

**STATEMENT BY THE EXECUTIVE MAYOR,
CLLR BRUTUS MAHLAKU
ON THE DISRUPTION OF BASIC SERVICES AT
ZAMDELA AND SASOLBURG**

Let me take this opportunity to greet all our residents in our municipal area, Zamdela, Sasolburg, Deneyville, Refenggotso, Oranjeville and Metsimaholo. We hereby would like to inform you that we are aware of the electricity outages, spilling of sewer and water outages etc. and this impacts negatively upon your lives. The disruptions of these basic services are as a result of people who are unlawfully tampering with our basic services networks such as our pump stations and this results in the water and electricity outages.

Our employees embarked on an illegal strike since 17 June 2014 and since then we have experienced disruptions in basic services. The municipality has come up with contingency plans in order to address the issue of disruptions of services as not all employees are on this illegal strike and even those who were on strike did come back to work. We really appreciate their cooperation by those employees who also were on strike by responding to the call made by the management of the municipality. The municipality's doors are always open for those employees who feel aggrieved and still have labour related issues.

We really want to sincerely apologise to our entire community in Metsimaholo for the inconvenience caused by the disruptions of services. We don't have any technical problems at our electricity stations or water and sewer pump stations, except these criminal activities that we are experiencing.

We are calling upon our residents, especially in Zamdela and Sasolburg to assist the municipality if they see any person tampering at our electricity substations or pump stations as this affects the delivery of water and electricity and it impacts negatively upon the residents. Let us report these people who are committing these criminal activities to the police station in Zamdela and Sasolburg or call the following numbers:
