The following factors influence economic development and growth in the area:

TABLE 92 : FACTORS INFLUENCING ECONOMIC DEVELOPMENT AND GROWTH

Road Infrastructure	An effective primary road network exists in the study area. The secondary road network provides effective access to the above primary road network.
Strategic Location	The study area is situated strategically in close proximity to the Gauteng and North West Provinces.
Tourism Potential	The study area has a significant weekend related tourism potential that could, in future, contribute to the GGP of the district and should be further exploited.
Mining Opportunities	Existing mining activities significantly contribute to the GGP of the district.
Agricultural Sector	The agricultural sector of certain areas in the district is extremely prominent and contributes largely to the GGP of the Fezile Dabi District, which emphasise the agricultural significance of this district. The latter results to industrial development that is agricultural orientated.

AIDS	The impact of AIDS on economic growth patterns is still largely an unknown entity. An increase in mortality will, however, place a large burden on health services and the cost thereof that will influence future economic growth.
Competition	The impact of international trade and competition in agricultural products might result that the agricultural sector is internationally less competitive. The latter implies a negative effect on economic growth leading to a possible loss in employment.
Pollution	Impact of pollution on the Vaal River and Vaal Dam through high-density development.

LAND USE MANAGEMENT

The Local Municipality has endeavoured on a formal legislative process, in terms of the Free State Township Ordinance, in order to prepare an integrated land use management system. The Draft Metsimaholo Land Use Management Scheme is being prepared as a consequence of the process. The document is in the process of being finalized and will be in place and proclaimed. As a result of latter, further proposals in this respect are redundant.

CURRENT SPATIAL FRAMEWORK – RESIDENTIAL (HOUSING)⁹³

Sasolburg: There are currently a total of 9 167 residential sites in Sasolburg of which 697 are unoccupied. The unoccupied erven largely refers to the medium income residential erven in Welgelegen West and a large portion of the Vaal Park residential area.

The current status of the mining villages of Coalbrook and Kragbron is that of established towns although proclamation thereof never occurred. Upgrading of the existing internal service networks of these villages will, however, be a prerequisite.

Zamdela: Zamdela has a total of 24 431 residential erven of which 3 000 newly planned erven are in the process of being formalised on the Farm Mooidraai 44. The establishment of an additional 3000 erven on the property appears to also be feasible.

TABLE 93: SUMMARY OF CURRENT HOUSING TRENDS-SASOLBURG/ZAMDELA URBAN AREA

RESIDENTIAL AREA	ERVEN			ERF & LAND REQUIREMENTS
	Residential erven OCCUPIED	Residential erven UNOCCUPIED	Residential erven TOTAL	
Sasolburg	8 470 ⁹⁴	697 ⁹⁵	9 167	-
Herron Banks Phase 1 & 2		360	360	2 000 ⁹⁶
Zamdela	7 156	-	7 156	

⁹³ The Metsimaholo Local Municipality has not been accredited by the Provincial Department of Human Settlements. All housing construction projects in the municipality are therefore still being planned and managed directly by Province.

⁹⁴ Excluding 1341 flats

⁹⁵ To be redesigned to also accommodate middle income housing.

⁹⁶ 2000 families occupy land disorderly in the existing Zamdela. Land to accommodate this housing has been obtained.

Harry Gwala (Leitrim)	3 147	-	3 147	
Walter Sisulu (Gortin)	5 307	-	5 307

Sub Total	2 203		2 203	
TOTAL	30 847	4 057	34 904	3 000

(Source: Local Municipality, 2009)

Deneysville: The Greater Deneysville has a total of 5 508 residential erven of which Refengkgotso has 3 231 and Deneysville 2 277.

Refengkgotso: Refengkgotso has no unoccupied erven while Deneysville has 1 783. A need for 2 500 residential erven exists in Refengkgotso, which will have to be provided urgently.

RESIDENTIAL AREA	ERVEN			ERF & LAND REQUIREMENTS	REMARKS
	Residential erven OCCUPIED	Residential erven UNOCCUPIED	Residential erven TOTAL		
Deneysville	494	1 783	2 277	-	Immediate need 2500 erven Long term need 1000 erven
Refengkgotso	3 231	-	3 231	2 500	
TOTAL	3 725	1 783	5 508	2 500	

(Source: Local Municipality, 2009)

⁹⁷ Only upgraded units of hostels 1 and 2 (707). Hostels 3 and 4 still need to be upgraded (600).

⁹⁸ Although most of these areas are not necessarily included within the Urban Fringe, the Council will support the formalisation of villages and, in the event, simplify administration related thereto. It follows naturally that formalisation of these areas would necessitate the following of all relevant legal procedures.

⁹⁹ White City is, at present empty.

¹⁰⁰ Only 40 of the 180 houses in Hunters Village are at present occupied and the area is becoming gradually derelict.

Vaal Dam and Vaal Barrage Riparian: Numerous subdivisions occurred adjacent the Vaal Dam and Vaal Barrage comprising of residential areas, some of which are in close proximity of Deneysville. The tendency to subdivide farmland adjacent the Vaal Dam will in all probability continue in according with the Vaal River Complex Guide Plan since these properties are becoming exceeding popular as holiday homes.

Vaal Dam Zoning Plan: All future developments, not located within the urban area, should take cognizance of the *Vaal Dam Zoning Map* which is being used by the Department of Water Affairs and Forestry to assess development applications adjacent to the dam.

According findings in the Municipal SDF (*under review June 2014*) Zamdela and Refengkgotso, experienced dramatic growth the past 10 years and nearly 9 000 erven were provide of late.

<u>RESIDENTIAL AREA</u>	<u>RESIDENTIAL ERVEN OCCUPIED</u>	<u>RESIDENTIAL ERVEN UNOCCUPIED</u>
Zamdela:	-	-
Amelia Extension 16 (Formal town)	3 257	-
Moidraai Extension (Informal town)	-	2 995
Refengkgotso:	-	-
Mooiplaats Extension (informal town)	2 526	-
TOTAL	6053	2 995

It follows that enormous pressure is placed on road networks, services and other urban amenities. Complicating the latter is the extreme scarcity in developable land for neighbourhood expansions, impacting severely on the delivery of housing in the municipality. *Influx to the area*, and the inability to timely address the human settlement needs, ultimately resulted in informal settlements and land invasion on properties not earmarked for residential purposes, gradually increasing in the Municipality.

A backlog of an estimated **7 679 human settlement households** *without* formal serviced erven and families have been identified, with the focal point on residents lacking in adequate income or means to live comfortably, who reside on undeveloped or developed municipal erven or open spaces, identifiable as the most needy of households, eligible for housing and the very poorest in the local community and that policies are aimed at providing as much assistance as possible or to provide in the urgent need for land on which to settle in a less formal manner.

Directions for future urban expansion therefor need to be timeously identified. These spatial proposals are deemed essential to, amongst other:

- Ensure the timely identification of developable land,
- Prepare requests to governmental role-players to financially assist the municipality,
- Consider future provision of raw and bulk services,
- Identify suitable areas for regional and local urban amenities such as cemeteries, landfill sites and the like.

The continuous shortages experienced in land and developable hinterlands for these residential precincts, exemplifies the municipality's predicament. Moreover, the Metsimaholo Municipality is located in an area extremely rich in shallow laying coal. The latter resulted in:

- Vast areas being undermined, not suitable for the placement of housing structures; especially due to shallow underground mining activities,
- Areas of strategic importance, earmarked for similar underground mining in future (in some instances opencast mining), also not suitable for the placement of housing structures,
- Land parcels suitably located for long-term extension, but negated for urban development due to unsafe conditions.
- The recent extensions of Amelia and Mooidraai already being located on rich coal deposits but, came to pass following negotiations with mining companies.

Within this frame work **the 2011 Census results confirmed a population of 149`108 and / or 39`239 households for METSIMAHOLO.**

Important to note is that there are studies and research work confirming contrasting population data and even declining prospects for Metsimaholo's growth. However: the Directorate Economic Development and Planning for an example preferred to utilize data based on informal settlement data and the daily demand for land and services which far exceeded the supply thereof.

This approach has been supported by research work released by Cabinet identifying METSIMAHOLO as one of the twenty (20) fastest growing municipalities in South Africa with a growth rate of 28,57% over ten (10) years and / or 3% per annum implicating an estimated **population between 163`375 to 169`077 by June 2014.**

Municipal data till February 2016 confirmed:

- 41`587 erven and /or portions of land established;
- 35`236 residential erven created;
- 5`032 high density units (flats / hostels) developed; and

- with the identified backlogs of 7`679 families it implicated at least 48`000 to 50`000 households by June 2016
- with an expected population growth to 230`000 people and / or 70`000 households by 2025

It follows that Metsimaholo is not exempted from challenges on land availability, township establishment and human settlement delivery processes.

Key to the mentioned challenge, Metsimaholo Local Municipality is constitutionally obligated to ensure economic growth by creating favourable conditions for sustainable economic activities within its locality. Owing to this factor provision of core infrastructure for day to day economic activities are primary objectives of the municipality. The core infrastructure and the payment of services will serve to provide the municipality with the needed revenue base.

The other key factor to local economic growth is strengthening of the agricultural sector paying, special attention to facilitating the entry of previously disadvantaged groups into this market in line with BEE principles through land acquisition and other methods.

The dominant position of Metsimaholo in the Northern Free State is apparent with 67% of the Provincial economic output generated therein. Approximately 95% of all manufacturing output is produced in Metsimaholo.

It follows that Metsimaholo can be regarded as a significant contributor to the output of the other sectors.

FIGURE 45: MUNICIPAL WIDE PLANNING

LOCAL ECONOMIC DEVELOPMENT STRATEGY

MLM has a Draft LED strategy which is waiting for public consultation and approval by Council. The purpose of the Draft MLM LED Strategy is to develop a framework for economic growth and development. Whilst the development of economic sectors and industries is the focal point, the objective is to ensure skills development, quality employment, SMME and Co-operative development becomes part of the outcome during implementation.

The economic outcomes of the strategy is not intended at measuring growth only, but the ability to respond to social needs like education, health, recreation and the general quality of life. Though the LED Strategy review study is not going to deal with social issues, its objectives is to assist the MLM to responds to social services. In essence, these outcomes should define the core of government's policy on the role and the function of a developmental government.

The purpose of the MLM LED Strategy includes the following:

- The development of local human capital that will provide capacity to the development of sectors
- The creation of quality employment for local people in various sectors of the local economy
- The stimulation of entrepreneurship through value chain development in sectors

The objectives of the MLM Strategy include the following:

- To beneficiate the existing manufacturing industry and diversify the local economy (that is, the ability to develop value chain in any industry)
- To develop and position the Metsimaholo economy as the most performing economy in the Free State Province.
- To develop and position the Metsimaholo economy as a leading leisure destination in the Free State Province
- To develop and position the Metsimaholo economy as a leading retail destination in the Fezile Dabi District.

The intended impacts include the following:

- The development of highly skilled people in the local economy
- The increase in employment of local people in the local economy

- The development of SMMEs and Co-operatives in various sectors of the local economy

INTEGRATED HUMAN SETTLEMENT (HOUSING) PLAN

BACKGROUND AND INTRODUCTION

In terms of applicable legislation such as Part 4 (sec 9) of the Housing Act, 1997 (Act 107 of 1997), every municipality must as part of its integrated development- and housing sector planning:

- take all reasonable and necessary steps within the framework of National and Provincial housing legislation and policy to ensure that the inhabitants of its area of jurisdiction have access to adequate housing on a progressive basis,
- to set housing delivery goals, to identify, expropriate and designate land for housing development, conditions not conducive to the health and safety of the inhabitants are prevented or removed (including illegal invasion of Municipal land) and services in respect of water, sanitation, electricity, roads, storm-water and drainage and transport are provided which is economically efficient, to promote the resolution of conflicts arising in housing development or
- to initiate, plan, co-ordinate, facilitate and enable appropriate housing development or to plan and manage land use and development or to be accredited or to administer national housing programs.

The Reviewed MLM Housing Sector Plan was adopted by Council for adoption 29 August 2013. Currently the Plan is under Review.

INTEGRATED WASTE MANAGEMENT PLAN

The Fezile Dabi District Municipality appointed KV3 Engineers to assist with the compilation of an Integrated Waste Management Plan (IWMP) for the Waste Management Division of the Metsimaholo Local Municipality.

The compilation of this IWMP was done in line with the Starter Document for Guidelines for the compilation of IWMP's (DEAT, 2000). The process of compiling the IWMP consisted of two phases. During the first phase an assessment of the current status of waste collection systems and existing disposal sites, service delivery capacity and a needs analysis for each of these aspects were done and completed in April 2008.

The second phase included the compilation of the IWMP. The Objectives and Goals identified were included in this phase, with alternatives for obtaining these being considered and evaluated on a high level thereafter. Based on the preferred options selected for implementation a programme was developed and cost estimates compiled to facilitate inclusion of the plan into the IDP. The MLM IWMP was approved by the Council in 2014.

STUDY AREA AND STATUS QUO

The status quo study assessed the municipal area with consideration to the various service categories as well as evaluated the service delivery in each of the towns in the Municipality. The Status Quo investigation of the waste management section considered each of these aspects of service delivery by the Metsimaholo Municipality as shown in the following table.

TABLE 94:WASTE MANAGEMENT – SERVICE CATEGORIES

SERVICE CATEGORY	SERVICE ASPECTS CONSIDERED
Refuse removal	Waste generation, collection system, collection equipment, personnel, residential, commercial, garden refuse and builders’ rubble, medical and hazardous waste, mining industry, obvious
Street Cleansing	Regularity of service, equipment, personnel, obvious needs
Landfill Sites, Transfer Stations and Bulk Containers	Waste generation, collection and transportation, personnel, equipment, landfill operation, transfer stations, garden refuse sites, obvious needs

In addition to this existing structure, the status quo study also considered planned developments, service extensions and any planned projects that have been identified in the IDP.

The Municipality currently service approximately 45 000 households and 800 businesses in Metsimaholo. The information provided did not specify the difference between domestic, commercial and industrial service points.

The waste service delivery of the Metsimaholo Municipality is co-ordinated from Sasolburg. A regular waste removal service is provided to all households and businesses within the Municipal area, except to the households in rural areas. Industrial waste is collected by private contractors appointed by the industry and taken to a suitable waste disposal site (e.g. general waste to municipal general household landfill and hazardous waste to a Class H landfill site in Gauteng viz Holfontein). The farming areas of the Metsimaholo Municipality do not receive a waste removal service. The provision of such a service is at the moment not envisaged by the Municipality.

The Municipality provides a weekly (1 day per week) waste collection service to all the households in Sasolburg, Deneysville, Oranjeville and surrounding townships. Amelia is not receiving a waste removal service currently. The frequency of waste removal services to businesses are as follows:

AREA	FREQUENCY OF SERVICE
Sasolburg	6 days a week service
Deneysville	2 times per week service
Townships	Once a week service

BUSINESSES – WASTE REMOVAL SERVICES

Street cleaning (litter picking, sweeping and cleaning of ablution facilities) is done in the following areas of the Municipality according to the frequency provided in the following table:

AREA	FREQUENCY OF SERVICE
Sasolburg CBD	5 days a week
Vaalpark	Monday - Friday
Oranjeville	No street sweeping
Deneysville	No street sweeping

STREET CLEANING

DISASTER RISK MANAGEMENT PLAN

The Constitution of the Republic of South Africa (Act 108 of 1996) places a legal obligation on the Government of South Africa to ensure the health (personal and environment) and safety of its citizens. In terms of section 41(1)(b) of the Constitution, all spheres of Government are required to “*secure the well-being of the people of the Republic*”. Section 152(1)(d) also requires that local government “*ensure a safe and healthy environment*”. In the light of the above, and the established understanding of disaster risk management, the primary responsibility for disaster risk management in South Africa rests with Government.

Section 26(g) of the Municipal Systems Act 32 of 2000 as well as sections 52 and 53 of the Disaster Management Act 57 of 2002 compels each municipal entity to develop a disaster risk management plan as part of and an integrated part of their Integrated Development Plans. This plan establishes the arrangements for disaster risk management within the Metsimaholo Local Municipality (MLM) and has been prepared in accordance with the requirements of the Disaster Management Act, 57 of 2002 (the Act) and section 26(g) of the Municipal Systems Act, 2000.

The purpose of the Metsimaholo Local Municipality Disaster Risk Management Plan (DRMP) Level 1 is to document the institutional arrangements for disaster risk management planning which includes the assignment of primary and secondary responsibilities for priority disaster risks posing a threat in the Metsimaholo Local Municipality. It further provides the broad framework within which the departments will implement the disaster risk management planning requirements of the Act and

other entities included in the organizational structure of the Metsimaholo Local Municipality. It establishes the operational procedures for disaster risk reduction planning as well as the emergency procedures to be implemented in the event of a disaster occurring or threatening to occur in council's area. It aims to facilitate an integrated and coordinated approach to disaster risk management in the municipality which will ensure that the Metsimaholo Local Municipality achieves its vision for disaster risk management which is to build a resilient people in the Metsimaholo Local Municipality who are alert, informed and self-reliant by establishing risk reduction and resilience building as core principles, and developing adequate capabilities for readiness; and effective and rapid, response and recovery.

This Disaster Risk Management plan is in line with the National Disaster Management Framework and addresses disaster risks through four key performance areas (KPAs) and three Enablers:

- KPA 1: Integrated Institutional Capacity for Disaster Risk Management
- KPA 2: Disaster Risk Assessment
- KPA 3: Disaster Risk reduction
- KPA 4: Response and recovery
- Enabler 1: Information Management and Communication
- Enabler 2: Education, Training, Public Awareness and Research
- Enabler 3: Funding arrangements for Disaster Risk Management

This plan provides a brief background study of the Metsimaholo LM in line with its current Integrated Development Plan (IDP). The Metsimaholo LM Disaster Risk Management Plan contains a macro disaster risk assessment based on field research, observation, primary- and secondary data sources. The Metsimaholo LM DMP has as far as possible been imbedded in the current reality of the municipality. The macro disaster risk assessment provides the foundation towards risk reduction planning based on the identified and prioritized disaster risks and vulnerabilities of the Metsimaholo LM. This DMP for the Metsimaholo LM furthermore provides the Municipality with a guiding framework for future disaster risk management planning by the Municipality as a whole as required by the Disaster Management Act 57 of 2002 and the Municipal Systems Act 32 of 2000. The relationship between, and different roles and responsibilities of, the Fezile Dabi District Disaster Management Centre (DRMC) and the DRMC of the Metsimaholo LM are alluded to. This plan also gives guidance in relation to the declaration of a local state of disaster, disaster classification and the institutional arrangement necessary for the successful implementation of the Act.

Each section of this plan contains a number of Actions to be taken, which need to be considered and implemented in order for the Metsimaholo LM to obtain the outcomes envisaged by this plan. Currently the Plan is under Review.

CHAPTER 5: FINANCIAL STRATEGY AND PLAN¹⁰¹

5.1 INTRODUCTION

This Chapter translates the municipality's overall strategic intent into a meaningful financial strategy and plan which covers the next medium term period.

- Key budget assumptions
- Revenue and expenditure framework
- Operating revenue framework
- Operating expenditure framework
- Capital expenditure framework

The revenue and expenditure framework is a result of the municipality's analysis and strategic planning phases and reflect what is needed over the medium term to address the municipality's growth and development. The allocated capital budget is a short to medium term response to the funding needs.

5.2 FINANCIAL STRATEGY

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that Municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on non-core and 'nice to have' items.

The Municipality will embark on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality will undertake various customer care initiatives to ensure that the Municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 51, 54, 58, 59, 64, 66, 67, 70, 72, 74, 75, 78 and 79 were used to guide the compilation of the 2016/17 MTREF.

¹⁰¹This chapter will be updated with information from the 2016/17 Final Budget Document which will be submitted to Council for approval in May 2016.

The challenges in preparing the 2016/17 MTREF are as follows:

- Ageing and poorly maintained water, electricity and roads infrastructure
- Increased prices of goods and service above the inflation rate
- Some private developments and industries receive services direct from Eskom and Rand water with no direct benefit to the municipality
- Limitation of capital projects from own funds
- Wage increases above the inflation target (Bargaining Council Agreement)
- Critical vacancies can only be phased in over 3-5 years based on the affordability
- Plant hire on a regular basis is costly and alternatives need to be explored
- Expired tenders need to be regularised to avoid recurring irregular expenditure
- Distribution losses- water and electricity require a minimisation strategy
- Illegal connections to be addressed and eliminated altogether
- Fleet management (Cost of repairs and fuel)- needs to be addressed
- Government garage costs to be evaluated against the Council owning its vehicles and reducing costs
- Overtime cost to be analysed and minimized
- Declining profit on water and electricity
- Tariffs are not cost reflective – studies in progress and strategy developed for alignment
- The need to reprioritize projects and expenditure within the existing limited resources envelope given the cash flow realities
- The increased cost of bulk water and electricity(due to tariff increases from Rand Water and Eskom),which places constant upward pressure on service tariffs to the community,
- A lack of proper maintenance master plans,
- Unfunded Mandates (Libraries, EMS) to be underpinned with appropriate service level agreements,
- Organisational review –process has commenced and needs to be speeded up.

The following budget principles and guidelines directly informed the compilation of the 2016/17MTREF:

- The 2015/16 Adjustments Budget priorities and targets,
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk water and electricity;
- Tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the National and Provincial budget and have been gazetted as required by the annual Division of Revenue Act;

- The water and electricity budget made provision for reduced distribution losses (technical and non-technical losses).

Operating Budget (OPEX)

- Zero based budgeting and incremental budgeting was used, based on historical trends, plus inflation in line with Treasury guidelines
- All increases more than the inflation rate have to be properly motivated.
- Professional fees to be unpacked

Capital Budget (CAPEX)

- Commitment letters for external funding will be a pre requisite for budgeting
- Outside funding not paid directly to the Municipality will not to reflected in the Budget
- Projects requiring external approvals will not to be included without such approvals being obtained.
- Shifting of funds to be restricted up to the Adjustment Budget or in line with the approved Virement Policy
- Own funding to be in line with anticipated cash flows and affordability
- Own funding not to exceed the surplus on Operating Budget and cash backed accumulated surpluses
- Projects should support challenges identified and key priorities as adopted at the strategy planning workshop
- Feasibility study must be done between the use of Government Garage for vehicles and the purchase vehicles out right.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2016/17 Medium-term Revenue and Expenditure Framework:

TABLE 95 : CONSOLIDATED OVERVIEW OF THE 2016/17 MTREF

	Adjustment Budget	Medium Term Revenue and Expenditure Framework		
	2015/2016	2016/2017	2017/2018	2018/2019
	R'000	R'000	R'000	R'000
Operating revenue	945 089	1 047 398	1 121 695	1 199 455
Operating expenditure	915 072	998 836	1 084 688	1 147 202
Capital expenditure	151 718	113 245	127 977	122 425

Total operating revenue

- The operating revenue exceeds R1 billion for the first time
- Has grown by 9.8 per cent or R93 million for the 2016/17 financial year when compared to the 2015/16 Adjustments Budget.
- For the two outer years, operational revenue will increase by 7.0 and 6.9 per cent respectively, equating to a total revenue growth of R244 335 million over the MTREF.
- Included in revenue are grants for operating expenditure and capital projects.

Total operating expenditure

- The operating expenditure exceeds R1 billion for the first time.
- For the 2016/17 financial year the operating expenditure appropriation is R1 005 043 million and translates into a budgeted surplus of R33 million.
- Compared to the 2015/16 Adjustments Budget, operational expenditure has increased by 9.8 per cent in the 2016/17 budget and
- For the two outer years of the MTREF, operational expenditure has grown by 7.0% and 5.8% respectively.
- The operating surplus for the two outer years is R37.1 million and to R52.4 million.

The capital budget

- The capital budget for 2016/2017 is R122.9 million for 2016/17.
 - The R55.8m (45.4%) is expected to be funded from internally generated funds.
 - Government Grants make totalling R 59.6 million make up 54.6% of the capital expenditure.
- The capital programme increases to R132 million in the 2017/18 financial year and then reduces to R111 million in 2018/19.
- The capital budget remains relatively flat over the medium-term due to constraints on internally funded capital projects due to cash flow considerations

Operating Revenue Framework

The Municipality to continue improving the quality of services provided to its citizens it needs to enhance its revenue base. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is underpinned by around the following key components:

- National Treasury’s guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 85-90 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- The municipality’s Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- The municipality’s Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.
- Tariffs to be aligned to inflation target, except where input cost for services are beyond the control of the municipality.
- Water and electricity losses of 15% and 8% respectively (technical and non-technical)
- Historical debt collection rates taken into account in determining the collection rate.
- Establishment of an in-house debt management department
- Implementation of strict credit control measures
-

OVERVIEW OF BUDGET ASSUMPTIONS

EXTERNAL FACTORS

The global economic outlook has weakened and South Africa’s economic performance has deteriorated over the past several years. It is expected that recovery from this deterioration will be slow and uneven, and that growth form 3.6 per cent in 2011 will be down to 1.4 per cent in 2014 and 3% projected in 2017.

Owing to the economic slowdown, financial resources are limited due to reduced payment levels by consumers. This has resulted in declining cash inflows, which has necessitated restrained expenditure to ensure that cash outflows remain within the affordability parameters of the Municipality’s finances.

The macro environment that influences the budget:

- Fuel increase exceeds 6% on a year-to year basis
- Depreciation of the Rand
- High unemployment rate
- Loss of jobs in manufacturing and construction industry
- Interest rate movement
- Increase in fuel cost leads to increases in all other input costs
- Growth forecast are below actual achieved
-

GENERAL INFLATION OUTLOOK AND ITS IMPACT ON THE MUNICIPAL ACTIVITIES

There are five key factors that have been taken into consideration in the compilation of the 2016/17MTREF:

- (a) National Government macro-economic targets;
- (b) The general inflationary outlook and the impact on Municipality's residents and businesses;
- (c) The impact of municipal cost drivers;
- (d) The increase in prices for bulk electricity and water; and
- (e) The increase in the cost of remuneration. Employee related costs comprise 24.8 per cent of total operating expenditure in the 2016/17 MTREF and therefore this increase above inflation places a disproportionate upward pressure on the expenditure budget. A new wage agreement must conclude between SALGBC and the municipal workers unions. The re-employment of previous dismissed staff is a factor that was taken into account.

INTEREST RATES FOR BORROWING AND INVESTMENT OF FUNDS

The MFMA specifies that borrowing can only be utilised to fund capital or refinancing of borrowing in certain conditions.

COLLECTION RATE FOR REVENUE SERVICES

The base assumption is that tariff and rating increases will increase at a rate slightly higher than CPI over the long term. It is also assumed that current economic conditions, and relatively controlled inflationary conditions, will continue for the forecasted term.

The rate of revenue collection is currently expressed as a percentage (81 per cent) of annual billings. Cash flow is assumed to be 85 per cent of billings, plus an increased collection of arrear debt from the revised collection and credit control policy. The performance of arrear collections will however only be considered a source of additional cash in-flow once the performance has been carefully monitored.

GROWTH OR DECLINE IN TAX BASE OF THE MUNICIPALITY

Debtors' revenue is assumed to increase at a rate that is influenced by the consumer debtors' collection rate, tariff/rate pricing, real growth rate of the Municipality, household formation growth rate and the poor household change rate.

Household formation is the key factor in measuring municipal revenue and expenditure growth, as servicing 'households' is a greater municipal service factor than servicing individuals. Household formation rates are assumed to convert to

household dwellings. In addition the change in the number of poor households influences the net revenue benefit derived from household formation growth, as it assumes that the same costs incurred for servicing the household exist, but that no consumer revenue is derived as the 'poor household' should limit consumption to the level of free basic services.

SALARY INCREASE

The collective agreement regarding salaries/wages came into operation on 1 July 2015 and shall remain in force until 30 June 2018. Negotiations took place for collective agreement for the period commencing 1 July 2015. The provision for salary increases is 7.6% to be in line with the collective agreement reached.

IMPACT OF NATIONAL, PROVINCIAL AND LOCAL POLICIES

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives.

ABILITY OF THE MUNICIPALITY TO SPEND AND DELIVER ON THE PROGRAMMES

It is estimated that a spending rate of between 88 and 100 per cent is achieved on operating expenditure and 100 per cent on the capital programme for the 2016/17 MTREF of which performance has been factored into the cash flow budget.

OVERVIEW OF THE ANNUAL BUDGET PROCESS

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

BUDGET PROCESS OVERVIEW

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2015) a time schedule that sets out the process to revise the IDP and prepare the budget. The Mayor tabled in Council the required the IDP and budget time schedule on 28 August 2015. Key dates applicable to the process were:

KEY DATE(S)	KEY ACTIVITIES
October and November 2015	Detail departmental budget proposals (capital and operating) submitted to the Budget and Treasury Office for consolidation and assessment against the financial planning guidelines
January and February 2016	Review of the financial strategy and key economic and financial planning assumptions by the Budget Steering Committee. This included financial forecasting and scenario considerations
February 2016	Multi-year budget proposals are submitted to the Portfolio Committee for endorsement
January 2016	Council considers the 2015/16 Mid-year Review and Adjustments Budget
March 2016	Recommendations are communicated to the respective departments.
19 March 2016	Recommendations are communicated to Informal Council Meeting, and on to the respective departments. The draft 2015/16MTREF is revised accordingly
31 March 2016	Tabling in Council of the draft 2016/17 IDP and 2016/17 MTREF for public consultation
April 2016	Public consultation
12 May 2016	Closing date for written comments
1 to 15 May 2016	finalisation of the 2016/17 IDP and 2016/17 MTREF, taking into consideration comments received from the public, comments from National Treasury, and updated information from the most recent Division of Revenue Bill and financial framework
19 May 2016	Informal Council meeting
28 May 2016	Tabling of the 2016/17 MTREF before Council for consideration and approval.

IDP AND SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

The Council of the Metsimaholo Local Municipality (MLM) adopted a 5-Year Integrated Development Plan (IDP) covering the period 2012/13 to 2016/17 in June 2012. The 2016/17 IDP therefore represents the fourth annual review of the adopted 5-Year IDP. It should be noted that this marks the last Review of the Municipal 5-Year IDP.

The principal legislation in so far as the development of IDP is concerned is the Municipal Systems Act 32 of 2000. Section 25 of the Act mandates each Municipal Council to adopt a single, inclusive and strategic plan for the development of the Municipality. As a strategic plan of the Municipality, the IDP should therefore provide a clear road map for the Municipality that would take it from the current situation to its desired state in five years. To this effect, the IDP must:

- Link, integrate and coordinate plans and take into account proposals for the development of the Municipality.
- Align the resources and capacity of the municipality with the implementation for the plan.
- Form the policy framework and general basis on which annual budgets must be based.
- Be compatible with national and provincial development plans and planning requirements that are binding on the Municipality in terms of legislation.

Integrated Development Planning and the product of this process, the IDP is a constitutional and legal process required of Municipalities. Planning in general and the IDP in particular, is a critically important management tool to help transformation, growth and development at local government level. It is an approach to planning that involves the entire Municipality and its citizens in finding the best solutions to achieve good long-term development,

The contents of the first review have been aligned to the Revised IDP Framework for Municipalities outside Metros and Secondary Cities, issued by the Department of Cooperative Governance and Traditional Affairs (CoGTA) in June 2012. It further includes the data from Census 2011 and revised service delivery targets for 2015/16 where appropriate.

FINANCIAL MODELLING AND KEY PLANNING DRIVERS

As part of the compilation of the 2016/17 MTREF, extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2016/17 MTREF:

- Municipality growth
- Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e. inflation, Eskom increases, household debt, migration patterns)
- Performance trends
- The approved 2015/16 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment levels
- Loan and investment possibilities
- The need for tariff increases versus the ability of the community to pay for services;
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 51, 51, 58, 64, 66, 67, 70, 72,74 ,75, 78 and 79 has been taken into consideration in the planning and prioritisation process.

OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realised through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise Integrated Development Planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A Municipal IDP provides a 5-Year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a Municipality to its overall development aims and guides the Municipal budget. An IDP is therefore a key instrument which Municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables Municipalities to make the best use of scarce resources and speed up service delivery.

Integrated Developmental Planning in the South African context is amongst others, an approach to planning aimed at involving the Municipality and the community to jointly find the best solutions towards sustainable development. Furthermore,

Integrated Development Planning provides a strategic environment for managing and guiding all planning, development and decision making in the Municipality.

It is important that the IDP developed by Municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the Municipality, issues of National and Provincial importance should be reflected in the IDP of the Municipality. A clear understanding of such intent is therefore imperative to ensure that the Municipality strategically complies with the key National and Provincial priorities.

The aim of this IDP compilation process was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of National and Provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the Municipality's response to these requirements.

The National and Provincial priorities, policies and strategies of importance include amongst others:

- National Development Plan (Vision 2030);
- The New Growth Path (2010);
- Free State Provincial Growth and Development Strategy (PGDS);
- National and Provincial Spatial Development Perspectives(NPSDP);
- Relevant sector plans, legislation and policy;
- National Key Performance Indicators (NKPIs);
- National Spatial Development Perspective (NSDP)
- Spatial Land Use Management
- The National Priority Outcomes and
- Back to Basics Intervention Approach
- Batho Pele Principles

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of Municipal Integrated Development Planning. Legislation stipulates clearly that a Municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP's five strategic objectives for the 2016/17 MTREF and further planning refinements that have directly informed the compilation of the budget:

In order to ensure integrated and focused service delivery between all spheres of government it was important for the municipality to align its budget priorities with that of National and Provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

The Municipality has through its strategic planning and public participation processes ensured that the Municipal Strategic Priorities were unpacked by developing Key

Performance Areas (KPA's), programmes, objectives, Key Performance Indicators (KPIs) and targets for each of the KPA's and programmes.

The said objectives, indicators and targets have been aligned to the Provincial Priority Outputs, where possible and will form the basis for the development of the Municipality's Service Delivery and Budget Implementation Plan (SDBIP) and Annual Performance Plans of Senior Management for the 2016/17 financial year.

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the Municipality. The 5-Year programme responds to the development challenges and opportunities faced by the municipality by identifying the key performance areas to achieve the five the strategic priorities mentioned above.

Lessons learned with previous IDP revision and planning cycles as well as changing environments were taken into consideration in the compilation of the fourth revised IDP, including:

- Strengthening the analysis and strategic planning processes of the Municipality;
- Ensuring better coordination through a programmatic approach and attempting to focus the budgeting process through planning interventions; and
- Strengthening performance management and monitoring systems in ensuring the objectives and deliverables are achieved.

PROVIDING CLEAN WATER AND MANAGING WASTE WATER

The Municipality is the Water Services Authority for the entire Municipality in terms of the Water Services Act, 1997 and acts as water services provider. Approximately 71 per cent of the Municipality's bulk water needs are provided directly by Rand Water in the form of purified water. The remaining 29 per cent is generated from the Municipality's water treatment works in Deneysville and Oranjeville.

The Department of Water Affairs conducts an annual performance rating of water treatment works, presenting a Blue Drop or Green Drop award respectively to potable water treatment works and waste water treatment works that meet certain criteria of excellence.

The Municipality were awarded 89.4% on the Blue Drop status, with the Municipality's drinking water quality being within the desired standards. The Metsimaholo Water Treatment Plant was awarded the best medium sized drinking water treatment works by the Department of Water Affairs. The municipality is awaiting the score of the latest assessment.

The 2 waste water treatment works will require renewals/upgrading to meet the minimum Green Drop certification standards. The Municipality received a 68.6% score on the 2013 audit and was amended for the vast improvement shown across all the systems. The municipality is awaiting the score of the latest assessment.

The following is briefly the main challenges facing the Municipality in this regard:

- The infrastructure at most of the waste water treatment works is old and insufficient to treat the increased volumes of waste water to the necessary compliance standard;
- Shortage of skilled personnel makes proper operations and maintenance difficult;
- Electrical power supply to some of the plants is often interrupted which hampers the purification processes; and
- There is a lack of proper regional catchment management, resulting in storm water entering the sewerage system.

The following are some of the steps that have been taken to address these challenges:

- Infrastructure shortcomings are being addressed through the capital budget in terms of a 5-Year upgrade plan;
- The filling of vacancies has commenced and the Waste Water Division will embark on an in-house training programme and SETA programme, especially for operational personnel;
- The Electricity Division is to install dedicated power supply lines to the plants; and
- The Division is working in consultation with the Department of Water Affairs to address catchment management.

PROVIDING FREE BASIC SERVICES: BASIC SOCIAL SERVICES PACKAGE FOR INDIGENT HOUSEHOLDS:

The social package assists residents that have difficulty paying for services and are registered as indigent households in terms of the Indigent Policy of the Municipality. With the exception of water, electricity and basic sewer, only registered indigents qualify for the free basic services.

For the 2016/17 financial year 14 000 registered indigents have been provided for in the budget. In terms of the Municipality's indigent policy registered households are entitled to 6kl free water, basic water and electricity charges, 50 kWh of electricity, sanitation and free waste removal once a week, as well as a discount and additional up to maximum of R50.00 per month.

Further detail relating to the number of households receiving free basic services, the cost of free basic services, highest level of free basic services as well as the revenue cost associated with the free basic services.

Note that the number of households in informal areas that receive free services and the cost of these services (e.g. the provision of water through stand pipes, water tankers, etc) are not taken into account in the table noted above.

REVENUE AND CREDIT MANAGEMENT

BORROWING MANAGEMENT

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. As with all other municipalities, Metsimaholo Municipality's borrowing strategy is primarily informed by the affordability of debt repayments. The structure of the Municipality's debt portfolio is dominated by annuity loans.

The Municipality has raised mainly amortising loans over the past five years, hence effectively 'front-loading' its debt service costs.

In summary, various financial risks could have a negative impact on the future borrowing capacity of the municipality. In particular, the continued ability of the Municipality to meet its revenue targets and ensure its forecasted cash flow targets are achieved will be critical in meeting the repayments of the debt service costs. As part of the compilation of the 2016/17 MTREF the potential of smoothing out the debt profile over the longer term will be investigated.

LIQUIDITY

Current ratio is a measure of the current assets divided by the current liabilities and as a benchmark the Municipality has set a limit of 1, hence at no point in time should this ratio be less than 1. For the 2015/16 MTREF the current ratio is 1.7 and 1.8 in the 2016/17 financial year and 1.7 and 1.9 for the two outer years of the MTREF. Going forward it will be necessary to maintain these levels.

The liquidity ratio is a measure of the ability of the municipality to utilize cash and cash equivalents to extinguish or retire its current liabilities immediately. Ideally the municipality should have the equivalent cash and cash equivalents on hand to meet at least the current liabilities, which should translate into a liquidity ratio of 1. Anything below 1 indicates a shortage in cash to meet creditor obligations. For the 2015/16 financial year the ratio was 0.0 and increase in to 0.1 in the 2016/17 financial year. This needs to be considered a pertinent risk for the municipality as any under collection of revenue will translate into serious financial challenges for the Municipality. As part of the longer term financial planning objectives this ratio will have to be set at a minimum of 1.

REVENUE MANAGEMENT

As part of the financial sustainability strategy, an aggressive revenue management framework will be implemented to increase cash inflow, not only from current billings but also from debtors that are in arrears in excess of 90 days. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service, credit control and debt collection.

CREDITORS MANAGEMENT

The Municipality has managed to ensure that 90 per cent of creditors are settled within the legislated 30 days of invoice. By applying daily cash flow management the municipality has managed to ensure creditors can be paid.

OTHER INDICATORS

- The electricity distribution losses have changed to 8 per cent in the 2016/17 financial year the MTREF. The initiatives to ensure these targets are achieved include managing illegal connections and theft of electricity by rolling out smart metering systems, including prepaid meters.
- The water distribution losses have been changed from 18 per cent in 2015/16 to 15 per cent in 2016/17.
- Employee costs as a percentage of operating revenue stabilised over the MTREF.
- Similar to that of employee costs, repairs and maintenance as percentage of operating revenue is also stabilising.

OVERVIEW OF BUDGET RELATED-POLICIES

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

BUDGET POLICY

No changes to the policy

PROPERTY RATES POLICY

The policy will be reviewed before approval of the budget.

CREDIT CONTROL AND DEBT COLLECTION POLICY

The policy will be reviewed before approval of the budget

INDIGENT POLICY

The policy will be reviewed before approval of the budget

VIREMENT POLICY

The policy will be reviewed before approval of the budget

ASSET POLICY

The policy will be reviewed before approval of the budget

CASH MANAGEMENT AND INVESTMENT POLICY

The policy will be reviewed before approval of the budget

SUPPLY CHAIN MANAGEMENT POLICY

The policy will be reviewed before approval of the budget

TARIFF POLICY

The Municipality's tariff policy provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery. The policy has been reviewed and tariffs amended accordingly.

2014/15 AUDITOR GENERAL MANAGEMENT REPORT

TABLE 96: AUDITOR GENERAL REPORT ON MLM FINANCIAL PERFORMANCE

REPORT OF THE AUDITOR-GENERAL TO THE FREE STATE LEGISLATURE AND THE COUNCIL ON THE METSIMAHOLO LOCAL MUNICIPALITY

Report on the financial statements

INTRODUCTION

1. I have audited the financial statements of the Metsimaholo Local Municipality which comprise the statement of financial position as at 30 June 2015, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

ACCOUNTING OFFICER'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2014 (Act No. 10 of 2014) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR-GENERAL'S RESPONSIBILITY

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit

also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

OPINION

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Metsimaholo Local Municipality as at 30 June 2015 and its financial performance and cash flows for the year then ended, in accordance with SA Standards of GRAP and the requirements of the MFMA and DoRA.

EMPHASIS OF MATTERS

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

8. As disclosed in note 40 to the financial statements, the corresponding figures for 30 June 2014 have been restated as a result of errors discovered during 2014-15 in the financial statements of the municipality at, and for the year ended, 30 June 2014.

Irregular expenditure

9. As disclosed in note 48 to the financial statements, the municipality incurred irregular expenditure of R48 211 911 (2014: R65 034 263) during the year under review mainly due to non-compliance with supply chain management requirements.

Material impairments

10. As disclosed in note 5 to the financial statements, a provision for the impairment of debtors amounting to R121 760 402 (2014: R105 858 827) had been made with regard to irrecoverable receivables from non-exchange transactions. In addition, as disclosed in note 6 to the financial statements, a provision for impairment of debtors amounting to R430 760 556 (2014: R347 118 850) has been made with regard to irrecoverable receivables from exchange transactions.

Going concern

11. Note 43 to the financial statements indicate that the municipality has unfavourable indicators in respect of trade payables and receivables. These conditions indicate the existence of an uncertainty that may cast doubt on the municipality's ability to operate as a going concern.

ADDITIONAL MATTERS

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

13. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion

thereon.

Unaudited supplementary information

14. The supplementary information does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for the selected key performance areas presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading, but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

PREDETERMINED OBJECTIVES

16. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected key performance area presented in the annual performance report of the municipality for the year ended 30 June 2015:

- KPA 1: service delivery and infrastructural development
- I evaluated the reported performance information against the overall criteria of usefulness and reliability.

17. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned key performance area. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for managing programme performance information.

18. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

19. The material findings in respect of the selected key performance area is as follows:

KPA 1 SERVICE DELIVERY AND INFRASTRUCTURAL DEVELOPMENT

USEFULNESS OF REPORTED PERFORMANCE INFORMATION

20. I did not identify material findings on the usefulness of the reported performance information for the selected key performance area KPA 1: service delivery and infrastructural development.

RELIABILITY OF REPORTED PERFORMANCE INFORMATION

21. The FMPPi requires auditees to have appropriate systems to collect, collate, verify and store performance information to ensure valid, accurate and complete reporting of actual achievements against planned objectives, indicators and targets. Adequate and reliable corroborating evidence could not be provided for 36,9% of the targets to assess the reliability of the reported performance information. The auditee's records did not permit

the application of alternative audit procedures. This was due to limitations placed on the scope of my work by the absence of information systems.

ADDITIONAL MATTER

22. I draw attention to the following matter:

ACHIEVEMENT OF PLANNED TARGETS

23. Refer to the annual performance report for information on the achievement of the planned targets for the year. This information should be considered in the context of the material findings on the reliability of the reported performance information for the selected key performance area reported in paragraph 21 of this report.

COMPLIANCE WITH LEGISLATION

24. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other related matters. My material findings on compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA, are as follows:

Annual financial statements

25. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the Municipal Finance Management Act. Material misstatements of non-current assets, current assets and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Expenditure management

26. Money owed by the municipality was not always paid within 30 days or an agreed period, as required by section 65(2)(e) of the MFMA.
27. Reasonable steps were not taken to prevent unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure, as required by section 62(1)(d) of the MFMA.

Budgets

28. The total unforeseen and unavoidable expenditure incurred exceeded R15 million, in contravention of Municipal Budget and Reporting Regulation 72.

Procurement and contract management

29. Quotations were accepted from prospective providers who are not registered on the list of accredited prospective providers and do not meet the listing requirements prescribed by the SCM policy in contravention of SCM regulation 16(b) and 17(b).
30. Contracts were extended or modified without the approval of a properly delegated official, as required by SCM Regulation 5.
31. Contracts and quotations were awarded to providers whose tax matters had not been declared by the South African Revenue Service to be in order, as required by SCM regulation 43.

INTERNAL CONTROL

32. I considered internal control relevant to my audit of the financial statements, the performance report and compliance with legislation. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the performance report and the findings on compliance with legislation included in this report.

LEADERSHIP

33. The occurrence of material irregular expenditure during the year under review indicates that integrity and ethical values were not adequate to prevent irregular expenditure and to set the standard for sound corporate governance, as they were not prevented by management.

34. Internal policies and procedures for performance information management were not developed, approved and implemented due to a slow response by management on the recommendations in the previous audit report.

FINANCIAL AND PERFORMANCE MANAGEMENT

35. The financial statements were subjected to material corrections resulting from the audit process, which are attributable to weaknesses in the municipality's design and implementation of internal controls for financial management and financial reporting, and weaknesses in the information systems.

36. The municipality did not have a proper system of record management to maintain information that supports the reported performance due to a lack of capacity in the performance information unit.

OTHER REPORTS**INVESTIGATIONS**

37. An independent consulting firm performed an investigation at the request of the municipality, which covered the period 1 July 2012 to 30 June 2014. The investigation was initiated based on an allegation of alleged irregular journal adjustments and write-offs, illegal water connections, possible theft of electrical equipment and other irregularities, alleged irregular processing of transactions on the salary system. The investigations concluded on 2 September 2015 and resulted in disciplinary procedures being instituted against seven employees. These proceedings are currently in progress.

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

REVENUE AND EXPENDITURE FRAMEWORK

A consolidated overview of the operating and capital budget proposals over the medium-term, in terms of the attached budget schedules, is provided in the table below.

TABLE 98: CONSOLIDATED REVENUE AND EXPENDITURE FRAMEWORK

	Adjustment Budget	Medium Term Revenue and Expenditure Framework		
	2015/2016	2016/2017	2017/2018	2018/2019
	R'000	R'000	R'000	R'000
Operating revenue	945 089	1 047 398	1 121 695	1 199 455
Operating expenditure	915 072	998 836	1 084 688	1 147 202
Capital expenditure	151 718	113 245	127 977	122 425

Total operating revenue

- The operating revenue exceeds R1 billion for the first time
- Has grown by 9.8 per cent or R93 million for the 2016/17 financial year when compared to the 2015/16 Adjustments Budget.
- For the two outer years, operational revenue will increase by 7.0 and 6.9 per cent respectively, equating to a total revenue growth of R244 335 million over the MTREF.
- Included in revenue are grants for operating expenditure and capital projects.

Total operating expenditure

- The operating expenditure exceeds R1 billion for the first time.
- For the 2016/17 financial year the operating expenditure appropriation is R1 005 043 million and translates into a budgeted surplus of R33 million.
- Compared to the 2015/16 Adjustments Budget, operational expenditure has increased by 9.8 per cent in the 2016/17 budget and
- For the two outer years of the MTREF, operational expenditure has grown by 7.0% and 5.8% respectively.
- The operating surplus for the two outer years is R37.1 million and to R52.4 million.

The capital budget

- The capital budget for 2016/2017 is R122.9 million for 2016/17.

- The R55.8m (45.4%) is expected to be funded from internally generated funds.
 - Government Grants totalling R 59.6 million make up 54.6% of the capital expenditure.
- The capital programme increases to R132 million in the 2017/18 financial year and then reduces to R111 million in 2018/19.
 - The capital budget remains relatively flat over the medium-term due to constraints on internally funded capital projects due to cash flow considerations

5.3 FINANCIAL PLAN

5.3.1 OPERATING REVENUE FRAMEWORK

The Municipality to continue improving the quality of services provided to its citizens it needs to enhance its revenue base. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is underpinned by around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 85-90 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.
- Tariffs to be aligned to inflation target, except where input cost for services are beyond the control of the municipality.
- Water and electricity losses of 15% and 8% respectively (technical and non-technical)
- Historical debt collection rates taken into account in determining the collection rate.
- Establishment of an in-house debt management department
- Implementation of strict credit control measures

TABLE 99 : 2016/17 MTREF – REVENUE BY SOURCE:

Description	Ref	2012/13	2013/14	2014/15	Current Year 2015/16				2016/17 Medium Term Revenue & Expenditure Framework

Revenue generated from rates and services charges forms a significant percentage of the revenue basket for the Municipality. Rates and service charge revenues comprise nearly three quarters of the total revenue mix. In the 2015/16 financial year, revenue from rates and services charges totalled R689 million or 72.9 per cent. This increases to R796 million, R857 million and R921million respectively for the MTREF. The percentage revenue generated from rates and services charges varies marginally from 76 per cent in 2016/17 to 76.8per cent in 2018/19.

Operating grants and transfers totals R131.7 million in the 2016/17 financial year and steadily increases to R162.2 million by 2018/19. Note that the year-on-year growth for the 2016/17 financial year 4.7 per cent and increases by 15.9 and 6.3 per cent in the two outer years. The following table gives a breakdown of the various operating grants and subsidies allocated to the municipality over the medium term:

TARIFF OVERVIEW

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the Municipality.

National Treasury continues to encourage municipalities to keep increases in rates, tariffs and other charges as low as possible. Municipalities must justify in their budget documentation all increases in excess of the 6.7 per cent upper limit of the South African Reserve Bank's inflation target. Excessive increases are likely to be counterproductive, resulting in higher levels of non-payment.

The percentage increases of both Eskom and Rand Water bulk tariffs are far beyond the mentioned inflation target. Given that these tariff increases are determined by external agencies, the impact they have on the municipality's expenditure and these tariffs are largely outside the control of the Municipality. Discounting the impact of these price increases in lower consumer tariffs will erode the Municipality's future financial position and viability.

It must also be appreciated that the consumer price index, as measured by CPI, is not a good measure of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilised for the calculation of the CPI consist of items such as food, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, bulk purchases of electricity and water, petrol, diesel, chemicals, etc.

The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. Within this framework the Municipality has undertaken the tariff setting process relating to service charges as follows.

PROPERTY RATES

Property rates cover the cost of the provision of general services. Determining the effective property rate tariff is therefore an integral part of the municipality's budgeting process.

National Treasury's MFMA Circular No. 51 deals, inter alia with the implementation of the Municipal Property Rates Act, with the regulations issued by the Department of Co-operative Governance. These regulations came into effect on 1 July 2009. The Property Rates Policy of the Municipality is in keeping with the Circular 51.

The following stipulations in the Property Rates Policy are highlighted:

- The first R15 000 of the market value of a property used for residential purposes is excluded from the rate-able value (Section 17(h) of the MPRA). In addition to this rebate, a further R20 000 reduction on the market value of a property will be granted in terms of the Municipality's own Property Rates Policy;
- Maximum of R50 subsidy is granted to registered indigents in terms of the Indigent Policy and free basic service as per Council resolution;
- For pensioners, physically and mentally disabled persons, *a maximum/total rebate of 30 per cent will be granted to owners of rate-able property if the total gross income does not exceed R7 500 per month of the applicant and/or his/her spouse, if any.* In this regard the following stipulations are relevant:
 - The rate-able property concerned must be occupied only by the applicant and his/her spouse, if any, and by dependants without income;
 - The applicant must submit proof of his/her age and identity and, in the case of a physically or mentally handicapped person, proof of certification by a Medical Officer of Health, also proof of the annual income from a social pension;
 - The applicant's account must be paid in full, or if not, an arrangement to pay the debt should be in place; and
 - The property must be categorized as residential.
- The Municipality may award up to 100 per cent grant-in-aid on the assessment rates of rate-able properties of certain classes such as registered welfare organizations, institutions or organizations performing charitable work, sports grounds used for purposes of amateur sport. The owner of such a property must apply to the Chief Financial Officer in the prescribed format for such a grant.

The categories of rate-able properties for purposes of levying rates and the proposed rates for the 2016/17 financial year based on a 8 per cent increase from 1 July 2016.

Property rates cover the cost of the provision of general services. Determining the effective property rate tariff is therefore an integral part of the municipality's budgeting process.

TABLE 102: 2016/17 PROPOSED PROPERTY RATES:

Agricultural	0.00185	0.00199
Unregistered Erven	Municipal services charges equal to category of property	Municipal services charges equal to category of property

The rebate allocated to approved indigents for Assessment Rates is ***a maximum of*** R50.00 per month. **For budget purposes the assumption was made that there will be 14 000 approved indigents registered by the end of the 2016/17 financial year.** Additional income at 8 % tariff increase of assessment rates represents R9 350 070 per annum. The supplementary valuation roll will be implemented with effect from 1 July 2016.

5.3.2 OPERATING EXPENDITURE FRAMEWORK

The Municipality's expenditure framework for the 2016/17 budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- Zero based budgets and incremental method based on historical information, plus inflation in line with Treasury guidelines
- All increases more than the inflation to be properly motivated.
- The filling of vacancies should support challenges identified and key priorities as adopted at the strategic workshop. The organisational structure is in the process of being revised.

The following table is a high level summary of the 2016/17 budget and MTREF (classified per main type of operating expenditure):

TABLE 104 : SUMMARY OF OPERATING EXPENDITURE BY STANDARD CLASSIFICATION

Operating expenditure by main type	2015/16	2016/17	2017/18	2018/19
	Adjusted Budget	MTREF	MTREF	MTREF
	R'000	R'000	R'000	R'000

Finance charges	1 189	2 241	1 789	1 293
General expenses	112 920	129 455	138 645	140 668
Depreciation	70 084	73 535	79 658	84 406
	915 072	998 836	1 084 688	1 147 202

Employee Related Cost: The budgeted allocation for employee related costs for the 2016/17 financial year totals R249.4 million, which equates to 25 per cent of the total operating expenditure. The three year collective SALGBC agreement has lapsed at 30 June 2015. Salary increases as per collective agreement have been factored into this budget at a percentage increase of 7.6 per cent for the 2016/17 financial year. An annual increase of 7.2 and 6.9 per cent has been included in the two outer years of the MTREF. Provision is also made for the increments of R1 million that is included in line item Vacancies. Based on the proposed amended structure critical vacancies need to be determined. As a baseline, provision is made for vacancies of R5 million still to be filled in 2015/2016 and in 2016/2017. The vacancies based on the approved structure is R40 million. The organisational structure is currently in the process of being reviewed.

Remuneration of councillors: The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.

Bad Debts: The provision of debt impairment was determined based on an annual collection rate of 87 per cent and the Debt collection and Credit Control Policy of the Municipality. For the 2016/17 financial year this amount equates to R84 million and decreases to R77 million by 2018/19. While this expenditure is considered to be a non-cash flow item, it is the municipality's realistically anticipated revenues.

Depreciation: Provision for depreciation and asset impairment has been informed by the Accounting Standards. Depreciation is widely considered a proxy for the measurement of the rate of asset consumption. Budget appropriations in this regard are R70 million in 2015/2016. The budget appropriation totals R73.5 million for the 2016/17 financial and equates to 7.4 per cent of the total operating expenditure.

Finance charges: Finance charges consist primarily of the repayment of interest on long-term finance lease (cost of capital) and use of bank overdraft facility. Finance charges make up 0.2 per cent (R2.2 million) of operating expenditure excluding annual redemption for 2016/17 and decreases to R1.3 million by 2018/19.

Bulk purchases Electricity and Water: Bulk purchases are directly informed by the purchase of electricity from Eskom and water from Rand Water. The annual price increases have been factored into the budget appropriations and directly inform the revenue provisions. The expenditures include technical losses and distribution losses for water and electricity.

Repairs and maintenance: Repairs and maintenance (Schedule A4 as other materials) comprises of amongst others, materials for maintenance, cleaning materials and chemicals, as well as contractors. In line with the Municipality's repairs and maintenance plan this group of expenditure has been prioritised to ensure sustainability of the Municipality's infrastructure. For 2016/17 the appropriation against this group of expenditure has increased by 13 per cent (R4 million) and then continues to grow at 4.7 and 14 per cent for the two outer years of which budget allocation is in excess of R45.6 million by 2018/19.

Contracted services: In the 2016/17 financial year, contracted services totalled R36.5 million and has increased by 9.6 per cent. For the two outer years growth has been limited to 4.6 and a negative growth of 8.7 per cent. The outcome of this exercise will be factored into the next budget cycle and it is envisaged that additional cost savings measures will be implemented.

General expenses: Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved. Growth has been limited to 11.98 per cent for 2016/17 and curbed at 9.6 and 1.5 per cent for the two outer years, indicating that significant cost savings have been already realised.

TABLE 105: DETAILED/ALLOCATION OF CERTAIN EXPENDITURE

Expenditure	Department	Amount	Explanation
Legal Cost	Organisational Development and Corporate Services	R5 000 000	Court cases, investigations, labour cases, etc.

- Finance Charges 0.2%
- Employee cost 25,0%
- Repair and maintenace 3.8%
- Depreciation 7.4%

Main operational expenditure categories for the 2016/17 financial year

PRIORITY GIVEN TO REPAIRS AND MAINTENANCE

Aligned to the priority being given to preserving and maintaining the Municipality’s current infrastructure, the 2016/17 budget and MTREF provide for extensive growth in the area of asset maintenance. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. Remuneration is still included in Employee cost but in the table the employees cost of Technical Services is added to reflect the repair and maintenance cost. Considering these cost drivers, the following table is a consolidation of all the expenditures associated with repairs and maintenance:

TABLE 106: OPERATIONAL REPAIRS AND MAINTENANCE

	2012/13	2013/14	2014/15	Current 2015/16			2016//2017MTREF		
R thousand	Audit Outcome	Audit Outcome	Audit Outcome	Original budget	Adjusted Budget	Full year forecast	Budget 2016/17	Budget 2017/18	Budget 2018/19
Employee related cost	43 030	44 385	33 431	52 135	53 735	53 735	60 016	64 341	68 952
Materials and contracted services	23 608	15 227	25 693	33 537	33 791	33 791	38 199	39 978	45 591
Total repairs and maintenance expenditure	66 638	59 612	59 124	85 672	87 526	87 526	98 215	104 319	114 543

During the compilation of the 2016/17 MTREF operational budget repairs and maintenance was identified as a strategic imperative owing to the ageing infrastructure and historic deferred maintenance. To this end, repairs and maintenance increases by 14.6 per cent in the 2016/17 financial year, from R85.6 million to R98.2million. During the 2015/16 Adjustment Budget this allocation was adjusted slightly upwards to R87.5 million. As part of the 2016/17MTREF this strategic imperative remains a priority as can be seen by the budget appropriations over the MTREF. The total allocation for 2016/17 equates to R98.2 million an increase of 12.2 per cent in relation to the Adjustment Budget and then continues to grow at 6.2 and 9.8per cent over the MTREF.

TABLE 107: REPAIR AND MAINTANANCE PER ASSETS CLASS

R thousand	2012/13	2013/14	2014/15	Current 2015/16			2016//2017MTREF

Infrastructure Sanitation	8 871	10 227	16 818	11 369	11 686	11 686	13 751	14 694	15 818
Infrastructure Other	4 873	4 948	3 363	5 695	5 695	5 695	8 701	9 248	9 775
Community	1 105	194	244	669	830	830	782	781	813
Other assets	6 187	5 609	4 722	9 276	9 546	9 546	11 164	11 630	16 152
Total Operating expenditure	66 638	59 612	59 124	85 672	87 526	87 526	98 215	104 319	114 543

For the 2016/17 financial year, 79 per cent or R77.6 million of total repairs and maintenance will be spent on infrastructure assets. Electricity infrastructure has received a significant proportion of this allocation totalling 18.1 per cent (R17.8 million), road infrastructure at 30.5 per cent (R29.9 million), water at 16.4 per cent (R16.1 million) and sanitation at 14.0 per cent (R13.8 million). Community assets have been allocated R782 000 of total repairs and maintenance equating to 0.8 per cent.

3.3 CAPITAL EXPENDITURE FRAMEWORK

The following table provides a breakdown of budgeted capital expenditure by vote:

TABLE 108: 2016/17 MEDIUM-TERM CAPITAL BUDGET PER VOTE

Capital expenditure by vote	2015/16		2016/17		2017/18		2018/19	
	Adjusted Budget	%	MTREF	%	MTREF	%		%

Financial Services	661	0,44	665	0,59	2 800	2,19	3 500	2,86
Economic Dev. and Planning			2 250	1,99	1 750	1,37	0	
Housing & Urban Planning								
Economic Development			2 250	1,99	1 750	1,37		
TOTAL	151 718	100	113 245	100	127 977	100	122 425	100

The biggest single portion of capital expenditure is allocated to Technical Services which amounts to **R91million** in 2016/2017 increasing to **R78 million** in 2018/2019. It is projected that capital expenditure will increase over the next three years. This mainly due to delays in confirmation of funding from external sources (province and district) inadequate planning by departments of their capital projects over the medium term. This issue is continuously being addressed as part of the municipality's budget reform programme. However, the two outer years will be populated with projects during the 2016/2017 budget and IDP process. Roads receive R53.7 million in 2016/17 which equates to 47.4 per cent, electricity at 26.7 per cent, R30.2 million, water at 2.2 per cent, R2.5 million and sewer 1.9 per cent, R2.2 million. Some of the salient projects to be undertaken over the medium-term includes, amongst others:

CONDITIONAL GRANTS

Project Name	Source of Funding	2016/2017	2017/2018	2018/2019
Gortin sewer	MIG		R9.9m

CAPITAL FUNDING SOURCES

The following table is a breakdown of the funding composition of the 2016/17 Medium-Term capital programme:

Capital funding per Source	2015/2016 Adjustment Budget	%	2016/17 Budget	%	2017/18 Budget	%	18/19 Budget	%
	R'000		R'000		R'000			
National Government Grants	76 854	50.7	59 591	48.5	58 473	44.2	58 818	53.0
Other donations/ grants	853	0.6	7 500	6.1				
Own Funds	56 011	36.9	55 841	45.4	73 754	55.8	52 177	47.0
External Borrowing	18 000	11.9						
Total Capital Funding by Source	151 718	100	122 932	100	132 227	100	110 995	100

The above table is graphically represented below, for the 2016/17 financial year.

Capital grants and receipts equates to 48.5per cent of the total funding source which represents R59.6 million for the 2016/17 financial year and steadily decrease to R58.8 million or 53 per cent by 2018/2019, Grants received from MIG and DoE .

Internally generated funds consist of R55.8 million in 2016/17, R73.8 million in 2017/18 and R52.2 million in 2018/19.

MLM CAPITAL PROJECTS

MLM in its project planning and identification has considered the guidelines as stated in Section 2 (Revised IDP Framework 2012) which deals with determining the priority services as well as project prioritisation. The Guide Pack (paragraph 2.10) on “In-depth Analysis of consolidation of Key Development priorities and Planning Guidelines” provide a useful basis of key development priorities to consider.

KEY DEVELOPMENT PRIORITIES

The Key Development Priorities identified are summarised as follows:

(1) Infrastructural Priorities

- Improvement and maintenance of:
 - Roads (tar and gravel);
 - Electricity provision;
 - Storm-water drainage systems;
 - Public transport systems;
 - Water distribution networks;
 - Sewerage/sanitation network systems;
 - Housing;
 - Sport facilities;
 - Community facilities, e.g. Libraries, community halls, etc.;
 - Cemeteries;
 - Open spaces;
 - Health care centres;
 - Recreational facilities;
 - Safety and security facilities, e.g. police stations, municipal police satellite stations, etc.

(2) Social Priorities

- The reduction of the spread of HIV/Aids;
- Community development;
- Air and water pollution;
- The provision of housing/housing support centres;
- The reduction of the crime rate;
- Proper traffic safety;
- Proper policing (municipal policing, as well as support to the SAPS);
- Proper emergency services;
- The promotion of equity, specifically regarding disadvantaged people (e.g. women, youth, disabled and aged people); and
- proper disaster management regarding:
 - Train collisions;
 - Air disasters;

- flood disasters; etc

(3) Spatial Priorities

- An effective land-use management system;
- A compact urban structure;
- The implementation of a proper environmental management plan; and
- need for spatial integration.

(4) Economic Priorities

- Job creation for unskilled, semi-skilled and skilled residents;
- The promotion of human resource development and the creation of a skills register;
- The implementation of a proper policy for informal economic sectors;
- The formulation and implementation of a:
- Local Economic Development Plan; and
- Marketing Plan.
- Support to national job creation programmes and community based enterprises.

(5) Institutional

- Improvement of the level of payment for services;
- Improvement of skills levels (capacitation) of councillors and officials;
- The establishment of satellite municipal offices (e.g. customer care centres);
- Proper communication between Council and communities;
- Proper revenue base;
- Applicable rates and taxes according to the level of services provided;
- Change in culture and operations at Council level;
- Addressing of land ownership and land tenure issues;
- Eradication of corruption and nepotism;
- Participatory IDP process;
- Proper management systems;
- Proper information technology systems;
- Adhere to the principle “serving our people”;
- Productivity of staff;
- Proper equipment;
- Effective decision-making process;
- Proper billing system; and
- Adequately trained and skilled staff.

These Capital Projects have been identified and aligned accordingly with intent to achieve to the above-mentioned Key Development Priorities. The tables below reflect the proposed MLM List of IDP Capital projects for 2016/17.

Proposed Financing	2015/2016	2016/2017	2016/2017	2018/2019

Municipalities are spheres of government close to communities and as vehicle to ensure that coordination of government programmes is realized. Metsimaholo has established IDP Representative Forums as platform to engage with sector Departments with intent to elevate community developmental needs for possible interventions and sustainable development. As results, every sector department will then commit to challenges relevant to their respective department for project prioritization.

The table below reflect on the Free State Provincial Departments Capital Projects Plan:

Provincial Department	Project name	Project Status	Source of funding	Type of infrastructure	Project duration		Total project cost	Budget Allocated
					Date start	Date finish		2016/17

MLM FIVE YEARS SERVICE DELIVERY AND IDP PROJECTS ACHIEVED

This 2016/17 Financial Year is the fifth year of the 5-Year term of Office for the current Council which subsequently marks the final year. The Municipal Council have adopted its Integrated Development Plan (IDP) in 2011 for the period 2012/13 to 2016/17 and this was in accordance with Municipal Systems Act (MSA), Act 32, and Section 25(1), that each Municipal Council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the Municipality. Therefore, it is for this reason that it is prudent for the Municipal Council to reflect on its achievements since the beginning of its term. It should also be noted that even though a lot has to be done, MLM has made remarkable strides in ensuring that its communities are provided with quality basic services (water, electricity, sanitation, housing and improved roads infrastructure). Moreover, a cognisance should be noted that this Municipality has adopted Back to Basic approach wherein an extensive institutional diagnostic report was compiled on service delivery gaps. As a result, the Municipality has adopted an Action Plan with necessary intervention strategies which will aggressively address those challenges to better the lives of its communities to the better. The Municipality has been rated 19 in the whole country and the first in the Province for the Municipality which provides quality basic service as per national standards and sound financial management and good practices. Metsimaholo Local Municipality has retained Unqualified Report for the past two conservative years (2013/4 and 2014/15). The Municipality has improved its financial management drastically as compared to its historical financial position: Disclaimer: (2011/12).

The report below reflects the Service Delivery Achievements for the period 2011/12 to 2015/16.

WATER PROJECTS:

PROJECT NAME	WARD	VALUE	STATUS	FINANCIAL YEAR
Refenggotso: Augmentation of bulk water supply (Resivour)	3,4 &20	R41,295,476.00	Retention	

GENERAL COMMENT ON ACCESS & STATUS ON WATER PROVISION

Access by households to potable piped water inside the dwelling and yard showed a positive movement and increased from 81.0% in 2001 to 93.8% in 2011, whilst piped water outside the yard decreased from 17.8% to 5.3% over the same period. Generally, Municipality on access to potable water:

ACCESS TYPE	STATUS
Piped in dwelling/yards	93.8%
Piped to community stands	5, 3% (Themba Khubeka and Gortin) –newly developed areas. However, development/line connection is under construction.
No access to piped water	0,9%

ELECTRICITY PROJECTS

PROJECT NAME	WARD	VALUE	STATUS	FINANCIAL YEAR
Amelia: Construction of Bulk Supply substation.	19	R 55,000,000.00	Completed	14/15
Metsimaholo:				

Installation of 25 high mast lights.	ALL	R 6,289,123.00	Completed	11/12
Amelia: Construction of Bulk Supply substation, Network reticulation and house connections with prepaid metres.	19	R 43,000,000.00	Construction	

GENERAL COMMENT ON THE PROVISION OF ELECTRICITY

In general the Municipality is continuing to provide an effective service to the community despite problems such as cabling theft and unavoidable interruptions.

38 255 households RDP and Above have access to basic electricity whilst 7 500 with no access (Themba Kubheka, Amelia & Gortin). However, the electricity connections with prepaid meters, is under construction in Amelia.

Current status is:

Electricity for lighting = 86,6%

Candles for lighting = 10%

Other = 3,4%¹⁰²

SANITATION/SEWER PROJECTS

PROJECT NAME	WARD	VALUE	STATUS	FINANCIAL YEAR
Amelia: Sewer Network for 3257 stands and pump Station	19	R 40,165,226,00	Retention	
Metsimaholo Ext 6: Construction of sewer network, House connection Outside				

¹⁰² 2011, STATSSA Report.

toilet structure.	1	R 5,431,000.00	Completed	14/15
Gortin Sanitation Phase 4	1	R 102,000,000.00	Construction	

GENERAL COMMENT ON THE PROVISION OF SANITATION SERVICES

The Municipality has well serviced records for sanitation. Currently the predominant sanitation system used is waterborne as 86, 5% are using flushing toilets. Moreover, the Municipality is also busy with completing sewer house connections in Gortin.

ROADS AND STORM WATER PROJECTS

PROJECT NAME	WARD	VALUE	STATUS	FINANCIAL YEAR
Gortin: Construction of 7.4km new interlocking paved roads and storm water drainage (MIS196940)	1	R 41,864,058.00	Completed	13/14

GENERAL COMMENT ON MUNICIPAL ROADS INFRASTRUCTURE

Metsimaholo access to road is fair though maintenance is needed in most of the tarred road due to high volume of traffic and weather conditions that affect standard (pot holes). Currently, Municipality is allocating its bigger portion of Budget to address the road infrastructure which is ageing, in the whole Municipality. Townships Paving Programme will be rolled out as part of Municipal Road Infrastructure development towards vision 2030 (NDP)

HOUSING DELIVERY AND PROJECTS

MUNICIPALITY: METSIMAHOLO	TOTAL NO. HOUSES BUILT POST 1994	
	No. Houses Built	% on Access to Housing
TOTAL	15 343¹⁰³ (RDPS)	79 % Access to Basic Housing

With the assistance and support of the provincial government (Human Settlement), we are building of 392 CRU's amounting to 116 million rand at Ward 12 at Zamdela. Phase one (1), with more than 90 units are already completed. The project is worth million rand.

ZAMDELA CRU UNITS

For those residents of Hostel 4 in Ward 12, Zamdela who opted for alternative housing, we have completed, with the support of our provincial department of Human Settlement, 74 high standard low cost houses in Nic Ferreira at Sasolburg. Building of another 74 high standard low cost houses, referred to as Breaking New Grounds (BNGs), in NIC Ferreira. This project has been completed with road infrastructure to be finished in no time.

¹⁰³2013/14 Metsimaholo Local Municipality IDP pg.153

GENERAL COMMENT ON THE PROVISION OF INTEGRATED HUMAN SETTLEMENT

Metsimaholo Local Municipality will strive towards making sure that all inhabitants have access to basic housing and integrated Human settlement is promoted. Currently, a land has been identified and purchased (Mooibraai) for alternative settlement of the residents without conducive Human Settlement and as a strategy to curb the informal settlement within this Municipality. In partnership with Cogta Human Settlement, the Housing Infrastructure development is underway in Themba Kubheka.

Part of Wonderfontein farm (next to Shell Garage, when you enter Sasolburg from Parys), has been purchased for the municipality for the development of a Cosmo – City. We are working very closely with our provincial government for the success of this magnificent and huge development in our municipal area.

MUNICIPAL PROVISION OF REFUSE REMOVAL (WASTE MANAGEMENT)

The table below will indicate the existing level of development in the community, the names of settlements and their level of service in respect of Waste Management or Refuse removal:

Status of sector plan (Integrated Waste Management Plan)				Approved by Council
National target for waste removal service¹⁰⁴				Kerbside removal once a week
Approved service level/standard for municipality¹⁰⁵:				
Formal areas				Kerbside removal once a week
Informal areas				
Is the service rendered internally or externally?				Internally
Number of HHs with/without access to waste removal¹⁰⁶:				
Total HHs	RDP and above	Below RDP¹⁰⁷	No service¹⁰⁸	Interventions required to address backlogs
45 755	36 755		9 000	
What are the reasons for HHs without access or below RDP access?¹⁰⁹				
Budget constraints, lack of staff and equipment				
Areas or settlements with/without access to basic service level/standard				
Name of area/settlement	Total no. of HHs	No. of HHs at or above RDP	No. of HHs below RDP¹¹⁰	No. of HHs with no access¹¹¹
Amelia	3 000	-	-	3 000
Themba Kubheka	2 635	-	-	3 000
Iraq Phase 1, 2 & 5	4 000	-	-	3 000
Status of the provision of free waste removal:				
Is there an approved FBS policy? (Yes/No)				Yes
If No, indicate the reason(s)				N/A
How many HHs are benefitting from the Council approved FBS policy?				

¹⁰⁴ For example: 100% access by all HHs by 2015

¹⁰⁵ For example: Kerbside removal at least once a week.

¹⁰⁶ For the municipality as a whole

¹⁰⁷ Part of backlog

¹⁰⁸ Part of backlog

¹⁰⁹ For example: no bulk infrastructure, no reticulation infrastructure, ageing infrastructure, lack of capacity to operate and maintain service, etc.

¹¹⁰ Part of backlog

¹¹¹ Part of backlog

GENERAL COMMENT ON REFUSE COLLECTION/WASTE MANAGEMENT

The Division Waste Management implements its strategic plan, service delivery and integrated waste management plan to adhere and align with the National Standard for weekly refuse collection.

The actions taken include inter-alia:

- Once a week refuse removal for ±50 000 households
- Six [6] day business refuse removal to ±1000 businesses
- Five [5] day refuse removal from both Industries and Hostels.

SOCIAL AND COMMUNITY FACILITES PROJECTS

Metsimaholo Local Municipality in collaboration with Rand Water have established six new family parks in Wards 1, 2,10, 11, 14 and 15 whereby in so far R 1,5 Million rand is spent for each park.

FAMILY PARK IN WARD 10

DEPUTY MINISTER: HONOURABLE MABHUDAFASI, MMC: LED & HOUSING AND WARD COUNCILLORS IN THE OPENING OF FAMILY PARK IN WARD 10

The Municipality has completed the building of the municipal offices at Zamdela worth 36 million rand. This project is an initiative aiming at bringing services closer to the people.

NEW MUNICIPAL BUILDING

With the assistance of the Department of Sport, Arts and Culture, we have built a state of the art library at Oranjeville. The project has been completed and the library is operational.

PUBLIC LIBRARY IN ORANJEVILLE

LOCAL ECONOMIC DEVELOPMENT (LED) AND JOB CREATION INITIATIVES IMPLEMENTED

More than 2 000 job opportunities were created through EPWP and CWP Programmes as initiative to reduce unemployment and poverty. Database for Small businesses was developed and were given opportunity to contribute in the local service provision through supply chain management principles. In some case a formal training in partnership with relevant stakeholders or Departments was given to SMMEs as capacity building and support.

The table below indicates the impact level on the initiatives undertaken:

JOB OPPORNITIES CREATED THROUGH LOCAL ECONOMIC DEVELOPMENT INITIATIVES

LOCATION	EXPANDED PUBLIC WORKS(EPWP)	COMMUNITY WORK PROGRAMME (CWP)	SMMEs ESTABLISHED & SUPPORTED	COORPORATIVES IDENTIFIED & SUPPORTED	MUNICIPAL OPERATION HLASELA
Zamdela	700	650		100	30
Refengkgotso	223	351		23	20
Metsimaholo Township	100	220		8	10
TOTAL	1023	1221	150	131	60

The following programmes were carried out through these initiatives:

- Interlocking paved roads & Storm water
- Storm water channels
- Fencing and cleaning of graveyards
- Environmental Management (removal of Illegal dumping and establish family parks).

The following Projects were successfully completed through Social Labour Plans (SLPs) in partnership with Private Sector:

FUNDING AGENT	PROJECT DESCRIPTION	STATUS
Copper Sunset	Harry Gwala Crèche	Completed
Bothma & Sons and Mission	Deneysville Crèche	Completed
Copper Sunset)	Waterless Sewerage system (Kopanelang Thuto Prim School)	Completed
Sasol Mining	Construction of new clinic	Completed
Anglo Coal(New Vaal Collieries)	Construction of Harry Gwala Multi-Purpose Sport Centre	Completed

MAYORAL BURSARY SCHEME

Metsimaholo Local Municipality offers bursaries in the following fields of study, which are aligned to help and address the country's dilemma of skills shortage:

- Chemical Engineering
- Draughtsmanship
- Civil Engineering
- Electrical Engineering
- Finance (Accounting)
- Horticulture
- Human Resource Management
- Information Technology
- Internal Auditing
- Law
- Marketing and Communication
- Plumbing
- Public Management and Governance
- Public Relations
- Sport and Recreation Studies
- Supply Chain Management

Below please find how bursaries were allocated to **362 students** from 2011 to 2015

CHAPTER 6: PERFORMANCE MANAGEMENT SYSTEM

6.1 INTRODUCTION

Performance Management refers to the application of activities to ensure that goals in the IDP are consistently being met in an effective and efficient manner. The overall aim of the Metsimaholo Local Municipality's (MLM) Performance Management System is to ensure that the organisation and all its subsystems are working together in an optimum fashion to achieve desired results. Achieving overall goals require several continuous activities, including identification and prioritisation of desired results, establishing means to measure progress towards those results, setting standards for assessing the achievements of results, tracing and measuring progress towards results, exchange feedback and in doing so continuously monitor and evaluate progress.

The MLM's Performance Management Framework, which was approved by Council in April 2012, is centrally informed by legislation, policy and regulations relevant to performance management in local government. The contents of relevant documentation provide a framework that local governments should comply with so as to ensure continuous development that will culminate in the improvement of quality of lives of local communities.

The purpose of this Chapter is to reflect on the implementation, monitoring and reporting of the IDP and SDBIP through the MLM's Performance Management System.

6.2 BACKGROUND

To comprehend the relationship between IDP review and performance management, the following quotation from the Performance Management Guide for Municipalities, DPLG, 2001 (draft2, page 16) becomes relevant:

"The IDP process and the performance management process should appear to be seamlessly integrated. Integrated development planning fulfils the planning stage of performance management. Performance management fulfils the implementation management, monitoring and evaluation of the IDP process".

Although the IDP is a 5-Year plan, Section 34 of the Municipal Systems Act (2000) states that it has to be renewed annually. The IDP has to be handled at the highest level, hence the allocation of the responsibility to the Executive Mayor to manage. The Executive Mayor may assign responsibilities related to the development and management of the IDP to the Municipal Manager. As Head of the Administration, the Municipal Manager in turn is responsible and accountable for the formation of an efficient and accountable administration to give effect to the IDP.

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end of-year service delivery targets, set in the budget and IDP. It determines the performance agreements for the Municipal Manager and other

Section 57 Managers, whose performance can then be monitored through Section 71 monthly reports, and evaluated through the annual report process.

Municipal Performance Regulations for Municipal Managers and Managers directly accountable to the Municipal Manager, published in 2006 seek to set out how the performance of Municipal Managers will be uniformly directed, monitored and improved. The regulations address both the employment contract of a Municipal Manager and the Managers directly accountable to the Municipal Manager (Section 57 Managers). The setting of targets is under investigation to comply with the suggested DPLG calculator, to present specific scores per target achievement that can advance strategic decision-making, and to evaluate MLM's successes against strategic intent.

Good corporate citizenship is therefore seen as the method that municipalities uses to set their priorities through the Performance Management System as per the IDP, conduct their business as per the SDBIP and relate to the community they serve through community input and public participation. The purpose of the IDP is to ensure that the resources available to the municipality are directed at the delivery of programmes, projects and processes that meet agreed municipal priority areas.

Once a municipality starts to implement its IDP it is important to monitor that:

- The delivery is happening in the planned manner;
- The municipality is using its resources most efficiently; and
- It is producing the quality of delivery envisaged.

OVERVIEW OF PERFORMANCE MANAGEMENT IN THE MUNICIPALITY

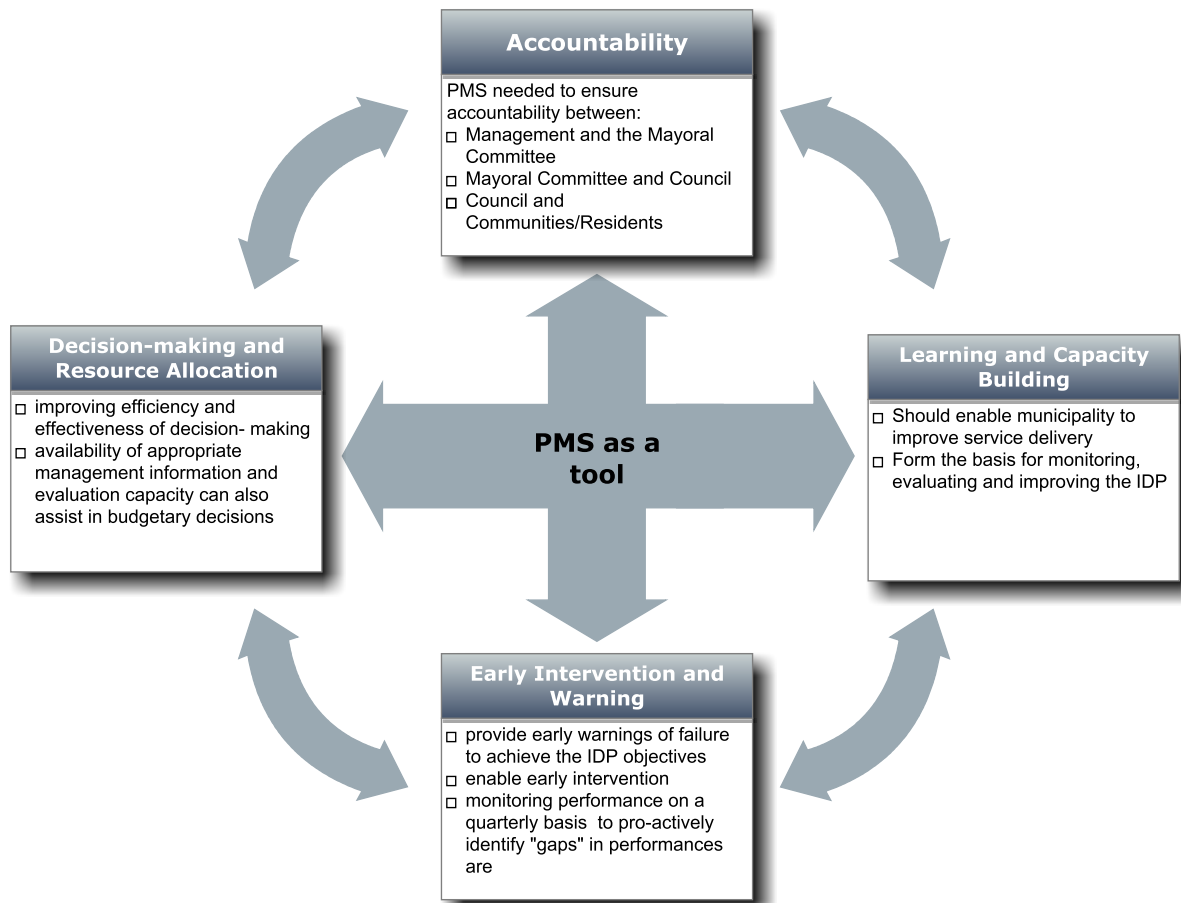

POLICY FRAMEWORK

In April 2012 the Council adopted a Revised Performance Management Framework regulating the Performance Management System in the Municipality. The framework provides guidelines on the development and implementation of the organisational Performance Management System.

The objectives of institutionalising a Performance Management System, beyond the fulfilling of legislative requirements, is to serve as a primary mechanism to monitor, review and improve the implementation of the municipality's IDP. In doing so, it should fulfill the following functions:

- Promoting accountability
- Decision-making and resource allocation
- Guiding development of municipal capacity-building programmes
- Creating a culture for best practice, shared-learning within the municipality
- Develop meaningful intervention mechanisms and early warning system
- Create pressure for change at various levels

- Contribute to the overall development of the Local Government System

Adapted from the Balanced Scorecard by Robert S. Kaplan and Dave P. Norton. Harvard Business School Press. 1996.

FIGURE 46: FUNCTIONS OF A PERFORMANCE MANAGEMENT SYSTEM

APPROACH TO PERFORMANCE MANAGEMENT

A performance management model can be defined as the grouping together of performance indicators, sometimes based on the type of indicator, into logical categories or groups (often called perspectives), as a means to enhance the ability of an organisation to manage and analyse its performance. As such a model provides a common framework by which the performance of an organisation and individuals can be measured and managed. It further ensures that a balanced set of measures are employed that are not relying on only one facet of performance and therefore not presenting a holistic assessment of the performance of an organisation.

The widely used performance model is the Balanced Scorecard. The Balanced Scorecard ensures that there is balance in the set of indicators being compiled. It was developed as a means to measure performance by combining both financial and non-financial indicators to create a balance between financial and other critical functional areas in organizations. By combining financial indicators and non-financial indicators in a single report, the Balanced

Scorecard aims to provide managers with richer and more relevant information about the activities that they are managing than is provided by financial indicators alone.

The Balanced Scorecard performance model required the use of scorecards as a systematic approach to assessing internal results while probing the external environment. This Model groups its indicators into four perspectives: financial perspectives, customer perspective, internal perspective and learning and growth perspective.

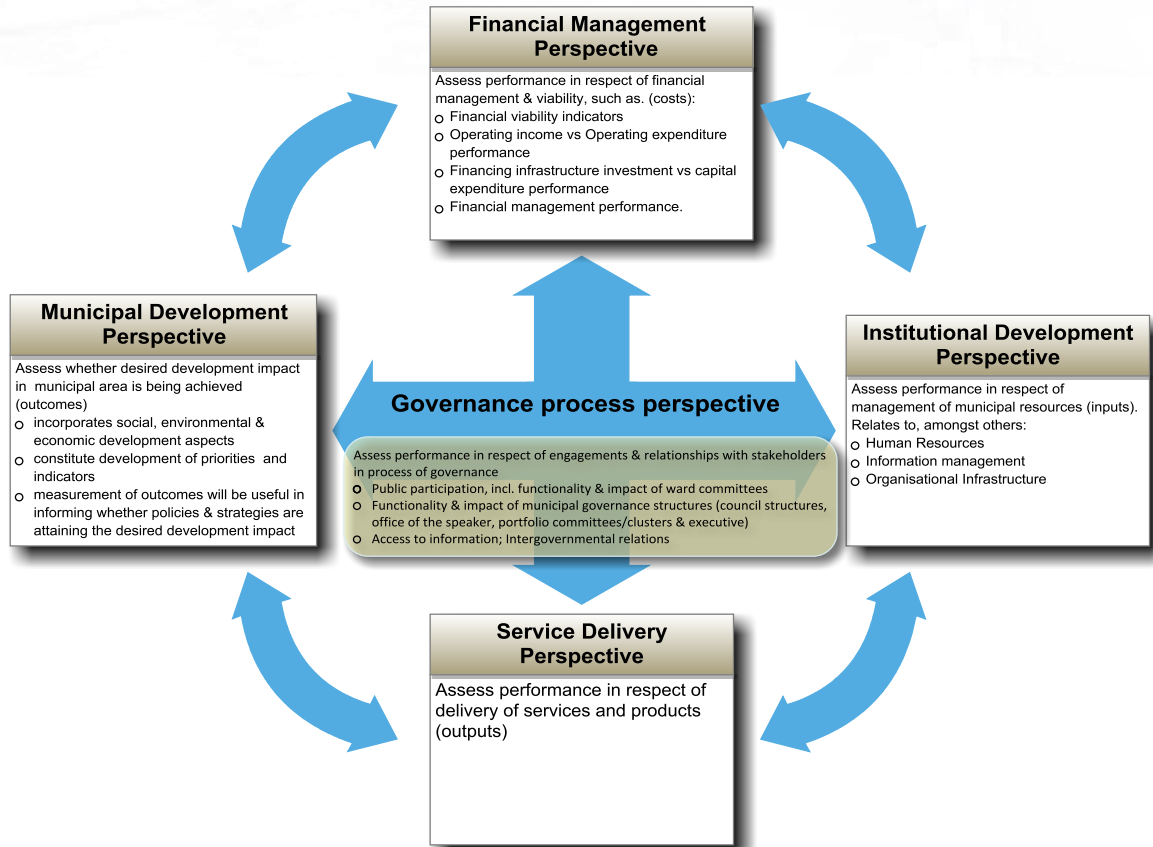

The Municipal Scorecard

A number of performance models are available and any of them could be applied by the Metsimaholo Local Municipality. Some of the available models include the Municipal Scorecard, Balanced Scorecard and the Key Performance Area Model. However, the Municipality has chosen the Municipal Scorecard (MS) as its preferred performance management model. In terms of the MS model all indicators are grouped together into four perspectives as depicted in the figure below e.g. inputs, process, outputs and outcomes.

A Municipal Scorecard Model is a balanced scorecard adapted for measuring key performance on developmental areas that are relevant to municipal service delivery and the public sector. This municipal scorecard model groups indicators together under the 5-Year Local Govt Strategic Agenda Key Performance Areas (KPA's). There are five KPA's that municipalities are required to align their strategic planning on and these cut across every functional area of a Municipality.

The Municipal scorecard measures a Municipality's Performance through grouping the Municipal Indicators under these perspectives:

- I. The Municipal Development Perspective
- II. The Service Delivery Perspective
- III. The Institutional Development Perspective
- IV. The Financial Management Perspective
- V. Governance Process Perspective

Adapted from the Balanced Scorecard by Robert S. Kaplan and Dave P. Norton. Harvard Business School Press. 1996.

FIGURE 47: MUNICIPAL SCORECARD

The Municipal Development Perspective

In this perspective, the Municipality will assess whether the desired development impact in the Municipal area is being achieved. It incorporates social, environmental and economic development aspects. This perspective will constitute the development of priorities for the Municipal area and indicators that tell us whether the desired development outcomes are being achieved. It is expected that the development priorities and indicators, will often lie within the shared accountability of the Municipality, other spheres of government and civil society. The measurement of developmental outcomes in the Municipal area will be useful in informing whether policies and strategies are attaining the desired development impact.

The Service Delivery Perspective

This perspective will assess performance with respect to the delivery of services and products. This relates to the output of the Municipality.

The Institutional Development Perspective

This perspective will assess performance with respect to the management of municipal resources:

- Human Resources
- Information
- Organisational Infrastructure
- Asset management

This relates to the inputs of the Municipality

The Financial Management Perspective

The perspective will assess performance with respect to financial management and viability, including:

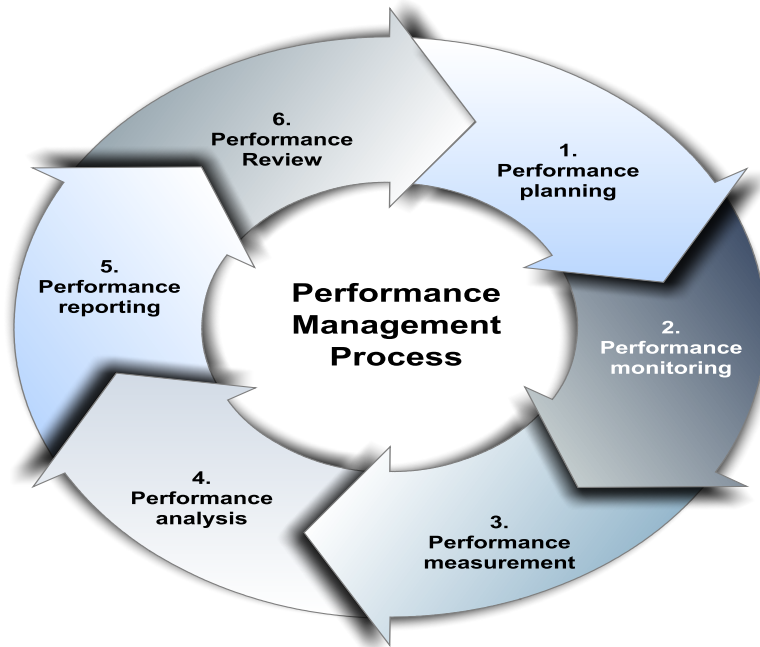

- Financial viability indicators
- Operating income vs Operating expenditure performance
- Financing infrastructure investment vs capital expenditure performance
- Financial management performance.

Governance Process Perspective

This perspective will assess performance with respect to engagements and relationships with its stakeholders in the process of governance. This perspective will include, amongst others:

- Public participation, including the functionality and impact of ward committees
- Functionality and impact of municipal governance structure (council structures including the Offices of the Speaker, and Portfolio Committees/Clusters and Executive)
- Access to information
- Intergovernmental relations

FIGUR49:PERFORMANCE MANAGEMENT CYCLE

PLANNING, MONITORING, REPORTING AND REVIEW OF PERFORMANCE MANAGEMENT

The annual process of Managing Performance at institutional level in the Municipality involves the steps as set out in the diagram below PERFORMANCE PLANNING

The performance of the Municipality is to be managed in terms of its IDP and the process of compiling an IDP and the annual review thereof therefore constitutes the process of planning for performance. It should be noted that the last component of the cycle is that of performance review and the outcome of such a review process must inform the next cycle of IDP compilation/review by focusing the planning processes on those areas in which the Municipality has under-performed.

The IDP process constitutes the process of planning for performance. It is crucial that for all the priorities in the IDP, objectives, indicators and targets are developed.

PERFORMANCE MONITORING

Performance monitoring is an ongoing process by which a Director accountable for a specific indicator as set out in the institutional scorecard (or a service delivery target contained in an annual SDBIP) continuously monitors current performance against targets set. The aim of the monitoring process is to take appropriate and immediate interim (or preliminary) action where the indication is that a target is not going to be met by the time that the formal process of performance measurement, analysis, reporting and review is due.

In the instance of Metsimaholo Local it is recommended that the institutional scorecard of the Municipality be reported on a quarterly basis to the Mayoral Committee. Performance monitoring requires that in between the relevant formal cycle of performance measurement appropriate action be taken, should it become evident that a specific performance target is not going to be met. It is therefore proposed that at least on a weekly/bi-weekly basis Directors track performance trends against targets for those indicators that fall within the area of accountability of their respective Departments as a means to early identify performance related problems and take appropriate remedial action.

PERFORMANCE MEASUREMENT

Performance measurement refers to the formal process of collecting and capturing performance data to enable reporting to take place for each key performance indicator and against the target set for such indicator. Given the fact that initially at least the Municipality will have to rely on a manual process to manage its performance provision has been made in the institutional scorecard for the name of an official responsible for reporting on each indicator (please note that this might not necessarily be the same official accountable for performance on an indicator).

This will require that the Municipality sets in place a proper information management system (electronically or otherwise) so that the internal audit section is able to access information regularly and to verify its correctness.

PERFORMANCE ANALYSIS

Performance analysis involves the process of making sense of measurements. It requires interpretation of the measurements as conducted in terms of the previous step to determine whether targets have been met and exceeded and to project whether future targets will be met or not. Where targets have not been met performance analysis requires that the reasons therefore should be examined and corrective action recommended. Where targets have been met or exceeded, the key factors that resulted in such success should be documented and shared so as to ensure organisational learning.

PERFORMANCE REPORTING AND REVIEW

Reporting requires that the municipality takes the priorities of the organization, its performance objectives, indicators, targets, measurements and analysis, and presents this information in a simple and accessible format, relevant and useful to the specific target group, for review. The Service Delivery and Budget Implementation Plan (SDBIP) is the basis to meet our reporting requirements. Generally four reports are submitted per annum to Council. 12 Monthly reports are generated for the top executive management and Mayco meetings.

The following is an overview of the different kinds of reports required

TABLE 100: PMS - PERFORMANCE REPORTING REQUIREMENTS

Report type	Description
<p>Monthly / Quarterly IDP and SDBIP reporting</p>	<p>The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets set in the budget and IDP. It determines the performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process.</p> <p>The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of Section 71(1)(a) and (e). For example, if there is lower than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise its spending downwards to ensure that it does not borrow more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue- collection capacity if the municipality wants to maintain its levels of service delivery and expenditure.</p> <p>Section 1 of the MFMA, Act 56 of 2003 states that the SDBIP as a detailed plan approved by the mayor of a municipality in terms of service delivery should make projections for each month of the revenue to be collected by council, as well as the operational and</p>
<p>Mid-year budget and report</p>	<p>Section 72 of the MFMA requires the accounting officer to prepare and submit a report on the performance of the municipality during the first half of the financial year. The report must be submitted to the mayor, National Treasury as well as the relevant Provincial Treasury. As with all other reports this is a crucial report for the Council to consider mid-year performance and what adjustments</p>
<p>Performance report</p>	<p>Section 46 of the Municipal Systems Act states that a municipality must prepare for each financial year, a performance report that reflects the following:</p> <ul style="list-style-type: none"> • The performance of the municipality and of each external service provided during that financial year; • A comparison of the performances referred to in the above paragraph with targets set for and performances in the previous financial year; and • Measures to be taken to improve on the performance <p>The performance report must be submitted at the end of the financial year and will be made public as part of the annual report in terms of chapter 12 of the MFMA. The publication thereof will also afford the public the opportunity to judge the performance of the municipality against the targets set in the various planning instruments.</p>

Report type	Description
<p>Annual report</p>	<p>Every municipality and every municipal entity under the municipality's control is required by Section 121 to prepare an annual report for each financial year, which must include:</p> <ul style="list-style-type: none"> • the annual financial statements of the municipality or municipal entity as submitted to the Auditor-General for audit (and, if applicable, consolidated annual financial statements); • the Auditor-General's audit report on the financial statements; • an assessment by the accounting officer of any arrears on municipal taxes and service charges; • particulars of any corrective action taken or to be taken in response to issues raised in the audit reports; • any explanations that may be necessary to clarify issues in connection with the financial statements; • any information as determined by the municipality, or, in the case of a municipal entity, the entity or its parent municipality; • any recommendations of the municipality's audit committee, or, in the case of a municipal entity, the audit committee of the entity or of its parent municipality; • an assessment by the accounting officer of the municipality's performance against the measurable performance objectives for revenue collection and for each vote in the municipality's approved budget for the relevant financial year; • an assessment by the accounting officer of the municipality's performance against any measurable performance objectives set in terms the service delivery agreement or other agreement between the entity and its parent municipality; • the annual performance report prepared by a municipality; and • any other information as may be prescribed. <p>Section 127 prescribes the submission and tabling of annual reports. In terms of this section:</p> <ol style="list-style-type: none"> 1) The accounting officer of a municipal entity must, within six months after the end of a financial year, submit the entity's annual report for that financial year to the municipal manager of its parent municipality. 2) The mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control. 3) If the mayor, for whatever reason, is unable to table in the council the annual report of the municipality, or the annual report of any municipal entity under the municipality's sole or shared control, within seven months after the end of the financial year to which the report relates, the mayor must: <ol style="list-style-type: none"> (a) submit to the council a written explanation setting out the reasons for the delay, together with any components of the annual report that are ready; and (b) Submit to the council the outstanding annual report or the outstanding components of the annual report as soon as may be possible.

Report type	Description
Oversight report	<p>The council of a municipality must consider the municipality's annual report (and that of any municipal entity under the municipality's control), and in terms of Section 129, within two months from the date of tabling of the annual report, must adopt an oversight report containing the council's comments, which must include a statement whether the council:</p> <ul style="list-style-type: none"> (a) has approved the annual report with or without reservations; (b) has rejected the annual report; or (c) has referred the annual report back for revision of those components that can be revised. <p>In terms of Section 132, the following documents must be submitted by the accounting officer to the provincial legislature within seven days after the municipal council has adopted the relevant oversight report:</p> <ul style="list-style-type: none"> (a) the annual report (or any components thereof) of each municipality and each municipal entity in the province; and (b) All oversight reports adopted on those annual reports. It is important to note that the oversight committee working with these reports should be chaired by the opposition party.

CONCLUSION

Performance Management is a process which permeates right through the organisation, from its vision and mission statement, to its objectives and eventually its staff. It applies to the performance of an organisation as well as to all persons related to it.

Within the South African Municipal environment this also includes the political figures who are responsible for that organisation. As indicated earlier, the *White Paper on Local Government* (1997) states that key mechanisms to ensuring service excellence in municipalities include integrated development planning, performance management and community participation. As a start there are certain measures that a municipality simply must implement.

It must:

- Establish a Performance Management System that is commensurate with its resources, best suited to its circumstances and in line with its targets, priorities and objectives contained in its IDP.
- Promote a culture of performance management among its political structures, political office-bearers, councillors and administration.
- Administer its affairs in an economical, effective, efficient and accountable manner (Municipal Systems Act, 2000).

Appropriate Key Performance Indicators must be established to serve as a yardstick for measuring individual and organisational performance. These key performance indicators

should include outcomes and the impact of a performance area with regards to a Municipality’s development priorities and objectives as set out in its IDP.

In light of the above, the MLM is well underway to following the intent and requirements of legislation and will soon conclude a comprehensive approach on how the system can fulfill obligations to the fullest extent intended by law. During the next phase of implementation narrower attention will be given to IDP and budget alignment, public view on measurement and achievement, the plot of business processes to effectively start to measure the organisational performance into operational expenditure.
